

A FROM LENAC MIRACLE.

Relief Comes When Hope Has Almost Fled.

An Ex-Councillor of Oso Township Tells of His Release From Suffering—His Neighbors Verify His Statements—A Marvellous Cure That is Now a Household Word.

Kingston Whig.
The readers of the Whig will remember that our reporter at Sharbot Lake, on two or three occasions last winter, wrote of the serious illness of Edward Botting, a well-known and respected resident of the township of Oso. Mr. Botting was so low that his friends had no hope of his recovery, and although of an energetic disposition and not the kind of a man to give up easily, he even felt himself that life was slipping from him. Later we learned that Mr. Botting's recovery was due entirely to the use of that remedy which has achieved so many marvellous cures that its name is now a household word throughout the land—Dr. Williams' Pink Pills for Pale People.

Our reporter visited Mr. Botting at his home on the picturesque shore of Succor Lake. Mr. Botting is a very intelligent and agreeable gentleman, some seventy-five years of age, but looking and acting as smartly as a man twenty years younger. He is probably one of the best known men in this section. He was postmaster at Fermoy for fourteen years, and a councillor of the united townships of Bedford, Oso, Olden and Palmerston for ten years. He gave the Whig representative a cordial greeting, remarking that it was his favorite paper and that he had been a constant subscriber for forty-nine years. Mr. Botting readily consented to give his experience in the use of Dr. Williams' Pink Pills, saying that he believed it was a duty he owed to humanity to let the public know what they had done for him. "It was about two years ago," said Mr. Botting, "that I first began to feel that I was not my old self. Up to that time I had been exceptionally strong and rugged. My illness first came in the form of kidney trouble, which seemed to carry with it general debility of the whole system, and none of the medicines that I took seemed to do me any good. I am not of a disposition to give up easily, and I tried to fight off the trouble and continued to go about when many another would have been in bed. Things went on in this way until about a year ago when I had a bad attack of la grippe, and the after effects of that malignant trouble brought me so low that my friends despaired of my recovery. I did not give up myself for that is not my disposition, but when I found that the remedies I tried did me no good, I must admit I was discouraged, I was troubled with severe and constant pains in the back, sensations of extreme dizziness, weakness, and was in fact in a generally used up condition. I had read frequently in the Whig of Dr. Williams' Pink Pills, and at last the conviction forced itself upon me that they must have some special virtue else they could not obtain such strong endorsements in all parts of the country. The upshot was that I determined to try them and I bless the day that I came to that conclusion. Before the first box was finished I felt benefited, and I continued their use until I was as strong as ever. I have lately worked hard and find no ill effects therefrom. I consider Dr. Williams' Pink Pills the best medicine sold, and you may say I would not be without them in the house if they cost \$5 a box. All my neighbors know what Pink Pills have done for me," said Mr. Botting, "and I would just like you to ask some of them."

Your reporter acted upon the hint, and first saw Mrs. L. Kish, a daughter of Mr. Botting. Mrs. Kish said, "What my father has told you is quite true. It was Pink Pills that cured him and we are very, very thankful. Father is now as smart as he was twenty years ago."

Charles Knapp, a prominent farmer, said: "I consider Mr. Botting's cure a most wonderful one and I believe he owes his life to Dr. Williams' Pink Pills." Your reporter called at John W. Knapp's but found that gentleman away from home. His wife, an estimable and intelligent lady, said, "We are aware that Mr. Botting was very sick for a long time and considering his age thought it unlikely that he would recover, but he is now as smart as he was ten years ago and he ascribes it all to Dr. Williams' Pink Pills."

Mr. Avery, Reeve of the Township of Oso, and Warden of the county of Frontenac, merchant, told your reporter that he has a large and constantly increasing sale for Pink Pills, and from all quarters has good reports of their curative qualities.

H. W. Hunt, a commissioner and school teacher, said he had known Mr. Botting for a number of years and considered him a well-read and intelligent gentleman, who, if he said Pink Pills had cured him, could be depended upon, as he is a very conscientious man, who would not make a statement that was not accurate.

Dr. Williams' Pink Pills are a perfect blood builder and nerve restorer, curing such diseases as rheumatism, neuralgia, partial paralysis, locomotor ataxia, St. Vitus' dance, nervous headache, nervous prostration and the tired feeling therefrom, the after effects of la grippe, diseases depending on humors in the blood, such as scrofula, chronic erysipelas, etc. Pink Pills give a healthy glow to pale and sallow complexions and are a specific for the troubles peculiar to the female system, and in the case of men they effect a radical cure in all cases arising from mental worry, overwork, or excesses of any nature.

These Pills are manufactured by the Dr. Williams' Medicine Company, Brockville, Ont., and Schenectady, N. Y., and are sold only in boxes bearing the firm's trade mark and wrapper, at 50 cents a box or six boxes for \$2.50. Bear in mind that Dr. Williams' Pink Pills are never sold in bulk, or by the dozen or hundred, and any dealer who offers substitutes in this form is trying to defraud you and should be avoided. The public are also cautioned against all other so-called blood builders and nerve tonics, no matter what name may be given them; they are all imitations whose makers hope to reap a pecuniary advantage from the wonderful reputation achieved by Dr. Williams' Pink Pills. Ask your dealer for Dr. Williams' Pink Pills for Pale People, and refuse all imitations and substitutes.

Dr. Williams' Pink Pills may be had of all druggists or direct by mail from Dr. Williams' Medicine Company from either address. The price at which these pills are sold makes a course of treatment comparatively inexpensive as compared with other remedial or medical treatment.

FACTS AND FIGURES.

Paris has 50,000 raggpickers. There are 235 varieties of dynamos. American "trusts" represent \$2,000,000,000. Phonographs netted Edison \$1,500,000. A machine stamps 30,000 letters an hour. Galveston has an 8,071 foot artesian well. Lowry City, Mo., has a 3,741 pound steer. Anthracite fields produce 45,000,000 tons a year.

Fairhaven, Wash., has struck a 10,000,000-ton coal field. There are over seventy miles of tunnels cut in solid rock at Gibraltar.

Fully 25 per cent. of all the champagne that is made is lost by the bursting of bottles.

Europe consumes upward of \$24,000,000 worth of gold and silver annually for plate, jewelry and ornaments.

A year ago there were only fifty people in the mining settlement of Cripple Creek, Col. Now it is a thriving town of 10,000 inhabitants.

Of the whole length of the Suez Canal sixty-six miles are cuttings, fourteen were made by dredging through the lakes, and eight miles required no labor. Some of the English pumping engines perform work equaling the raising of 20,000,000 gallons one foot high by the consumption of 100 weight of coal.

A bell that could be heard 45,000 feet in water could be heard only 656 feet in the open air. Dogs barking on the earth can be heard by balloonists at a height of four miles.

The European War Cloud.

It is now more than twenty years since the truce was made between France and Germany, and during this long period we have witnessed constant and feverish preparations for a renewal of the struggle. The feeling between the two peoples has been embittered by time. They live now upon terms of mutual hatred and fear. Armed to the teeth, they watch each other like two gladiators on guard, eager for an opening. Nobody can tell which one will commence the attack, but everybody feels that the shock must come, and that each hopes to "bleed the other white."

It is still a debatable question whether Napoleon III. plunged his country into war without sufficient reason and without sufficient preparation, or whether he was forced into it by a deliberate *quod agens* which enabled the Germans at the outset to hurl seventeen army corps against eight. The figures are Capriivi's. But whichever way it was, the thing itself may take its place among the most rascally wars of history. The Germans to-day are enraged at the thought that it must be renewed under far different conditions, and the French appreciation of their past conduct is best explained in the popular chorus, *Rendez-nous nos pendules!* They insist that the Germans did not act like soldiers, but like brigands. On the other hand the Germans argue that they are peaceably disposed people, and that the French, naturally revengeful and blood-thirsty, have brought upon Europe the military burdens under which the nations stagger to-day.

If such sentiments on each side of the frontier were merely expressed in words, one might well afford to treat them lightly; but, unfortunately, they are represented by guns. Never before has the world witnessed such gigantic preparations for war, and never before has the press of Europe been so full of fire. The correspondence which we are constantly receiving from the other side of the Atlantic is occupied almost exclusively with descriptions of formidable military programmes and repetitions of ugly war rumors. The fact that such a condition has existed during the past fifteen years offers very poor evidence that it will continue much longer. On the contrary, the nations seem to have reached very close indeed to the limit of their ability in the matter of armaments. The Socialists tell us that when that point is reached general disarmament will be the result; but this is one of the visions of which they like to speak, a mirage which they love to paint. There is no rainbow to span and soften the great war cloud of Europe.

A WATCH THAT TALKS.

It is So Made That It Speaks the Hours Instead of Striking Them.

It is said a watchmaker of Geneva, Switzerland, named Casimir Livan, has just completed a watch which, instead of striking the hours and quarters, announces them by speaking like a phonograph. The mechanism of the watch is based on phonographic conditions, the bottom of the case containing a phonographic sensitive plate which has received the impression of the human voice before being inserted in the watch.

The disk has 48 concentric grooves, of which 12 repeat the hours, 12 those of the hours and quarters, and 12 more of the hours and second and third quarters. If the hand on the dial shows the time to be 12.15 o'clock one of the fine needle-points of the mechanism crosses the corresponding groove, and the disk, which turns simultaneously, calls out the time just as the phonographic cylinder. The lower lid of the case is provided with a tiny mouth-piece, and when the watch is held to the ear the sound is all the more plain.

Oh, this ringing in the ears!
Oh, this humming in the head!
Hawking, blowing, snuffing, gasping,
Watering eyes and throat-rasping,
Health impaired and comfort fled,
Till I would that I were dead!

What folly to suffer so with catarrhal troubles, when the worst cases of chronic catarrh in the head are relieved and cured by the mild, cleansing and healing properties of Dr. Sage's Catarrh Remedy. It purifies the foul breath, by removing the cause of offence, heals the sore and inflamed passages, and perfects a lasting cure.

The United States took 19,685,000 bottles of French champagne in '92.

Dr. Harvey's Southern Red Pine for coughs and colds is the most reliable and perfect cough medicine in the market. For sale everywhere.

The flesh of the oyster contains about 90 per cent. of water.

GIBBONS' TOOTHACHE GUM acts as a temporary filling, and stops toothache instantly. Sold by druggists.

Engineering Feats of '92.

The engineering feats of last year include: The famous iron gates of the Danube River, which had long been a bar to the development of the commerce along that famous waterway, were successfully removed. The great Tasan dam, which is said to be the largest piece of engineering work in the world, was also completed. It is situated sixty-five miles north of Bombay and is two miles long, with a breast 118 feet high and 100 feet thick at the base. Twelve thousand men were continuously employed in the construction of this colossal work. Somewhat less imposing, but an engineering work of greater importance, was the completion of the Yrnwy aqueduct to supply Liverpool with water. The aqueduct is sixty-eight miles in length, and at one place dips under the River Mersey in a tunnel that is said to be a marvel of engineering skill.

When Canadian cattle were scheduled the Dundee Courier ventured to doubt the wisdom or the justice of the action of the British Government. It has since been giving the subject much attention, and is more than ever convinced that no restrictions should have been placed on Canadian cattle. The Scottish farmers are not the only persons suffering because of the prohibition. There has been a diminution of harbour revenues, the price of meat has been advanced, and the depopulation of rural districts has been accelerated, because of the lessening of the farmers' profits. At a conference in Glasgow of those interested in the trade the opinion was unanimously expressed that the restriction is unnecessary and burdensome. Arrangements were made for holding public meetings throughout the country, and bringing representations to the Government on the subject. If he does not hasten to do justice to Canada Mr. Gladstone may yet find the cattle question as troublesome as that of Home Rule.

"August Flower"

For two years I suffered terribly with stomach trouble, and was for all that time under treatment by a physician. He finally, after trying everything, said stomach was about worn out, and that I would have to cease eating solid food for a time at least. I was so weak that I could not work. Finally on the recommendation of a friend who had used

your preparations a worn-out bottle of August Flower, and commenced using it. It seemed to do me good at once. I gained in strength and flesh rapidly; my appetite became good, and I suffered no bad effects from what I ate. I feel now like a new man, and consider that August Flower has entirely cured me of Dyspepsia in its worst form. JAMES E. DEDERICK, Saugerties, New York.

W. B. Utsey, St. George's, S. C., writes: I have used your August Flower for Dyspepsia and find it an excellent remedy.

Feed a Cold

Yes, but feed it with Scott's Emulsion. Feeding the cold kills it, and no one can afford to have a cough or cold, acute and leading to consumption, lurking around him.

SCOTT'S EMULSION

Of pure Norwegian Cod Liver Oil and Hypophosphites strengthens Weak Lungs, checks all Wasting Diseases and is a remarkable Flesh Producer. Almost as Palatable as Milk. Prepared only by Scott & Bowne, Belleville.

TORONTO ELECTRICAL WORKS.

Electrical Supplies, Bell Outfits, &c. Repairs prompt and reasonable. School and Experimenters' Supplies and Books. 35 & 37 Adelaide St. W., Toronto.

SPECIAL OFFER, beautiful design with your name in fancy colors. Executed with the Automatic Shading Pen, for 10c. silver. Complete stock of Penmanship supplies. Circulars address W.A. THOMPSON, Toronto, Box 528.

IF YOU WOULD SAVE TIME AND MONEY BUY A

NEW WILLIAMS SEWING MACHINE

Agents every where.

CONSUMPTION.

Valuable treatise and two bottles of medicine sent Free to any sufferer. Give Express and Post Office address, T. A. SLOCUM & CO., 186 West Adelaide Street, Toronto, Ont.

FOR SUBSCRIPTION BOOKS, BIBLES AND ALBUMS. Write to William Briggs, Publisher, Toronto.

SITUATIONS VACANT—For hundreds of smart young men and women who will thoroughly prepare themselves in Shorthand Book-keeping, Arithmetic, Penmanship, Type writing, etc. Address particulars, College of Correspondence, Toronto.

DO YOU IMAGINE

That people would have been regularly using our Toilet Soaps since 1845 (forty-seven long years) if they had not been GOOD! The public are not fools and do not continue to buy goods unless they are satisfactory. HEARLE.

The "Panyer" Stone.

A remarkable conspiracy was detected by the authorities of the city of London a few days ago, when an attempt was made to steal the celebrated Panyer stone in Panyer Alley, Newgate Street, which has for the last 200 years marked the highest point of the city of London. It appears that a rich American bribed one of the workmen engaged in pulling down the old warehouse in which the stone is fixed, asking him to exchange the old relic for a modern stone and promising to pay £50 for the deception. The workman conveyed notice of this to the city authorities, and a guard has now been placed upon the original stone, which is a cherished heirloom of the city.

Clifford Blackman

A Boston Boy's Eyesight Saved—Perhaps His Life

By Hood's Sarsaparilla—Blood Poisoned by Canker.

Read the following from a grateful mother: "My little boy had Scarlet Fever when 4 years old, and it left him very weak and with blood poisoned with canker. His eyes became so inflamed that his sufferings were intense, and for seven weeks he

Could Not Open His Eyes.

I took him twice during that time to the Eye and Ear Infirmary on Charles street, but their remedies failed to do him the faintest shadow of good. I commenced giving him Hood's Sarsaparilla and it soon cured him. I have never doubted that it saved his sight, even if not his very life. You may use this testimonial in any way you choose. I am always ready to sound the praise of

Hood's Sarsaparilla

because of the wonderful good it did my son." ABIE F. BLACKMAN, 2888 Washington St., Boston, Mass. Get HOOD'S.

HOOD'S PILLS are hand made, and are perfect in composition, proportion and appearance.
