New goods arriving at the Cheap Cash House for fall trade. Now is the time to buy flannels for winter, prices will be much higher later on, as all woollens have advanced.

Hard on Shoe Leather.
One of our citizens, a sincere lover of ornamental game, went to the city on Saturday to witness the championship match between the Toronto and Cornwall lacrosse clubs. The match not being finished when the Northern train started, he was obliged to walk up Yonge St., arriving home shortly before 12 o'clock. His feet were pretty sore the next day, and he walked just like a thorn-maker.

You can get at O. J. Brown's—
1 Can Apples for 7 cents,
3 Cans Corn for 25 cents,
1 Can Tomato for 25 cents,
3 Cans Beans for 25 cents,
3 Cans Peas for 25 cents,
1 Lb Pure Honey for 25 cents,
1 lb excellent Cheese for 25 cents,
1 lb splendid Tea for 25 cents.

The Wilkinson Firm.
During the past year it has often been said that the Wilkinson Plow Works, of Aurora, were about to pull up stakes, to locate in West Toronto Junction. According to the Junction newspapers the matter has been at last decided, and ground for the erection of the buildings will be broken in a few days. The removal will be quite a serious blow to the town of Aurora, as some fifty or sixty men have been employed in the works.
Few can meet and none can beat the remarkably low prices at the Concrete.

For Sale.
Mr. John Brown is offering for sale 40 acres of his farm on the North side of Centre St. East, nearly half of which is in the corporation. The land is well fenced and underdrained, and is in a good state of cultivation. A never-failing spring creek runs through the farm. The purchaser may have possession at any time. Price \$3,500, and easy terms. Without doubt this is a very desirable and cheap property.

We are bound not to carry any stock over and if prices will make the goods go why you can get the prices at the Fire Proof.

Miss Weir's Death.
Two weeks ago THE LIBERAL referred to the painful fact that Miss Weir, who had lived in our midst for many years, was afflicted with Cancer, and had to be removed to the Home for Incurables, in Toronto. Though receiving the best of treatment she lingered but a short time in that institution and died on Thursday afternoon last. For some time before her death she suffered very little pain, and was quite conscious up to the very last, repeating the Lord's prayer with her minister half an hour before she died. Several of her intimate friends from this place attended the funeral which took place to Mount Pleasant Cemetery on Friday.

Malt Vinegar, French Vinegar, XXX white Wine Vinegar, Extra Cider Vinegar at the Concrete.

Cheap Excursions.
In order that the farmers of Ontario may have an opportunity to learn the exact truth about the result of the drouth in the north-west during the present season, the Canadian Pacific Railway are running a cheap harvest excursion at very low rates as follows:—To Winnipeg, Deloraine, Glenboro, Saltcoats, or Moosejaw and return \$28.00. To Calgary and return \$35.00. The first excursion train will start on Tuesday, August 20th and tickets will be good up to Sept. 13th. The second will start on the 3rd of September and passengers may return any time up to October 14th. The third will be from September 24th to November 4th. This is an excellent opportunity for parties wishing to visit the north-west. Some of our villagers purpose taking in the trip.

For the best value in Meals go to the Concrete. 8 lbs Tilson's Rolled Oats for 25 cts. this week.

Sneak Thieves.
Night prowlers are commencing their season's work in the township of Markham. On Friday night they visited the hen-roosts of Mrs. Horne, Headford, and carried off between twenty and thirty fowls of various kinds. The hens and chickens were the greatest sufferers but a pair of ducks and a turkey were among the prizes. A neighbor living opposite saw a horse tied near the place during the night, and it is thought its owner was then engaged doing his work. People raising poultry should endeavor to keep a sharp lookout for such visitors, as they are entitled to a warm reception, and would no doubt get it if it were known on what night they would show a desire for the feathered race.

For the best value in Sugar go to the Concrete.

Story of a Baby's Cradle.
We have been told the following story about a baby's cradle which we think is worth inserting for the holidays. In 1886 Mr. Innes, assistant in our High School, was attending the Collegiate Institute at Collingwood. One day in company with five of his companions, their conversation turned on the marriage question. One of the number proposed, no doubt as a joke, that the first victim of matrimony should be presented by the other five with a baby's cradle. Mr. Innes was the first to break the ice. Consequently the cradle was purchased in the town of Kingston in May 1887, with instructions direct to Bath, where Mr. Innes was then teaching. By some mistake it was not forwarded till May 1888, before which time the owner had left the place and moved to Richmond Hill. In Bath it lay in the storehouse for more than another year, only arriving here by express on Saturday last. It is a very nice piece of furniture, being made on a frame, to swing like a hammock. Mr. Innes may say "Better late than never," though his house was ready for the cradle several months ago.

For the best value in Raisins and Currants go to the Concrete.

Base Ball.
An exciting base ball match between Richmond Hill and Thornhill teams took place on the grounds of the latter on Saturday. The visitors led the home team until the 3th innings when the latter overtook them and won the match by one run, with two men not out. When the Thornhill team went to bat in their 9th and last innings they had 12 runs to make to tie their opponents, and scarcely expected to carry off the laurels, but Richmond Hill became rattled and thereby lost a victory which should have been theirs. The play on both sides was very good, and very few errors were made. Will D. Atkinson did excellent work, and was several times cheered for his catching and good fielding. Jay Sanderson acted as pitcher for the northern club, and the catcher, John Henneey, with long remember the day by the pounding he received on his upper and lower extremities. After the match both clubs repaired to Hotel Collins where the visitors were treated by a supper by the home team. The spread was a good one and reflects much credit on Mr. Pepler, the proprietor of the hotel. Mr. C. Egan of this village acted as umpire and the bat. The match, including the ten minutes in wangling, lasted nearly two

Aurora.
An explosion which was heard nearly two blocks away, and which startled the entire neighborhood, occurred in Mr. Patterson's drug store on Friday forenoon. A very large glass bottle containing mythelated spirits which had been standing in the window for some time, was removed for the purpose of cleaning the window, the spirits emptied, and the bottle placed upon the counter, where it had remained only a short time when it exploded with tremendous force, bursting into thousands of pieces. Mr. Jas. Todd, Mr. Patterson's assistant, was passing the counter within a few feet of the bottle, and was struck with the flying glass, receiving two ugly cuts, one on the wrist, and the other on the neck and ear. Mr. Patterson, who was behind the counter, escaped with a slight cut on the hand. Every show case in the shop was more or less broken, besides a number of bottles on the shelves. Fortunately there was no customer in the shop at the time. Mr. Patterson is unable to account for the explosion in any other way than that the glass had been standing in the window for some time and the heat from the sun must have generated gas. The loss from the explosion will be quite heavy.—*Evening.*

There has arrived this week at the Fire Proof a large shipment of Glassware which are really the cheapest we have yet seen. A large Cake Stand for 25c.; a large Glass Pitcher for 25c.; a whole glass Tea Set for 35c. and all the other articles just as cheap in proportion.

St. Leon Mineral Water.
A. J. Rupert has to hand a shipment of the far famed St. Leon Mineral Water direct from the springs in P. Q. Come along with your jars and give St. Leon a trial. Lists of cured and how to use will be furnished. Following about this wonderful water is from the Toronto News of July 23rd:—"From birth to manhood we increase in bulk and weight. After growth the repairing process goes on: living tissues are steadily broken down. The waste if not carried off and constantly replaced with proper elements the body suffers, sickens, down, down. Vitality so lowered many drop into a premature grave. Among the discoveries of the age nature towers over all. A mineral spring is found containing all the elements—sulfur, iron, calcium, magnesium, sodium, potassium—just the same as that composing the body. This water—the famed St. Leon—effects such marvellous cures its name is spreading to all quarters. The ablest physicians are lost in wonder, and pronounce it "a miracle of healing power unequalled." Few know health such as St. Leon brings. It is safe, certain; its duplex action unfathomable. It expels the most deadly poisons. And all through life long its building, bracing, regulating influences last. After a free use the wasted organism becomes firm; the pale, wrinkled skin assumes its summer bloom. A fresh charm is lent to life never before experienced. Purchase the water, drink freely, and continue until the system is built up with nature's pure elements that nourish the vital forces, regulate and tune the mechanism so that the tear, wear, and worry of life may be overcome with those buoyant feelings perfect health alone can maintain."
