**THE BEHRING SEA CASE.**

The decision of the Behring Sea Arbitrators has been handed in at last and the vexed questions, which have troubled the nations so long, have been finally settled. One good thing about the result appears to be that both sides claim a victory, therefore each country should be satisfied. A reading of the text of the award, however, shows that the decision was a compromise, and this was to be expected. Of course, when the United States contended that Behring Sea was a closed sea, the exclusive property of the United States, every person looked upon the contention as an absurdity. In fact they saw the absurdity themselves and afterwards amended their claim so that they would merely be looked upon as the custodian and protector of the seals.

The arbitrators found that outside the three mile limit the Americans had no more rights than other nations. They decided, however—and this should be satisfactory to all parties concerned—that a close season should be established, to last each year during the months of May, June and July. A protected zone is also to be established extending for sixty miles around the Pribyloff islands. The use of firearms is prohibited, therefore sealers will have to catch their prey by means of spears.

Although the arbitrators from Canada are satisfied, it would seem that this country is to be restricted in sealing, as hereafter its fishing will be confined to the North Pacific Ocean. Another point relative to Canada does not appear to have been distinctly settled. It was agreed that the Dominion should get damages from the United States on account of the vessels seized by the latter, but the amount of damages has to be fixed by future arbitrators which may give rise to further trouble.

There is one feature of the case which must be satisfactory to all, i. e. that the seals are to be protected during a certain part of the year. As the law formerly stood their total extinction was only a question of time.

The report of the commissioners appointed by Hon. G. W. Ross, Minister of Education, to inspect the French Schools in Prescott and Russell, shows a decided improvement in the management of the Schools of that district during the past few years. It will be remembered that in the year 1889 complaints were made that the English language was neglected, therefore a Normal School was established on the recommendation of the Minister of Education, the principal object being the training of French teachers, whose English had been neglected.

The report shows that the French people are not only willing but are desirous that their children should be taught the English language. One half more time is now given to English subjects than was given four years ago. The establishment of the Normal School was evidently a step in the right direction, as every year the general work is being done far more efficiently than in the preceding year.

The Aurora Banner bitterly complained about the Education Department keeping the candidates who wrote at the Entrance Examination nearly two months in sus-

pense before announcing the result. We agree with our contemporary that it is an injustice to the pupils to withhold the result of their labors so long. As a rule the papers are examined and report made up within a week after the examination, and scarcely ever is a pupil rejected by the Education department who is passed by the Local Examiner. In the case of candidates who are only recommended, the names need not be published until they are finally passed. Many a pupil might be able to make arrangements in the fore part of the holidays for attending High School at the re-opening, who could not do so if he or she had to wait for the result until within a few weeks from the end of the vacation. We have never yet heard a good argument in favor of the present regulation. Let it be distinctly understood that the candidates are only provisionally passed by the local examiners, but let this encouraging news be communicated to them as soon as possible.

According to the Telephone of last week The North Toronto Gazette has closed shop after an existence of less than four months. The cause ascribed is "Adverse and uncalled for criticism." We always feel sorry to hear of a lack of success in business matters, but one thing is certain too many people go into the newspaper publishing without first considering the cost and responsibility.

The Saturday Edition of the Toronto Daily Mail is a beautiful paper full of news of the world and special articles of interest to men, women and children. The Women's Kingdom Department, edited by "Kit," is the brightest in America. The Flaneur and Boys and Girls are both very popular departments. There are over \$250 00 worth of engravings in each issue of The Saturday Mail. You should have it. Two Dollars a year. Address, The Mail, Toronto, Canada.

**Maple**

The annual field meeting of the Methodist Church was held on Sunday last. In the morning and evening powerful and impressive sermons were preached by Rev. Dr. Parker, and in the afternoon by Rev. W. Dean. All the services were of great interest and were well attended.

Mr. J. R. Colls has a new street lamp in front of his shop. A few more should follow his example, as on dark nights it is dangerous walking on some of our streets on account of the bad state of the sidewalks.

The teachers and pupils of this section will have a much longer vacation than usual, as the new school house is not nearly completed.

Some of the ladies of the village are making arrangements for a picnic to be held in Rumble's grove on Thursday afternoon.

Mr. J. Powers, who has been attending the British American Business College in Toronto, has been successful in obtaining a diploma.

Rev. G. Browne left on Monday for a trip to Parry Sound.

The Misses West, of Toronto, are visiting at Mr. M. Robinson's.

Miss E. Walton, of Toronto, and Miss Marcia McKay, of Parkdale, are the guests of Miss Annie Craddock.

Rebecca Wilkinson, of Brownsvalley, Ind., says: "I had been in a distressed condition for three years from Nervousness, Weakness of the Stomach, Dyspepsia and Indigestion until my health was gone. I bought one bottle of South American Nervine, which did me more good than any \$50 worth of doctoring I ever did in my life. I would advise every weakly person to use this valuable and lovely remedy. I consider it the grandest medicine in the world." A trial bottle will convince you. For sale by W. A. Sanderson.

**HAY for SALE**
