Mr. G. B. Smith Home Again.

Mr. G. B. Smith, the genial representative of East York in the Local Legislature, arrived in the city yesterday from his ten weeks' trip to Europe. He said he had a very enjoyable time visiting England, Scotland, Ireland, France and Germany, the weather being all that could be desired, except part of the time he spent in England. He took passage home on the Teutonic, and has therefore crossed the Atlantic in the quickest time on record, viz., 5 days 16 hours 31 minutes. Mr. Smith is in the best health and will be on hand for business this morning.—Friday's Globe.

Water by Gravation.

The report of the special committee of Council appointed to visit Lake Simcoe to inquire into the practicability of supplying the city with water by gravitation has been issued. It is a pamphlet of about 40 pages, illustrated with a map showing the watershed of the lake. The conclusion of the exhaustive report is in brief as follows:—"We were thoroughly satisfied with the result of our visit and cannot recommend in too strong terms the advisability of depending on Lake Simcoe as the main source of our water supply." The water is of such a very high standard of purity as that of Lake Ontario, but the point is made that it is much less liable to sewage contamination and is better than 33 out of 42 samples of the water supply of the largest cities on the continent. The committee asks for an appropriation of \$12,000 for the purpose of discovering the cheapest route for a conduit capable of bringing 120,000,000 gallons per day to the city.—Saturday's Globe.

Wedding Bells.

One of the gayest and most brilliant gatherings ever convened in the County of York was last Wednesday, at the residence of Abner Cherry, Esq., Fisherville, the occasion being the marriage of his youngest daughter, Ruth Sophia. The bridegroom was Thomas H. M. Hulse, of Schomberg. The attendance was exceedingly large, many invited guests being present from Guelph, St. Mary's, Toronto, Weston, Schomberg, Richmond Hill and other localities. The ceremony was performed in the Presbyterian Church, Fisherville, at 7 p. m., the officiating ministers being Rev. B. L. Hutton, of Kirkton, and Rev. Mr. Wilson, pastor of the church. Miss Holmes presided at the organ and played sweetly before and after the ceremony. The bride entering the church leaning on the arm of her father looked lovely, the very picture of beauty, dressed in cream cashmere and silk. Miss Mabley, sister of the bride, and Walter Hulse, cousin of the bridegroom, performed their respective parts remarkably well. Proceeding from the church, which was filled to its full capacity, to the public hall, over one hundred and fifty guests partook of a sumptuous supper, the tables laden with the best of everything, and an ample abundance. The presents to the newly-wedded couple were numerous, useful and costly. Among them was a music stand and Bible to the bride from the Presbyterian Church, she having been for some time past their organist, and will be greatly missed. During the evening the happy couple started on their bridal tour, purposing to spend a few weeks in sight-seeing, taking in the Mackinaw trip. They left with the congratulations and best wishes of many warm friends.—Com.

"Why do I Believe the Bible?"

In accordance with a previous announcement the Rev. J. C. Speer, last Sabbath evening, delivered a sermon on the above subject, choosing for his text verse 160 of 119 Psalm, "Thy Word is true from the beginning." After describing the tower-like construction of the 119 Psalm the rev. gentleman said that a man's life was the practical outcome of his faith, that the word of God is true although improper translations had given sceptics room to criticize. He believed the Bible because of the fulfilment of its prophecies, giving as illustrations the prophecies of Daniel in the Old Testament, and the foretellings of Jesus in the New Testament concerning the fall of Jerusalem. The description of the event as given by historians, some of whom were unacquainted with the Scripture and others bitter opponents, confirmed the fulfilment of prophecy. Because it was scientifically true, it could make no errors in science for it was the word of inspiration, so far from being behind the age it had anticipated recent discoveries. Because of its accuracy in natural history, in every botanical reference from the hisop on the wall to the Cedar of Lebanon, and it was the same in zoology and astronomy. Wise men in all ages had written on all these subjects and wrote the veriest nonsense. Men of every shade of character, in every state in society, of every degree of education, thousands of miles apart and with centuries of time between them, yet not one has contradicted another or made a single mistake in all the centuries. It tells us that there is a God, the originator of all life; it describes our mentality with such accuracy that our inner consciousness instinctively acknowledges that "it is true from the beginning." The rev. gentleman concluded an able and instructive sermon by stating that time would not allow him to proceed farther but the blazing light of the nineteenth century presented a multitude of evidences why he should believe the Bible.

Presbyterian Church.

Rev. Mr. Fulcher, of Bethany Presbyterian Church, Chicago, will conduct the Preparatory Service in the Presbyterian Church on Friday evening at 8 o'clock. The Communion will be dispensed next Sabbath, in the morning.

Toronto & Richmond Hill St. Railway

The charter which has been granted to the Toronto and Richmond Hill Street Railway Company (limited), and was recorded by the Deputy Provincial Registrar, August 12th inst., directs that the capital stock be \$300,000 in 3,000 shares of \$100 each; and the first directors are Messrs. P. G. Close, P. W. Ellis, John Blackstock, A. E. K. Greer, and Hector Cameron, Q. C. The letters patent are granted under the Street Railway Act and authorize the company to construct, maintain complete, and operate a double or single street railway having all rights powers and privileges necessary and applicable to such railways, "upon and along such streets or roads as the company may by the by-laws of the municipal councils interested be authorized to pass along and over; also over and upon lands to be purchased or leased by the company for railway purposes, and subject to any agreement hereafter to be made between the councils of the said municipalities." Power is given to the company to transport and carry passengers and freight by the force or power of animals or by such other motive power as the company think proper and as the municipal councils may authorize. They may also generate or produce hot air, hot water, or electricity for the purposes of power and heating the company's cars. The proportion of stock required by the statute, with the usual deposit thereon in cash, has necessarily been subscribed as a preliminary to the granting of the charter. The company have now, of course, the legal status requisite to proceeding with other steps in their undertaking. We learn that the title of "York County" was refused by the government, who suggested, as an appropriate substitute, that under which the company has been incorporated.—Recorder.
