I had been to all the doctors here and to some in Toronto and Buffalo, but I could get no relief worth speaking about. Five years ago I went to Welland and took a vapor bath, and felt so much relieved that I took two more. The relief, however, was only temporary, and four and a half years ago the lameness and pains came on again and so completely used me up that I could hardly do anything. applied to a number of doctors for treatment and two of them treated me, but without relief. My age they said was against me; that if I were a younger man there might be some hope for me. I was 84 last October. I then discontinued the doctors' treatment and about a year ago got a box of Dr. Williams' Pink Pills for Pale People and used them without feeling any benefit and quit. This spring I used another box without any effect and again stopped. You see that I expected too much and seemed to think that a box of Pink Pills ought to do what years of doctoring did not do. In July I read about the case of Mr. Condor,

of Oakville, who had used, I think, eighteen boxes. When I read that he was so fully cured that he was able to work again, and even play baseball, I took courage and saw that I had not before given the pills a fair trial. I then got half a dozen boxes and was on the fifth before I felt any beneficial effects. I had run down so low and my appetite had left me. I now began to feel my appetite returning and my knees and ankles began to gain strength. From that out I continued to improve until the time of the county fair, with went down there in company with others and went the rounds seeing the stock and other exhibits. I tried to keep up with them and walked so much that day that I felt some bad effects afterwards. But I now knew where to look for relief and continued using Dr. Williams' Pink Pills, and ever since have felt a steady improvement. My legs have gained strength wonderfully, and the doctors tell me if I was a younger man I would be still more benefited. My general health has alse i aproved very much. About six weeks ago i was in Toronto and walked fully five miles that day, something I could not have done before. In fact I feel so much better that I have taken a two year old

mustang colt to break it in." At this point

Mrs. Hellems, the life partner of the vener-

story, said that a friend when he heard that

Mr. Hellems had taken a colt to break, said

lems if all this was to be published. "Yes," said Mr. Hellems, "if there are any other poor creatures who are suffering as I have done I would be glad to have them know the great good Dr. Williams' Pink Pills have done me, and be benefited in the same way. I am glad to have my experience published for the benefit it may do to others and I cannot too strongly recommend these great pills. In reply to an enquiry Mr. Hellems said he had taken three half dozen boxes since he began to take them regularly and was now using the fourth half

dozen. The Standard reporter called upon Mr. A. J. Greenwood, the east end druggist, a fire, the members are drawn up in line, residence of Mr. Hellems, to enquire how the sale of Dr. Williams' Pink Pills stood in regard to other proprietary medicines, and incidentally to enquire what he thought of their effect in Mr. Hellem's case, "Pink Pills for Pale People have a great sale,"said Mr. Greenwood, "and I am continually asked for them. With regard to Mr. Hellem's case I knew that for years he had suffered from rheumatism and other diseases and that he was thoroughly run down. He now speaks very highly of Pink Pills though at first he did not think they were doing him any good, but that may be accounted for by the hold the disease had on his system. He now feels like a young man and is able to attend the various animals. horses, etc. After he had taken about a dozen boxes he came into the store one day and started to dance around like a school boy. 'What's the matter,' I exclaimed, perfectly astonished and with happiness ringing in every tone of his voice, he called out, 'O, I'm young again; I'm young again.' He ascribed as the reason for this ed the miracle. He has frequently told Regulators. me that he had tried doctors without number, besides other patent medicines but without any avail. My sales of Dr. Williams' Pink Pills are constantly increasing, and all agree that these excellent little pills are beyond praise. There are many people in this district who have cause to be thankful they tried Pink Pills."

The reporter called upon Mr. W. W. Greenwood and Mr. Henry Southcott, the well known druggists, and both spoke highly of Pink Pills, saying that they are the most popular remedies in the store, and that those using them are loud in their praises of

the results. Dr. Williams' Pink Pills are a perfect blood builder and nerve restorer, curing such diseases as rheumatism, neuralgia, partial paralysis, locomotor ataxia, St. Vitus' dance, nervous headache, nervous prostration and the tired feeling therefrom, the after effects of la grippe, diseases depending on humors in the blood such as scrofula, chronic erysipelas, stc. Pink Pills give a

healthy glow to pale and sallow, complexions, and are a specific for the troubles peculiar to the female system, and in the case of men they effect a radical cure in all cases arising from mental worry, overwork or excesses of any nature.

These Pills are manufactured by the Dr. utars of His Sufferings and Relief to a Out., and Schenectady, N. #### A Woman's Strike.

The walking delegate never tired of talking of the strike. He held that it was justifiable if ever a strike was, and he was prepared to demonstrate that it was perfectly proper to strike to secure any desired result. He so told his wife, and she seemed to agree with him. She said it seemed to be the easiest way of enforcing a

And that night when he came home he found that the table was not set.

"I want a new dress," she said when he asked what the trouble was.

"I know. You've been bothering me for that dress for a month," he said "but how about supper ?"

"There isn't any," she replied. "This is a strike." "A strike ?"

"Yes, a general tie-up. I've been trying to secure a peaceable settlement of this trouble for some time, but now I mean to enforce my rights." " Mary, do you dare -- ?"

"Oh, don't talk to me in that way! If I can't get you to arbitrate, why I've got to strike. I don't care if it does block the wheels of trade."

"But, Mary, you don't understand." "Oh, yes, I do. I've made my demands, and they've been refused. I've asked for arbitration with a view to compromise and that has also been refused. A strike is all that there is left, and I've struck."

"But your demands are unreasonable," "I don't think they are."

"You're no judge.

"You're the judge of your own demands when you strike, and I'm just as good a udge as you are when I want something. It's no use talking. This strike on."

She folded her arms in a determined way and he subsided. It was perhaps half an hour later when he looked up and said ;

" Mary, is the strike's still on ?" "It is still on," she replied.

" Aren't you hungry ?"

" No. I saw that I had something in the treasury before the strike was ordered."

" Meaning the pantry?" he asked. " Meaning the pantry," she returned. "I believe I'll get a bite," he said.

"It's locked," she replied. "The reserve is to be used simply to keep the strike going. You can't touch the striker's reable gentleman, who had come into the room while Mr. Hellems was relating his

Five or ten minutes later he proposed that they compromise on the basis of \$10. "Twenty," she replied firmly.

"But that means ruin," he protested. "I can't afford it."

"That's your business," she answered. "I offered to arbitrate once."

It was 10 o'clock that night when he finally gave in, and somehow he felt that he had experienced a new phase of the strike business. It looked different from the other side of the fence.

The discovery was his "Favorite Prescription"-the boon to delicate women. Why go round "with one foot in the grave," suffering in silence-misunderstood-when there's a remedy at hand that isn't an experiment, but which is sold under the guarantee that if you are disappointed in any way in it, you can get your money back by applying to its makers.

We can hardly imagine a woman's not trying it. Possibly it may be true of one or two-but we doubt it. Women are ripe for it: They must have it. Think of a prescription and nine out of ten waiting for it. Carry the news to them !

#### An Earnest Welcome.

That guest must be hard to please, who, having received a cordial welcome from his entertainers, finds fault with any small deficiencies at the table. Therefore, good wife, if your husband brings home an unexpected guest, whom he has invited to dinner, don't feel it necessary, at the eleventh hour, to cook something extra. Your fine dinner, with its attendant irritation and upsetting, will taste no better than what you had prepared. Make no difference in your plans; seat your visitor with a smile and an easy greeting at your hospitable board, and he will feel more comfortable and happy than though you gave him a banquet. You save temper and trouble, and gain the enjoyment of giving your friend a cozy time. Few people in moderate circumstances have three or four courses on their tables daily, and the wholesome, hearty fare, with good nature and hospitable cordiality, will be tinetured with a sweet, domestic sense that is invariably lost in grand dinners. Smiles and neatness are sauces for homely meals, and no meal is complete without them.

## A Veteran's Story

Mr. Joseph Remmerich, an old soldier, 529 E. 146th St., N. Y. City, writes us voluntarily. In 1862, at the battle of Fair Oaks, he was stricken with typhoid fever, and after a long struggle in hospitals, lasting several years, was discharged as incurable

with Consumption. Doctors said both lungs were affected and he could not live long, but a comrade urged him to try Hood's Sarsaparilla. Before he had finished one bottle his cough began to get loose, the choking sensation left, and night sweats grew less and less. He is now in good health and cordially recommends

#### Extraordinary Surgery.

The London correspondent of the Manchester Guardian tells the following story: "An interesting and curious case illustrating the recuperative power of nature, has just been recorded by a surgeon. A workman while attending a machine used for cutting blocks off tin had the tips of two of the fingers of his left hand clean cut off with the knife. Seven hours afterward the man went to the hospital for treatment. The surgeon determined to attempt to replace the missing portions of the fingers, although the prospect of getting them to unite seemed to be most re- rents who have given German Syrup mote.
