THE HOME.

To My Husband.

Ah, dear one ! if you only knew,
How anxinosly we wait for you,
How all the day
While you'r away,
Our hearts with tender love are thrilled.
How of U we draw the picture bright-The circle round the fire at night,
Whe you, your vacant place have filled.

Ah, dear one ! if you only knew,
How anxiously we wait for you.
The babes and J,
And how we try
To make our home the brightest place,
That when to us at night you come
In from the city's busy hum,
A happy smile may wreath your face.

Ah, dear one! if you only knew, Our threads of life are held by you.
How all the day
Alone we stay,
While you gain impulse from afar.
Open to you, the world's great tight, Ready to climb Parnasus height—
Burdened by homely cares we are.

Then, dear one, when you come to night, Bring home a loving face and bright; Bring hope, and proise, Our conrage raise. Ah, let the babies find in you A loving friend, their joys to share; A helpful friend, to fit each care, And let me find a helpmate true.

A Few Hints,

Now that the "spring has come, the flowers in bloom, etc.," the majority of ladies in order to appear in harmony with sur-rounding beauties begin to consider "where-with they shull be clothed." during the coming season. First of all, prepare for yourselves some neat and serviceable everyyourselves some neat and serviceable every-day attire, that you may appear in an attractive form before the members of your will not go back to sugar. Some people are household. Do not neglect this in order to purchase some expensive dress for wear made like the ordinary sauce for pudding, outside the home circle. You will find that it does not pay, while we all know that it it does not pay, while we all know that it does pay to preserve the respect of our as-sociates, by always appearing nearly dress-ed at home. The best material for home dresses for those who do their own housework is navy-blue print. It comes in a variety of pretty patterns at ten cents per yard. When very much soiled it can be boiled without fading, and, in this particular it is far superior to cheap singhum, as the latter shrinks so much after the first washing are better to make them up every day, but and fades so much that it is hardly fit for in cold weather one can let them stand three use

with a hem five or six inches deep according to the height of the wearer. Made in this way, they are very easily laundered, and no one need have an excuse for appearing in a soiled dress at home, even though obliged to do her washing and ironing. In startching these navy-blue dresses put plenty of blue in the starch, and also add one tablespoonful of salt to every gallon of boiled starch. This will make them iron very casily. Having provided yourself with a number of these, or as many as you can afford, you will then need to make some new aprons. At least one dozen will be required-six striped home-spun white ones for wearing while cooking, and six long white ones with plain hem at the bottom to wear at the table and to assume if called hastily to meet visitors.

Always wear something about the neck of Always wear something about the neck of everyday drosses. No natter what is the prevailing style; nothing is so neat in ap-pearance as a narrow, white standing col-lar, with a simple pin, for home wear. These can be bought cheap by the dozen, or can be procured for next to nothing, by making them at home of the summaries of t

It has alway been a matter of much frequently. They are mostly baking powder recipes; but I know there are many who cannot get sour milk, although they would prefer it. SOUR MILK GRIDDLE-CAKE.-1 pint sour milk, 1 teaspoonful salt 1 teasponful soda,

griddle, the better they are ; and it is more

especially so of those cakes made from bak-ing powder. I have a few recipes I use quite

Flour to make a thin batter. BAKING POWDER CAKE -2 eggs, 1 pint water, 1 teaspoonful salt, 1 teaspoonful sugar, 3 teaspoonfuls baking powder, Flour for a thin batter and bake on a very hot

griddle. SWEET MILK CAKES. -- 1 egg, 1 pint sweet milk, 1 teaspoonful salt. Flour to make a thin batter.

CRUMB CAKES. -1 pint bread crumbs, 1 egg, 1 teaspoonful salt, 1 teaspoonful baking powder, 1 tablespoonful or a little more flour

Soak the bread crumbs over night in cold water, or, in the moring, soak them in warm water. Mash them perfectly smooth ; not a sing c lump should be left in ; add a little more water to thin batter and flour to make them turn, Add the beaten egg, etc.

YEAST CAKES.—When you set your bread sponge set an extra amount for cakes. In the morning take out a pint of it for cakes; thin quite thin, add one beaten egg, a spoon-ful of salt and a pinch of soda.

We often get tired of boughten syrups and make our own, as follows: 1 teacupful granulated sugar, one-third cupful cold water. Put on the stove and let it boil a

1 cake yeast, buckwheat to make a moder-ately thick batter. Make according to this recipe in the evening, and let rise over night. In the morning add two teaspoonfuls of salt and one-fourth teaspoonful of sole to a little warm water and add to the batter. Manage so as have a half pint or so of batter left to start with the next evening and make as before, using that in place of the yeast. They

or four days without injury if she uses a little more soda. One should not leave too The neatest way to make a home dress little more soda. One should not leave too intended for actual service in the kitchen much batter to start with, as it will get too is, according to my idea, this: A well-fitting sour. Perhaps many do not know that if tight waist and full skirt, —the latter sewed to the waist by a wolting cord, and finished pieces and stirred into the batter, they will pieces and stirred into the batter, they will be dissolved by the next baking.

Beating a Wolf.

It is not often that a wolf story is told in a way to show the cowardly nature of the animal. For this reason the following account, given by the author of "Twentyseven Years in Canada West," has its own value and interest.

These can be bought cheap by the down of the remains of the procured for next to nothing, by making them at home of the remains of fine lawn, linen, etc., that accumulate in every family, using a bought collar of the right number for a pattern. Have confortable shoes for every-day wear, and do not neglect to clean them twice a week with either blacking or shoe polish. The latter is more easily applied, but some think it injurious to the leather.
Do your hair up in some pretty and becoming style every morning, and do not consider the time wasted that you occupyin attending to your teeth and nails " for just the home folks to see." The admiration you receive in the home circle is the truest admiration any woman ever can receive.
It has always been a matter of much surbravely attacked him, for he seemed deter-mined, in spite of her valiant opposition, to She boldly beat him off the second time, following him down the creek, thrashing him and creak the second time, following him down the creek, thrashing him and creak the second time, following him down the creek, thrashing him and creak the second time, following him down the creek thrashing him and creak the second time, following him down the creek thrashing him and creak the second time, following him down the creek thrashing him and creak the second time, following him down the creek thrashing him and creak the second time, following him down the creek thrashing him and creak the second time, following him down the creek thrashing him and creak the second time, following him down the creek thrashing him and creak the second time, following him down the creek thrashing him and creak the second time, following him down the creek thrashing him and creak the second time, following him down the creek thrashing him faint spells, purple lips, numbres, palpita-tion the second time, following him the second time, following him down the creek thrashing him faint spells, purple lips, numbres, palpitaand calling for aid with all her might, when fortunately, one of her brothers, attracted by her crics, ran down with the dogs and his

So to Speak.

Woman is wonderfully made ! Such beauty, grace, delicacy and purity are alone her pos sessions. So has she weaknesses, irregulari ties, functional derangements, peculiar only to herself. To correct these and restore to health, her wonderful organism requires a restorative especially adapted to that pur-pose. Such an one is Dr. Pierce's Favorite Prescription-possessing curative and regu-lating properties to a remarkable degree. Made for this purpose alone—recommended for no other ! Continually growing in favor, and numbering as its staunch friends thousands of the most intelligent and refined ladies of the land. A positive guarantee ac-companies each bottle—at your druggist's. Sold on trial!

A friend at one's back is a safe bridge.

Men That Jamp

at conclusions, are generally "off their base." Because there are numberless patent medicines of questionable value, it doesn't follow that all are worthless. Don't class Dr. Sage's Catarrh Remedy with the usual run of such remedies. It is way above and beyond them ! It is doing what others fail to do ! It is curing the worst cases of Chronic Nasal Catarrh. If you doubt it, try it. If you make a thorough trial, you'll, be cured. \$500 forfeit for an incurable case. This offer, by World's Dispensary Medical Association, Buffalo, N. Y. At all dimensions 50 druggists ; 50 cents.

It is easier to blame, than to do better. Gallant Rufus Choate.

On a pretty girl saying to Rufus Choate "I am very sad-you-see," he replied, "O, no ; you belong to the old Jewish sect ; you are very fair-I-see ?"

Nothing adds so much to the beauty of a fair girl, as a clear, bright, healthy complexion, and to secure this pure blood is inpiction, and to secure this pure blood is in-dispensable. So many of the so-called blood-purifiers sold to improve a rough, pimply-muddy skin, only drive the scroftlons humors from the surface to some internal vital organ, and discase and death is the inevitable result. On the contrary, Dr. Pierce's Golden Medical Discovery strikes directly at the need of the avil by driving directly at the root of the evil, by driving the impurities entirely out of the system, and with a fresh stream of pure blood flowing through the veins, nothing but the soft-est and fairest of complexions can result.

Build golden bridges for the flying foe.

The Mead Surgeon Of the Lubon Medical Company is now at

Toronto, Canada, and may be consulted either in person or by letter on all chronic diseases peculiar to man. Men, young, old, or middle-aged, who find themselves nerv-ous, weak and exhausted, who are broken down from excess or overwork, resulting in many of the following symptons: Montal depression, premature old age, loss of vitality, loss of memory, bad dreams, dimness of sight, palpitation of the heart, emissions lack of energy, pain in the kidneys, head-ache, pimples on the face or body, itching or negative sensation about the scoreture, most value and interest. My wife's youngest sister had a pet sheep that she had brought up from a lamb, and to which she was much attached. One after-noon she was going down to the spring for a pitcher of water, when she saw a large dog, as she thought, worrying her sheep, upon which she picked up a large stick, and struck the beast two or three strokes with all her strength, thus compelling him to drop his prey. This, however, he did very reluctantly, turning his head at the same time, aud show-ing his teeth with a most diabolical snarl. She saw at once when he faced her, by his pricked cars, high checkbones, long, bushy every function wanes in consequence. Those Heart disease, the symptoms of which are faint spells, purple lips, numbress, palpita-tion, skip beats, hot flushes, rush of blood to beat quicker than the first, pain about the breast bone, etc., can positively be cured. No cure, no pay. Send for book. Address M. V. LUBON, 50 Front Street East, To-

NEVER

r mto. Ont.

prise to me to note the small interest our farmers' wives and daughters, as a rule, take in the cultivation of fruit. They will strug-gle with poultry against the most trying circumstances, but never give the old or-chard a thought, when with a very little attention it could be made to eclipse the poultry yard in a pecuniary way, at about one half the time and troubled bestowed on the latter.

A small plot of strawberries should be found at every home, whether anything else is raised or not. It is difficult to select any one variety that would satisfy every one and which also would do well in a great variety of soils. The Haverland is the best I have tried. Under all circumstances it makes a good yield and brings a good price in market. A dozen or so of the Wilsons should be platted to every fifty of the Hav-erland that is, planted among the latter for erland, that is, planted among the latter for fertilizing as the Haverland is pistillate. It is better to set out plants in the fall and protect through the winter ; but rather than wait, you should set out a nice patch this spring and they will bear fruit next year.

Griddle-Cakes.

There are many who cling to their break-fast of griddle-cakes, in spite of the physifast of griddle-cakes, in spite of the physi-cians who claim they are not fit to eat and possess little nutriment aside from their dressings of butter and syrup. If we must eat them, it is needful to have them as palatable as possible, for there is all the difference in the world even in pan-cakes. Cakes are generally spoiled by being made too thick. To be light, cakes should be thin, even if it should take more trouble to bake them. To belie order successfully, the first

them. To bake cakes successfully, the fire should be just right. I prefer a coal fire, hot enough to make the griddle smoke without removing the stove lid. If one undertakes removing the slove id. If one undertakes to heat the griddles by removing the heat becomes unsteady, either too hot or too cold. As soon as the griddle smokes, grease it, if it by the common iron griddle, and put on the cakes. For different kinds of cakes the griddle requires different greasing. Corn meal cakes require quite a plenty of grease; crumb and sour milk, a moderate amount, and buckwheat requires simply to have the griddle rubbed with a piece of fat meat. Cakes should be baked as brown as need be

She (at the window)-Dear me! I never can climb down that ladder in the world! He (below, impatiently,--O, rats ! She-Bless me, where are they? Hold it steady, dear, and I'll come right down !

The most unalterable of water colors has been found to be yellow othre, terra sienna, sephia, and blues.

The Beletric Light

Is a matter of small importance compared with other applications of electricity. By this agency Polson's Neviline is made to pencirate to the most remote nerve-every muscle and ligament is made to feel its beneficent power. Norviline, pleasant to take, even by the youngest child, yet so powerfully far reaching in its work, that the most agonizing internal pain yields as if by magic. Nerviline relieves neuralgia instantly and for the speedy cure of nerve pains of every description it has no equal Sold everywhere.

Fonduess for fame is avarice of air.

At no season in the year is cold in the head and catarch more prevalent than during April. To neglect either means misery and perhaps fatal results. Nasal Balm is the only certain remedy for these dangerous diseases, and as a percautionary remedy should be kept in every household. Nasal Baim has cured thousands of sufferers-it will cure you. Try it.

A jade eats as much as a good horse.

NOTICE. Every bottle of Dr. Harvey's Southern Red Pine for coughs and colds is warranted

It is folly to sing twice to a deaf man.

GIBBERONS' TOPOTERACEEE GUN.

Good swimmers are oftenest drowned.

A Genuine article of merit for beautifying the teeth and sweetening the breath, Adam's Tutti Frutti Gum. Sold by all Druggists and Confectioners 5c.

The anticipation of evil is the death of happiness.

We cheerfully recommend any prepara-tion that stands as high as SLOCUM'S OXYGENIZED EMULSION of PURE COD LIVER OIL. It has crept into the confidence of the public solely through its before turning, destroys part of the light merits. For wasting diseases of throat ness, Of course, every one knows the soone-they are eaten after they come from the cacy.
