November Bulletin.

The report of Mr. A. Blue, Secretary of the Bureau of Industries, for Ontario, shows that the yield of fall wheat is 3,630,631 bushels less than last year and 5,152,693 bushels less than the average of six years. The average yield per acre is 16 bushels. Spring wheat is set down as a general failure, and the yield is more than 4 millions less than the average for the previous six years. The barley crop was saved from discoloration, but while the grain is bright, it is light in weight and the yield is lighter than it has been for the past six years. Owing to the hot dry weather the oat crop was also much below the average, though in a few places good accounts are given. The same account is given of Pease, the estimated yield being 12 million bushels against 16 millions last year. From the province of Manitoba encouraging reports have been received.

Photo Gallery.

Mr. Jos. Duncumb, of Beverley, England wishes to inform the public of Richmond Hill and vicinity that in a few days he intends opening his English Studio over Mr. Jos. Football Match.

The best contested and most exciting football match ever played here took place last Saturday afternoon between the team of the Toronto School of Medicine and Richmond Hill's first eleven. The play was excellent on both sides, but the visitors won by two goals to one. Seldom has a lacrosse match created more interest than was shown by the onlookers. We give below the names of the players on each side, but feel sorry we have not space at our disposal to speak of individual play, which on both sides was most commendable to the players: Medicals—Campbell, Williams, Jones, McGillivray W., McGillivray C., McGorman, Palmer, Holiday, McConaghy, McBride and Haggie. Richmond Hill—Palmer, McConaghy, Haffey, Mager, Piper, Ashton, Frisby, Watson, Jamieson, Forster and Smith.

PERSONALS.

Mrs. Craig, of Sandhill, returned home on Monday, after a few days' visit here with her sister, Mrs. J. W. Elliott.

Mr. Jos. Duncumb, of Beverley, England, will open, in a few days, his English Studio, one door south of Hall's store, and the citizens are already putting on their sweetest smiles. We wish Mr. Duncumb success.

Rev. Mr. Percival, late of British Columbia, preached two eloquent and earnest sermons in the Presbyterian Church here last Sunday to large congregations. Mr. Percival is a gentleman of excellent address, is very fluent, and carries his audience with him with the most perfect ease. Should the congregations here and at Thornhill be successful in getting him to accept a call they will be most fortunate in their choice, as he has already proved himself to be a speaker of more than ordinary ability.

Fire Brigade Meeting.

Minutes of Regular meeting of Richmond Hill Fire Brigade held in Council chamber on evening of Nov. 4th, 1887, after an excellent practice in all departments.

Captain Pugsley in the chair. John Piper being notified by Sec'y to attend at this meeting to show cause, wish ed his connection with the Brigade to be kept up as his absence arose from circumstances over which he had no control. He was therefore allowed to retain his membership.

Arthur Ashton and Walter Palmer were proposed by C. Wright as fit and proper persons to become firemen. These names to be placed in minutes to be balloted for at next regular meeting.

Sec'y intimated that a proposition was made to him to bring before Brigade. The Richmond Hill Cornet Band having disbanded and instruments being in the hands of some of the members, these members were willing to give up these instruments and all music in their possession to the Brigade if they would organize and keep up a band under the auspices of the Fire Brigade.

A discussion followed in which the Capt., Savage, Readitt and Mentahn, Bridger and others took part and finally moved by T. F. McMahon seconded by C. E. Sheppard that the executive committee with the mover be a committee to wait on certain members of late band to enquire into question of re-organizing band under auspices of Fire Brigade and report at a special meeting at as early a date as possible. —Carried.

Chairman stated to members that provision would be made at special meeting for the discussion of our Annual Entertainment to be held on New Year's night. Meeting adjourned.
 H. A. NICHOLS Sec'y.

35,000 BOYS

—IN—

TORONTO, and more to follow—what an undertaking to supply them with CLOTHING. We don't do it all, but we sell our share. Our sales in this department double every year, till now, at the smallest calculation, we sell 10,000 Boys' Suits a year, and we fully expect that our sales this year will not fall short of 20,000 Suits. This seems a great deal, and some of you may reasonably doubt it—nevertheless we are prepared to prove our statements and show to the satisfaction of everyone that we do the largest trade in Boys' Clothing in Canada. Where do they all come from? We'll try and tell you:—

Those little Sailor Suits at \$1.50, that we never have enough of, come from over the sea—they could not be produced in this country for less than \$3.50; then the little Halifax Tweed Suits at \$1.50 come from the same quarter, and those parents who have bought this line from us say that it is a real pleasure to have boys when they can be clothed so neatly and at such little cost. Again, England supplies those Corduroy Suits that never wear out, and remind old country people of their childhood, playing about the green lanes of their native village.

GERMANY is away ahead in plaided and fancy suits, and though their goods are not quite as substantial as those of English or Canadian manufacture, they excel in design and nobby styles. It is an extraordinary fact that amid the keenest competition English manufacturers have ever maintained the highest standard of durability in their fabrics—very often sacrificing style of quality—while the Germans seem to put their entire energy into design and style, forgetting that people require a durable as well as a stylish garment.

FRANCE sends us some of the finest and prettiest suits, but the difficulty with French Clothing is its enormous cost and unsuitable styles for Canadian trade.

CANADA. Last, but not least, comes our own country, and let it be said to her credit that like the mother country, England, the standard of quality is maintained in her cloth manufacturers.

We make up thousands of suits ourselves, employing hundreds of hands—men and women throughout the surrounding country—paying out in wages from \$40,000 to \$50,000, and many a little cottage in the suburbs has been paid for out of the savings of our employees,—and now a word about prices.

- Boys' Blue Serge Suits, only 98c.
- Boys' Brown Serge Suits, only 98c.
- Boys' Halifax Tread Suits, only \$1.50.
- Boys' Sailor suits, only \$1.50.
- Boys' Borduroy suits, only \$2.50.
- Boys' Fancy Plaided suits.
- Boys' Norfolk suits.
- Boys' Eaton, Harrow and Rugby suits.
- Boys' Jersey suits.
