OUR HIGH SCHOOL.

During the past few weeks the impression seems to have got abroad that the Board of Education purposed reducing the salary of the Principalship of our High School for the coming year. We are glad to state that the prompt action of the Board at its last meeting, instructing the Secretary to advertise for a Head Master at the same salary as at present, namely \$1000 per annum, does not bear out this impression. It is true the rate levied on the village for High School purposes this year will be high, but the Board wisely conceived the idea that to reduce the salary would be to endanger the efficiency of the school. It should also be borne in mind that two-fifths of the amount to be raised this year properly belongs to last year's assessment. For the past ten years, at least, Richmond Hill High School has maintained an enviable position among the educational institutions of this province, and, with a good staff of teachers and a watchful Board of Trustees, there is no reason why it should not prosper in the future as it has in the past.

As we have said on former occasions, the County Council committed a grave error in recommending the establishment of three new High Schools in a county already well supplied with educational advantages. But as the deed has been accomplished nothing remains for us to do, but to make the best of our situation. That the opening of the new schools will be detrimental to those already in existence cannot be denied, but Richmond Hill with a large sweep of country on all sides should be able to hold her own with any in the county. Newmarket and Aurora being only four miles apart, both will suffer, and the chances are that the former will in time be reduced to a two-master school. But with other schools we have nothing to do, our work is at home. We have every reason to be proud of the school in our midst. We have only to look around us to point to scores of men holding prominent positions, men who are an honor to their country, and who owe their education to Richmond Hill's High School. Let every citizen feel a pride in assisting so worthy an institution.

THE CROPS.

No apology is necessary in again referring to a question in which all classes of people are so much interested. When THE LIBERAL last made mention of the prospects it held that an average crop would result from Spring sowing. With the last heavy showers of rain the prospects are still brighter, but cheering as this may be, several counties here and there have suffered severely from the continued dry weather. West of Toronto the average, generally speaking, is good, and the sample is excellent. But in the east, more especially in the Ottawa district, farmers are gloomy, and the yield will be much below the average. Coming nearer home many people contend that the township of Markham will produce her usual quantity of grain, and the sample will be much better than that of last year. The same may be said of Vaughan, except in the northern part, where it suffered from drought. It is a rare thing to hear of a poor potato field, and roots generally are good. Hay was a light crop the province over. The crop bulletins of the Provincial Bureau of Industries will be issued about the end of August, when people can get a pretty correct idea of

the situation in all parts of Ontario. When so much depends on the farmer it is not surprising to find merchants and professional men watching the prospects as closely as those directly interested.

Lacrosse Match.

To the Editor of THE LIBERAL:

SIR,—As a member of the Young Canadian Lacrosse club I disapprove of the report given in last week's Herald, of the match played here between our club and the Torontos. The account is not only vulgar, but unfair to the visitors who came here at our request to play a friendly game. The reason assigned for the loss of the fifth game is unfit to be inserted in any newspaper. As to the Torontos "leaving the field with their upper lip hanging low," there must be a mistake, as it was the unanimous opinion of the spectators they took their defeat like men. The Herald reporter also insinuates that, if he chose, he could disclose improper conduct on their way home. Of this I know nothing, but am satisfied they conducted themselves in a gentlemanly manner while on the lacrosse field, as in fact the Torontos always have done so in visiting our village.

In conclusion he suggests that the Torontos "put on the remaining six of the team that compose the Champions of the World and then play them a game, and if they do not find their betters they will their equals in the Young Canadians." This is idle talk and if encouraged might endanger the friendship of two clubs which have always worked in harmony. I see no reason why mention should be made of the superiority of either team.

YOUNG CANADIAN.

Did you ever plant the silver eyed Indian Corn? If you have it be sure and do it next year, but if by chance you should have had a pair of boots which caused a corn, which is the plague of your life, just call at Dilworth's Drug Store, 170 King St. East, Toronto, where you can get a box of Chinese Corn Salve for the small sum of ten cents, which will take out your corns without pain in less time than you can walk from here to Hog's Hollow.
