Lacrosse Match.

The lacrosse match played at Acton on Saturday between the club of that place and the Young Canadians resulted in the home team winning by three games to one. The match was not finished when the visitors had to leave for the train.

A Fantastic Alderman.

The Boreal in its last issue says:—"Alderman Lloyd is having his front painted, and not before it was called for." Who can doubt the enterprise of Aurora after this? Newmarket is being left far behind at every stride. We have often heard of men being whitewashed, but this is the first instance brought to our notice of an Alderman being subjected to a coat of paint.

For the neatest and most artistic things in millinery go to The Concrete.

Hard on Telephones.

The lightning on Friday night played havoc with the telephone instruments. In Rupert's office the arrester was completely burnt off by the electricity and a new one had to be inserted. On Friday, previous to the storm, it was scarcely safe to put one's ear to the phone so severe was the hissing noise. For a time all communication along the line was suspended.

5 lbs. choice 30c. tea or 3 lbs. extra 40c. tea for \$1 and 4 boxes Matches at Neville's.

To Victoria Square.

A large load of the members and friends of the Methodist Church, 22 in number, drove over to Victoria Square on Tuesday evening, and visited the prayer-meeting there. The services were conducted by the Rev. Mr. Rutledge, who accompanied the load.

Farm for Sale.

The well-known farm, "Drynoch," the homestead of the late Col. Norman MacLeod, will be offered for sale by public auction, at Bond's Lake Hotel, on Saturday, Aug. 18th, 1888, at 2 o'clock p. m. For a gentleman's country residence this place cannot be beaten, and the farm is well adapted for stock or grain. For description, terms, &c., see another page.

For value in ready made clothing that beats Toronto go to The Concrete.

Methodist Choir.

The choir of the Methodist Church, with a number of invited guests, had a pleasant time at Bond's Lake last Thursday afternoon and evening. Boating was indulged in during the afternoon, refreshments were served about 6 o'clock, and again the boats were occupied for a couple of hours. The party, about 30, returned about 10 a. m., all having apparently enjoyed the afternoon's outing.

For extra value in Crankie, Oxford, Harvard and Canadian shirting go to The Concrete.

The Exams.

Great slaughtering has taken place this year in the Departmental Examinations for 2nd and 3rd class certificates. Some six or seven schools failed completely in passing any candidates. In our High School Miss E. Lane was the only successful one. As the number of each school is given in the report instead of the name, we are not prepared to say how the other High Schools of the county fared. The percentage will be low all over the province.

Neville's Clearing Sale continues with prices again reduced. Summer goods and remnants must go.

Fire Brigade Meeting.

The regular monthly meeting of the Richmond Hill Fire Brigade was held in the Council Chamber last Friday evening, Aug. 3rd. Minutes of last meeting were read and adopted. An account from Mr. G. Trench was ordered to be paid. Alex. McKenzie's resignation was accepted, and Colin McLean was reinstated. The ballot was passed for John Crossman, who was elected a member of the Brigade. The Executive Council were appointed a committee to arrange for a holiday in connection with the Fire Brigade. Before adjourning a motion was carried to have a practice and business meeting on Friday evening, August 10th.

Barn Burned.

The thunder storm on Friday night was unusually severe in the vicinity of Maple and Carrville. Several buildings were pretty well shaken by the strong wind which accompanied the thunder and lightning. Trees were struck by the dozen, some of them being shattered to pieces. Just south of Maple Mr. W. Lines' barn was burnt to the ground. His fall wheat and barley were all consumed, together with some of his farm implements. We believe the building was insured, but unfortunately for Mr. Lines there was none on the contents.

Education Department.

The next entrance examination to High Schools and Collegiate Institutes will be held on December 19th, 20th and 21st next. A circular stating the limit of studies in the various subjects has just been issued by the department. The time-table of the examination is as follows:—First day, literature and writing; second day, arithmetic, drawing, composition and dictation; third day, grammar, geography and history. A paper on agriculture will be set at the entrance examination in July, 1889, but the subject will be an optional one, and any marks thereon will be counted as a bonus. No provision has been made in the circular for a paper on Scientific Temperance, so it seems that the subject is not placed on an equal footing with the study of Agriculture.

Township Council.

A special meeting of the Markham Township Council was held at Webber's Hotel, Unionville, on July 28th. Members all present, the Reeve in the chair. A deputation from Markham Village consisting of Messrs. Thomas and Ash was present re. settlement Railway Bonus. After having heard the views of the deputation, Mr. Slater, seconded by Mr. Gould, moved that if the Reeve is unable to obtain a satisfactory arbitration or settlement with the corporation of the village of Markham re. Railway Bonus before the 3rd of August next, he be and is hereby authorized to enter a suit against said corporation for the recovery of the same, and the Clerk be instructed to send a copy of this resolution to the Clerk of Markham Village. On motion the Council adjourned.

Smash-Up.

Owing to a smash-up on the Northern last Friday the mid-day papers did not reach the village till the following morning. A broken axle in a freight train from the north gave way between Richmond Hill and Thornhill stations, causing the wreckage of several cars. The track was also badly torn up. A wrecking train soon arrived, but it was several hours before business could be resumed. The Orillia train, which leaves that town at 8:25 a. m., was detained at King from one o'clock till six p. m. Fortunately no one was seriously injured, though one of the train hands was thrown, from the top of a car, several rods, landing in a field along the railroad. Some hundreds of people gathered at the scene of the accident during the afternoon. Since writing the above a collision between two freight trains occurred between Newmarket and the Landing. The passenger train from the north did not reach Richmond Hill station until late in the afternoon, on Wednesday—the day of the accident.

Mrs. Madeline Campbell and George Jarvis disappeared from Cleveland some time on Thursday night of last week. Their trial for adultery was set for the next day, but when the time came the pair had flown. It is said that very little effort will be made to find them.

Lacrosse Match.

A Lacrosse Match will be played on the Park next Saturday between the Tecumseths, of Toronto, and the Young Canadians. Admission 10 cents; grand stand free. Ball faced at 4.30.

The Royals.

Last Tuesday evening the members of the Richmond Hill Temple of R. T. of T. spent a pleasant and profitable evening in their lodge room in the Temperance Hall. After the initiation of three candidates, under the rule of "Good of the Order," excellent selections of music and songs were given, with readings and short addresses. An announcement was made that according to the daily press there would be from the 8th to the 12th inst., a display of meteors, which the astronomers say are sure to descend through the atmosphere in greater or less numbers. On the 10th inst., between 9 and 12 o'clock, our earth will make a plunge through the meteoric zone, set the meteors on fire by the concussion of the earth's atmosphere, and pitch them down in the form of shooting stars, in hundreds, leaving luminous trails behind them, which will last for several seconds. Several members of the lodge at once entered on an animated discussion on the origin of meteors, their erratic movements, remarkable appearances and strange characteristics. At the close of the lodge the programme for the next meeting was announced. Next Tuesday evening there will be another meteoric phenomenon. Two stars of the first magnitude in the Richmond Hill Temple of the R. T. of T. will move in their orbits and discuss "Woman's influence and how it should be applied." There will be a magnificent display of meteors and shooting stars, with long luminous trails behind them, illuminating the lodge with coruscations and scintillations of peculiar brilliancy. When those two great orbs of light plunge into the meteoric zone of woman's influence, there will be meteoric showers of wit and humor, a grand display of intellectual pyrotechnics that will throw natural phenomenon into the shade, electrify all the "fixed stars" as they sit in their several orbits, illuminate the "satellites" as they revolve around the common centre making their countenances glow with incandescent heat, the natural and reflected light illuminating the scene of action with unprecedented brilliancy, until the candelabra of our lodge room, ashamed of its feeble glimmer, will withdraw its rays in the presence of a light superior to its own.
