Each school competing shall pay the sum of \$1.00 as an entrance fee, which fee will entitle the pupils to compete in either class or both. Every teacher within a reasonable distance should make an effort to have his or her pupils compete for the prizes in writing or drawing.

Died at the Age of Eighty-Two.

Few names, outside of those who have always lived here, have been more familiar to the citizens of Richmond Hill than the late Mr. G. P. Dickson, who died at his home in Toronto on Saturday evening at the ripe old age of 82 years. His rather sudden death was unexpected as he had been in good health, and was active in the discharge of private business matters until a day or two before he passed away. The immediate cause of his death was general debility and heart failure. Mr. Dickson was born in Lunark, Scotland, but had lived for more than fifty years in Toronto and vicinity. When he first went to the city he entered into the business of a dry goods merchant, but afterwards came to this place and engaged in the milling and grain business at Elgin Mills. In the year 1866 he returned with his family to Toronto having been appointed Collector of Inland Revenue. A year or two later he was appointed Inspector of Weights and Measures, and in this capacity did much to bring about the system which now exists in the Dominion. He was always looked upon as a faithful and efficient officer, and after a term of nineteen years was superannuated, after which time he lived in retirement. He was a Reformer in politics, but after becoming a government official he ceased to exercise his franchise. He was a member of the Presbyterian church, and held offices in several congregations of the city during his residence there. Mr. Dickson leaves behind him a widow, two sons and four daughters. The funeral took place to the family burying ground here on Tuesday, arriving at the village shortly after 1 o'clock p. m. The remains were first taken into the Presbyterian church where a short service was conducted by Rev. Mr. O'Neill, pastor of the congregation of which deceased was a member, assisted by Rev. Dr. Percival. The church was appropriately draped in mourning, many choice flowers and plants were placed around the altar, and the floral tributes which came on the coffin were unusually beautiful. Although the afternoon was extremely wet and disagreeable, quite a large number of old friends here attended the funeral and showed their last tributes of respect to a former esteemed fellow-townsmen. Members of the family acted as pallbearers. A novel feature of a funeral in this village was the presence of three Chinamen. Upon enquiry we learned that they were members of a Chinese Sabbath School in the city, who are taught by daughters of the deceased, and who took this way of showing respect to the deceased who had been to them a warm friend. We might here say that Mr. Dickson's sons wished to convey through THE LIBERAL the heartfelt thanks of the family to the friends here for the kindness shown at the burial of their father.

July Examinations.

The time-table for the primary leaving and university matriculation examinations for 1893 has been issued by the educational department. The primary junior leaving and half matriculation examinations will begin on Tuesday, July 4, and the senior leaving and other matriculations on Thursday, July 13th. All candidates for any of these examinations intending to write in Richmond Hill should make application to Inspector Davidson, either direct or through their principal, not later than May 24.

There's an end to all things, they say, but there's no end to Atkinson & Switzer's willingness to please customers.

Street Cars in Newmarket.

There is a prospect that before the close of the present century Newmarket will be connected with Toronto by an Electric Railway. The bill granting incorporation and other powers to the Metropolitan Electric Railway Co. passed the Private Bills Committee of the Legislature last week. The World report says:—"J. K. Kerr, Q. C., and H. H. Dewar represented the company, T. H. Bull the township, C. C. Robinson the county, A. H. Marsh, Q. C., the rival road, and C. R. W. Biggar, Toronto. For three hours the squabble continued. Those opposed to the bill fought every clause. It was finally decided that the company should be empowered to extend their line of railway to Lake Simcoe, or to any intermediate point between the present Northern terminus and Lake Simcoe, and to build branches to Markham, Newmarket, and through the village of Schomberg. It was also stipulated that the road should not be operated in Toronto without the consent of the city, and that they should not sell light or heat otherwise than by the request of the ratepayers.—Eva.
