The work was done in one hour. Snider, Nellie the yield being 36 bushels. There was no Waldron, John scarcity of belp.

" We are the People."

If any person has a doubt about the importance of Richmond Hill, its churches, public institutions, hotels or business men, let him read the glowing account in the last issue of The Saturday Ledger, as written by that journal's own correspondent. It should convince the most skeptical that "we are the people."

Prompt'y Paid.

The Lake Magazine for August.

The first number has been issued of a new high-class Canadian magazine, published by The Lake Publishing Company of Toronto. In its chaste and elegant appearance it rivals the best of its American contemporaries, while in the character and popular interest of its contents it scores a decided success. The magazine is devoted to cussion of public questions, the place filled in Britain and the United States by the leading reviews of these countries. The great portion of the magazine will, however, be given to articles, fiction and poetry, similar in kind to the contents of the best literary monthlies. The political articles will be contributed by leading statesmen and writers of both political parties, and appearing under the names of the individual writers as full and exhaustive discussions of timely topics of public concern, will possess unusual interest and value; in fact no intelligent student of political affairs can afford to neglect reading them. In the present number are articles on Canada and Imperial Federation, Edward Blake and Ireland, a Cheap and Simple Franchise, from the pens of leading Canadian journalists, and also articles on The Land of Manana, A Canadian Literature, Second-Sight Along The Wires, Art in Canada To-day, The Doctrine of Handicaps-all interesting and well written. Two stories and two poems of superior merit, in addition to a number of illustrations complete the list of contents.
