Lacrosse Match.
During the progress of the lacrosse match on Saturday between Toronto Junction and the home team many a spectator was heard to remark that the fine play and the enthusiasm reminded him of "old times." It was certainly an excellent exhibition of lacrosse, and although on the whole the home team had the best of the play, the visitors did excellent work, and at different periods of the game it was very doubtful which side would be the victors. The Junctionites are a good-looking lot of young men, and their dexterity on the field with the rubber shows that they are possessed of other necessary qualities on a par with their good appearance. The following are the players and their positions in each team:—

Richmond Hill.	Toronto Junction.
G. Glover..... Goal	Wray..... McGovern
W. E. Wiley..... Point	Hamill..... Young
J. P. Glass..... Cover Point	C. Skeele..... Watts
E. McConaghy..... Defence	A. Powell..... Simpson
A. Wiley..... Centre	C. P. Wiley..... Hughes
R. W. Glass..... Home	C. E. Pugsley..... Eccleston
C. P. Wiley..... field	C. Savage..... Sheppard
J. Piper..... Outside home	J. A. Piper..... Counter
W. D. Atkinson..... Inside home	Mair..... Mair
Will D. Atkinson..... Captain	J. Wilkinson..... Referee
Referee—Mr. F. W. Garvin, T. L. C.	

The visitors won the toss and played down the slope. From the first it was evident that the men were pretty evenly matched and that the game would be an exciting one. The spectators soon became enthusiastic, and the cheering was by no means confined to one side, as many were present from Toronto Junction and were not slow in applauding their men as opportunity after opportunity presented itself. In the first game the centre players had not much to do as the ball was generally handled by the defence and home men. But during the last five minutes the Hill had the best of it, and they scored after 22 minutes' play, J. Piper putting the ball through by a neat shot.

The second and third games were also taken by the home team, in about 11 and 6 minutes respectively. Pugsley scoring the former and Savage the latter. It now looked as if the Junction would be defeated by four straights, but in the fourth game there was a change in the tide, and after hard play on both sides the visitors won the next three games, the whole time being only about twenty minutes. When the seventh and last game was started the excitement was intense, the many ladies on the grand stand manifesting quite as much anxiety for their respective admirers as the male portion of the assemblage. Up and down the field the ball went for about twenty minutes, when Piper securing the ball at one side and behind the flags, ran to the front and carried it through, passing the non-pulsed goal keeper. As might be expected Piper was loudly cheered on this piece of diplomacy, as players and on-lookers expected to see him throw the ball to one of his associates.

The game throughout was furious, but both sides showed the best of temper, and seldom was a face seen to ruffle though the bruises and scars were many. It was said by many who witnessed the match that never was a more interesting one played in Richmond Hill.

After the usual cheers were given for each team all left the grounds.

Seed Wheat.
The following report of the Committee of the Dominion Millers' Association may be useful to the farmers of this district: The seed wheat committee of the Dominion Millers' Association, after investigating the matter of many different kinds of winter wheat, beg to make the following recommendations to the farmers of Ontario. The farmers' and millers' interests are identical in promoting the cultivation of those varieties of wheat producing the best grades of flour. Hence we believe it to be the duty of our association to make as public as possible all the information we have gathered on this point.

The information has been gathered from farmers and millers in Ontario, some from the United States, and considerable at the Model farm, Guelph, which the committee was invited to visit and inspect the different varieties (some 62 of wheat) grown on small plots as tests.

A large committee appointed by the association visited the agricultural college and was greatly pleased with the plans adopted to secure those tests. At the same time all were of the opinion that the past dry season has been very conducive to the extraordinary outturn on this farm the present year, believing that on this particular farm a wet season would cause winter wheat to suffer from rust. If our province is to get the full benefit of those tests, which we believe will be a very great boon, we think it would be wise for the government to secure ten acres of suitable land in southern Ontario and ten acres in northern Ontario, to be used for those tests under

the supervision of the professor of agriculture at Guelph, as oftentimes a variety may be suitable for one kind of soil and climate and not for another, as the soils and climate of our large province vary considerably.

Professor Shaw and his assistant, Mr. C. A. Zavitz, rendered great assistance to the committee in aiding us to acquire all the information possible in our investigation, and after being driven over the farm to see the different test plots, some in shock and some not yet harvested, we beg to state such a farm for agricultural instruction is a great benefit and credit to our fair province.

The following are the results and recommendations growing out of our investigation, viz:—

WHITE WHEATS.
Surprise wheat—highly recommended. A small plot at the Model farm tested 63 bushels to the acre, and 62½ lbs. to the standard bushel. For information and seed apply to Pearce & Co., London, Ont.; John G. Bechtel, Burford, and seedsmen generally, and for small quantities Model farm.

Canadian Velvet Chaff—highly recommended. Yield at the Model farm, 55; tests, 62½ standard bushel. For seed apply to seedsmen generally, and for small quantities to Model farm.

Bulgarian White—recommended. Yield 46 bushels; Model farm tests, 64½. For small quantities, apply Model farm.

Soules wheat—our friend of yore. Considerable of this wheat grown around Plattsville. For seed apply Tew & Marshall, Plattsville, and Plattsville Milling Co., Plattsville.

Runsey wheat—introduced into Brant county two years ago. Fair milling wheat. For seed apply to Whitelaw, Baird & Co., Paris, or to John G. Bechtel, Burford.

Democrat—Seed obtained almost anywhere. When first this wheat was introduced some years ago it was considered to produce a flour too yellow for fall wheat flour purposes, but the millers now consider it has improved on this point, and recommend farmers still to sow part of their fall wheat ground to this variety, especially in sections where it has proven itself a good yielder.

RED WHEATS.
Don't sow the Roger wheat; it has no good bread properties in it, and inclined to go to smut; and would recommend not to sow too extensively the Manchester. Information obtained so far indicates it is a soft wheat with very little gluten in it.

Jones' Winter Five—splendid strong wheat, 56 bushels at Model farm, tests 64½. For seed apply Pearce & Co., London; for small quantities, Model farm, Guelph.

Hybrid Mediterranean—good bread properties; recommended; yield, Model farm, 44 bushels; tests 64½. Apply all western seedsmen.

Where Scot wheat and Michigan Amber can be grown successfully, millers would specially recommend them. They both are capital bread makers.

Longberry Red—fair yielder, good bread maker; accurate outturn not yet obtained. Small quantities, Model farm large quantities, Jas. Goldie, Guelph; Peter Shirk, Bridgeport.

Committee saw a German wheat in shock called Miracle—peculiar head, very dark chaff, but grain white and plump, and, we think, will be a splendid milling white wheat. Very small quantity, Model farm.

THOS. GOLDIE, President.
DAVID PLEWES, Secretary.

If you want to buy or sell a Farm, advertise in the Toronto Weekly Mail. That paper reaches 100,000 Farmers' homes every week, and your advertisement should meet the eye of someone who wants to purchase. Advertisements of this class are inserted in the Toronto Weekly Mail for Five Cents a word each insertion, or Twenty Cents a word for five insertions. Address THE MAIL, Toronto, Canada.

News Notes.

The great saengerfest in Hamilton began on Tuesday.

The French squadron is now paying a friendly visit to England.

Mr. T. A. Moses, an English gentleman, is looking over Manitoba with the intention of building several cheese factories in that province.

A girl named Edith Redding, eight years of age, was run over by the afternoon express train on Monday at Mimico, near Toronto, and instantly killed.

Mr. Thomas McGreevy has resigned his seat in the House of Commons. Failing to appear in the House on Tuesday by request his arrest was ordered.

It is estimated that there will be a deficit of 32,000,000 hectolitres in the French wheat crop, and the customs tax on wheat will be suspended for a year.

The new Provincial School of Pedagogy was opened on Tuesday afternoon in Toronto by the Deputy Minister of Education in the presence of a large number of notable educationists.

President VanHorn, of the Canadian Pacific railway, arrived Sunday night at Montreal from England. In an interview he said there was no truth in the report that the Canadian Pacific and Grand Trunk railways were about to amalgamate.

Cardinal Manning, in a letter just made public, denounces the employment of lotteries and raffles at bazaars for works of charity or religion. The Lord's work, he says, ought to be done in the Lord's own way. Christians must not encourage lower motives.

The Montreal Witness calls upon Argenteuil to elect an uncompromising opponent of the Mercier Government to the seat in the Legislature rendered vacant by Mr. Owen's resignation last February. "There never was a better opportunity," it says, "afforded an honest constituency to condemn corruption in the most shameless character."

On Saturday morning Mr. Bell, a farmer on the 10th concession of King township, while walking along Yonge Street, Toronto, was taken suddenly ill and fell to the pavement. He was taken to Love's drug store, where it was found his head was badly cut. Afterwards the injured man was removed to the Clyde Hotel in the ambulance.

The crop report from the Ontario Bureau of Industries may be summarised as follows:—Fall wheat, a very fine yield, estimated to reach 20,800,000 bushels as compared with 14,300,000 last year; spring wheat, above the average yield, 9,600,000 bushels as against 7,600,000 in 1890; barley, a good crop; oats, good; peas, exceptionally good; hay and clover; unusually light; roots, fair; apples, light; small fruits, an abundant yield.

The annual meeting for 1891 of the Ontario Branch of the Dominion Alliance will be held at Richmond Hall, 25 Richmond St. W., Toronto, on Tuesday, Sept. 15th, commencing at 9 a. m. The time of the convention has been fixed to suit the convenience of those who desire to visit the Toronto Industrial Exhibition. All railways will sell tickets to Toronto and return for single fare. Tickets will be good to return up to Monday, Sept. 21st. Delegates will simply purchase return tickets when leaving home. It is hoped that every church and temperance society will be represented at the convention.

CONSUMPTION CURED.
An old physician, retired from practice, having had placed in his hands by an East India missionary the formula of a simple vegetable remedy for the speedy and permanent cure of Consumption, Bronchitis, Catarrh, Asthma and all throat and Lung Affections, also a positive and radical cure for Nervous Debility and all Nervous Complaints, after having tested its wonderful curative powers in thousands of cases, has felt it his duty to make it known to his suffering fellows. Actuated by this motive and a desire to relieve human suffering, I will send free of charge, to all who desire it, this recipe, in German, French or English, with full directions for preparing and using. Sent by mail by addressing with stamp, naming this paper, W. A. NOYES, 820 Powers' Block, Rochester, N. Y.—14 5-17.
