

A PHYSICIAN'S STORY.

Dr. Lewis Blundin's Statement Under Oath.

Attacked With Paralysis for Twenty-five Years—Pronounced Incurable by the Foremost Physicians in America—A Case of World Wide Interest.
From the Philadelphia Times.

Many survivors of the late war left the ranks unscathed, but with broken constitutions; an instance in point is Dr. Lewis D. Blundin, a resident of Hulmeville, Bucks Co., Pa. In relating his experiences and what he had suffered in consequence of the hardships he had encountered Dr. Blundin said:—"I was born at Bridgewater, Penna., 1841, and went through the war as private, sergeant and hospital steward in Company C, 28th Pennsylvania Volunteers. My service was active, and while in Georgia I had an attack of typhoid fever, which left me weak and a ready victim for future disease. My kidneys were then affected and this finally developed into spinal trouble, which lasted through my army service. In 1866 I was mustered out with an honorable discharge and entered the Jefferson Medical College as a student. In due time I graduated and removed to Manayunk, Pa. One day after I had graduated, I was lying on a sofa at my home in Manayunk, when I felt a cold sensation in my lower limbs as though the blood had suddenly left them. When I tried to move they were stiff, and I discovered that I was paralyzed from my hips to my toes. The paralysis was complete and a pin or a pinch of the flesh caused me no pain. I could not move a muscle. I called in Dr. William Todd, of Philadelphia. He made a careful and exhaustive examination of my case, sounding and testing, and finally announced that my trouble was caused by inflammation of the spinal cord, and that I would likely have another stroke of paralysis. I consulted Dr. I. W. Gross and Dr. Pancoast, of Jefferson College, Philadelphia, with the same result. I called in Dr. Moorehouse, of Philadelphia, who said that no amount of medicine would ever prove of the slightest benefit to me.

"One day last September I decided to try Dr. Williams' Pink Pills for Pale People. I sent for one box. I had always been troubled with a sort of vertigo after my first stroke of paralysis to such an extent that when I got out of my bed my head would swim, and I had difficulty in saving myself from falling. My appetite was bad, digestive organs ruined, and no assimilation of food. In addition to my many other ailments, rheumatism held a prominent place. By the time I had finished the first box of Pink Pills I was comparatively free from these minor ills. My appetite returned, the digestive organs got down to their daily grind and the rheumatism disappeared. I was much encouraged and immediately sent for half a dozen boxes of the Pink Pills. Relief followed upon relief with astonishing rapidity. First, one ailment would disappear, then another, until the pills got to work upon the foundation stones of my trouble—paralysis. I felt a sense of exhilaration and the general effect was beneficial, becoming more so each day. Noting this fact, I increased the dose from one to two pills after each meal for a few days. Before I had taken the six boxes of pills, I was sitting in my chair one afternoon, when I felt a curious sensation in my left foot. Upon investigation, I found it had flexed, or, in other words, become movable, and I could move it. From that time on my improvement was steady and it was not long before I was walking around on crutches with little or no discomfort. It was three years before taking the Pink Pills that I had been able to use the crutches at any time. My health is daily improving and I feel sure that Pink Pills have done me more good than all the doctors and all the medicine in the country and as they are not costly I can easily afford the treatment."

Dr. Blundin tells of another remarkable cure effected by the use of Pink Pills. One of his comrades in the army was Lewis J. Allan, of Battle Creek, Michigan, who has been a sufferer from rheumatism nearly all his life. Mr. Allan is a grandson of Ethan Allen of revolutionary fame. "I know," said Dr. Blundin, "that Mr. Allan could not lift his arms to his head, or even his hands to his mouth, because of chronic rheumatism. He read in a Detroit paper of a wonderful cure made by Pink Pills and bought some. His cure was sudden and complete. Knowing that I was a sufferer from rheumatism, along with my other ills, he wrote me about his recovery and advised me to try them. I was then using them. He said he had perfect control of his arms and hands and could use them freely without experiencing any pain. He added that as a cure for rheumatism the pills were the most complete in the world. My case alone proves that, for I am confident that my greatly benefited condition is due solely to the use of Dr. Williams' Pink Pills for Pale People."

Sworn to before me this 15th day of May, 1893.

GEORGE HARRISON, Notary Public.
Dr. Williams' Pink Pills are a perfect blood builder and nerve restorer, curing such diseases as rheumatism, neuralgia, partial paralysis, locomotor ataxia, St. Vitus' dance, nervous headache, nervous prostration and the tired feeling therefrom, the after effects of la grippe diseases depending on humors in the blood, such as scrofula, chronic erysipelas, etc. Pink Pills give a healthy glow to pale and sallow complexions and are a specific for the troubles peculiar to the female system, and in the case of men they effect a radical cure in all cases arising from mental worry, overwork, or excesses of any nature.
These Pills are manufactured by the Dr. Williams' Medicine Company, Brockville, Ont., and Schenectady, N. Y., and are sold only in boxes bearing the firm's trade mark and wrapper, at 50 cts. a box or six boxes for \$2.50. Bear in mind that Dr. Williams' Pink Pills are never sold in bulk, or by the dozen or hundred, and any dealer who offers substitutes in this form is trying to defraud you and should be avoided. The public are also cautioned against all other so-called blood builders and nerve tonics, no matter what name be given them. They are all imitations whose makers hope to reap a pecuniary advantage from the wonderful reputation achieved by Dr. Williams' Pink Pills. Ask your dealer for Dr. Williams' Pink Pills for Pale People and refuse all imitations and substitutes.

Dr. Williams' Pink Pills may be had of all druggists, or direct by mail from Dr. Williams' Medicine Company from either address. The price at which these pills are sold makes a course of treatment comparatively inexpensive as compared with other remedies or medical treatment.

SCOTCH CATTLEMEN

Talk of the British Government's Action to Shutting Out Canadian Animals.

All the anxiety because of the refusal of the British Government to allow Canadian cattle to enter Scotland is not on the part of the Canadian shipper, as will be seen from the following remarks on the subject by Mr. James Weir, Lanark, Scotland, and J. Smith, M. D., a graduate of Edinburgh University, who are at present guests at the Queen's hotel. Mr. Weir, who visits America for the purpose of acting as judge of cattle at the Chicago Fair, speaking to an Empire reporter one evening, said that it was a great mistake to prohibit the entry of Canadian cattle into Scotland and that the prohibition would result in a great loss to thousands of Scotch people. It was a mistake for more reasons than one. In the first place the commissioners, acting under Mr. Gardner, while quite honest in the matter, had made a mistake when they had said that the cattle found diseased were the victims of an infectious disease. Prof. Williams, of the New Veterinary College, Edinburgh, and one of the acknowledged cattle experts of Europe, maintained that the pleuro-pneumonia detected in the Canadian cattle was not infectious. Mr. Weir, who has made a careful study of the case that the commissioners reported on, was of the same opinion. They had been killing the cattle for months and had only discovered one case that

APPEARED SUSPICIOUS.
Mr. Weir's experience was that, where three or four thousand animals were killed, there would always be a few that would show weak lungs and appear suspicious, while, as in the Canadian case, there might be no infectious disease. Take for instance the milch cows in Scotland that have been milked for seven or eight years. A large percentage of them would be affected in the lungs, but their disease would not be infectious. While it was a great mistake to stop the importation of Canadian cattle, under the circumstances the Government could not properly be blamed. They had appointed officers, thought to be competent, to inspect the cattle, and these men had not been selected to examine the cattle. What was wanted was a proper jury of experts to sit on such cases. So important a matter should not be left in the hands of the Government officials who were liable to be careless and then, when the mistake was discovered, in order to save themselves, stick to it through thick and thin that they were right. The effect of keeping Canadian cattle out would be that "store" cattle would advance in price and the working classes of Scotland would suffer.

DR. SMITH'S VIEW.
Dr. Smith was of the opinion that contagious pleuro-pneumonia was not a recognized or common disease of the human subject, but that frequently in the course of epidemic disease pleuro-pneumonia developed the pathological appearances which were probably synonymous with those that would be found if pleuro-pneumonia were an epidemic disorder. There was no question but that the condemned animal from Canada had pleuro-pneumonia, but the disease was not of a contagious character. If the English Government wished to restore confidence they would require to appoint such men as Prof. McCall, Veterinary College, Glasgow; Prof. Wallace, Dicks' Veterinary College, and Prof. Williams, Edinburgh, to sit on a board and judge of each case reported to them. No one would dispute their judgments in the matter.

His Happiest Moment (?)

"Is it all right, doctor?"
"Splendid, Smith! allow me to congratulate you."
"Is it a—a—boy?"
"The picture of his father."
"Doctor, this is the happiest moment of my life. It's selfishness on my part, though—for Louisa yearned for a daughter so fondly."
"In that case, Smith, she won't be disappointed."
"Didn't you say it was a boy, doctor?"
"The picture of his father."
"But Louisa wanted a girl."
"In that case, Smith, as I said before, she won't be disappointed, for Heaven has more than gratified her desire."
"Do I understand you, doctor?"
"Yes—twins."

No Disappointment

Can arise from the use of the great sure-pop corn cure—Putnam's Painless Corn Extractor. Putnam's Extractor removes corns painlessly in a few days. Take no substitute. At druggists.

Disappointed.

Lady (to gentleman who has just fallen down stairs): "Good gracious, how it frightened me! I thought it was my husband who fell down."
Gentleman: "I wish to goodness it had been. I am as much disappointed as you are."

A Veteran's Story

Mr. Joseph Hemmerich, an old soldier, 529 E. 146th St., N. Y. City, writes us voluntarily. In 1862, at the battle of Fair Oaks, he was stricken with typhoid fever, and after a long struggle in hospitals, lasting several years, was discharged as incurable with consumption.

Doctors said both lungs were affected and he could not live long, but a comrade urged him to try Hood's Sarsaparilla. Before he had finished one bottle his cough began to get loose, the choking sensation left, and night sweats grew less and less. He is now in good health and cordially recommends
Hood's Sarsaparilla as a general blood purifier and tonic medicine, especially to his comrades in the G. A. R.
HOOD'S PILLS are hand made, and are perfect in composition, proportion and appearance.

His Missus Was.

The vicar of a country parish was a gentlemen distinguished for his learning, and for the position he had obtained at Cambridge.
One day a visitor to the village got into conversation with one of the clergyman's parishioners, and in some way or other the vicar became the subject of their gossip.
"Your clergyman," said the visitor, "is a very able man. I knew him at Cambridge, where he became a wrangler."
"I never heard that," was the reply of the villager, "But I know his missus is an awful wrangler."
"Peter Piper Picked a Peck of Pickled Peppers," was a line of alliterative nonsense, that the children used to say. Nowadays they can practice on the Perfect, Painless, Powerful Properties of Pierce's Pleasant Purgative Pellets. It will impress a fact which will be useful to know. These Pellets cure sick headache, bilious attacks, indigestion, constipation and all stomach, liver and bowel troubles. They are tiny, sugar-coated pills, easy to take, and, as a laxative, one is sufficient for a dose. No more groans and gripes from the old drastic remedies! Pierce's Purgative Pellets are as painless as they are perfect in their effects.
Last season the Carl Rosa opera company made a profit of about \$10,000, the first in several years.

Thirty Years' Experience
In treating all chronic diseases gives positive proof that "Tissue Builders" (Histogenetic) are the best remedies. Send postal card for book (free) to Dr. W. Rear, room 19, Gerard Arcade, Toronto, Ont. Mention this paper.

Louis Napoleon was fond of mimic warfare, and would often have forts constructed in his garden to illustrate some tactical point.
Dr. Harvey's Southern Red Pine for coughs and colds is the most reliable and perfect cough medicine in the market. For sale everywhere.

"German Syrup"

Martinsville, N. J., Methodist Parsonage. "My acquaintance with your remedy, Boschee's German Syrup, was made about fourteen years ago, when I contracted a Cold which resulted in a Hoarseness and a Cough which disabled me from filling my pulpit for a number of Sabbaths. After trying a Physician, without obtaining relief—I cannot say now what remedy he prescribed—I saw the advertisement of your remedy and obtained a bottle. I received such quick and permanent help from it that whenever we have had Throat or Bronchial troubles since in our family, Boschee's German Syrup has been our favorite remedy and always with favorable results. I have never hesitated to report my experience of its use to others when I have found them troubled in like manner." REV. W. H. HAGGARTY, of the Newark, New Jersey, M. E. Conference, April 25, '90. **A Safe Remedy.**
