**FIREMEN'S UNIFORMS.**

We are glad to see that a move has been made in the direction of purchasing suitable uniforms for a team in the hook and ladder department and a hose reel team in the Fire Brigade. Without a doubt something must be done in this line, or the Brigade must cease sending teams to compete for prizes at tournaments. At Gait on Friday, of the dozen or more towns and villages represented, every company wore a neat uniform with the exception of Richmond Hill. The same could be said at Guelph a year ago, and at Toronto, Aurora, and other places on former occasions. Our firemen have had an almost unbroken chain of success wherever they have competed, which success was the only thing that on different occasions saved them from being hooted at by opposing companies, for their shabby appearance. They have won no small sum of money, some of which still remains in the treasury, but as the Brigade sometimes has about 50 members, and as each fireman who attends meetings regularly receives \$2.00 a year, it would not be wise to allow the Treasurer's funds to run too low.

No one can say our Brigade has been an expensive luxury. It is one of the best conducted institutions in the village, and is worthy of every reasonable support. Fortunately, of late years its members have had little practice at fires, but whenever the alarm bell rings they always promptly respond.

The proposal is that a subscription list be taken among the citizens, and four of the business men have undertaken the task. We feel satisfied that for so good a cause every person will give for a uniform whatever he or she may feel able.

**ABOUT SHADE TREES.**

In reply to "Tree Planter's" letter which appears elsewhere in THE LIBERAL, the Ontario Government has apportioned a large sum of money to encourage the planting and growing of trees, but the 12 1/2 a tree finds its way back into the pockets of the owners only on certain conditions which must be followed. We cannot do better than quote three or four paragraphs from the Tree Planting Act, which is Chapter 201 of the Revised Statutes:

"The council of any municipality may pass a by-law paying out of municipal funds a bonus or premium not exceeding twenty-five cents for each and every ash, basswood, beech, birch, butternut, cedar, cherry, chestnut, elm, hickory, maple, oak, sassafras, spruce, walnut, or white-wood tree, which shall, under the provisions of this Act, be planted within such municipality on any highway, or on any boundary lines of farms as aforesaid, or within six feet of said boundary."

"Such by-law shall further provide for the appointment of an inspector of trees so planted," &c.

"The inspector shall make to the council one report for each year, if required so to do, giving the names of all persons entitled to any bonus or premium under the by-law, the number of trees of each species planted, and the amount of bonus or premium to which each person is entitled, and certifying that the distance between any one tree and the tree nearest thereto is not less than thirty feet, that the trees have been planted for a period of three years, and that they are alive, healthy, and of good form; and upon the adoption of such report the bonuses or premiums shall be paid."

"The Treasurer of the Province, upon receiving a copy of the inspector's report, certified by the reeve and clerk, shall recoup to the treasurer of the municipality one-half of the sum paid by the municipality under the authority of this Act, the said copy to be forwarded on or before the first day of November in each year."

The result of the general elections in the Province of Quebec on Tuesday is an overwhelming victory for Mercier's Government. The returns indicate a Government majority of between 25 and 30. The leader of the Opposition was defeated in Jacques Cartier. In Montreal the Government carried four out of the six seats. The three Quebec City divisions elected Ministerialists. The Government captured Bellechasse, Drummond, Montmorency, Quebec County, St. Sauveur, Stanstead, Terrebonne, Nicolet, Wolfe. The Opposition gained Hochelaga, Three Rivers, L'Assomption.

Eight supporters of the Government and two Oppositionists were elected by acclamation.

**About Shade Trees.**

To the Editor of THE LIBERAL:

SIR,—Of late years the citizens of Richmond Hill have made pretty good use of Arbor Day, and the consequence is that on Yonge St., and some of the back streets, a large number of trees have been planted and are growing fast.

I have heard it said that for every tree planted on highways in municipalities the Ontario Government gives 12 1/2 cents. Is that true? and if it is how are villagers to proceed to get the money from the government? I feel like getting a share of that \$6,000,000 surplus which Mowat's friends brag so much about.

Yours respectfully,  
TREE PLANTER.  
Richmond Hill, June 17th, 1890.

**Toronto's Carnival.**

On Monday, June 30th, Toronto will enter on its proposed grand Carnival. The staid citizens of the Queen City of the west are going to give themselves over to four days of unstinted jollification to all of which she has invited all who would like to see the fun. Toronto has recently been laboriously engaged in solving knotty political, ecclesiastical and social problems. It does not do for man to be always working on the high pressure principle. Nature acts on the compensating system. If she gives us health and strength to utilize our mental and physical abilities she demands a proper amount of relaxation, lest these capabilities be overwrought. Recuperative opportunities are always popular with the public, irrespective of age, sex or condition. Toronto is going to relax. Man is a sight seeing, fun-loving animal. Toronto is going to gratify these propensities to the best of her ability by giving a grand opportunity to all to get intoxicated with excitement and to some the privilege of getting intoxicated on something stronger.

For four whole days she will be robed in holiday attire. Her streets will be filled with music and grand procession, her parks and public resorts with gathering crowds, her Horticultural Gardens will be turned into promenades and her beautiful Bay will be covered with flotilla. The days will be spent in witnessing an unbroken programme of reviews, sports and gymnastic exhibitions, and in the evenings all the public buildings will be brilliantly illuminated.

The business places on the principal thoroughfares will send out corruscations of lights and darkness will be turned into day, presenting to the hundred thousand sight seers a fairy scene. As no national celebration is complete without the noise and smell of gun powder, Dominion Day will not be minus of this requisition, but will be sustained by the roaring of cannons, the popping of squibs and the grandest pyrotechnic display that money can obtain.

Visitors from afar will see Toronto arrayed in all its glory, and Toronto's country cousin will have a splendid opportunity of unloading himself of his superfluous cash.

"Great and marvelous is Toronto and great is King Dodds."
