SCHEDULING CATTLE.

A few days ago in the House of Commons Mr. Wm. Mulock, M.P., for North York, placed the Dominion Government in an unenviable position, relative to the scheduling of Canadian cattle in England. The speaker claimed that the restriction placed upon Canadians was fairly attributable to the negligence of the Ottawa officials, whose duty it was to see that the Imperial regulations provided that American cattle were to be inspected in the United States before coming into Canada, but that was altogether overlooked. The only inspection they were subjected to was after they had entered Canada, and then it was often at midnight, and by a conductor of the railroad, who was in no way responsible to the Government. Mr. Mulock also charged that the Dominion Government allowed the cattle trade to be continued between the United States and Canada after the Imperial Parliament had warned us of the existence of pleuro-pneumonia in the States.

Sir Hibbert Tupper and Mr. Ives attempted to defend the Government, but the attempt was one of the weakest of the session. It could not be denied that the Government had entered into a solemn agreement with England, but that agreement had been violated by the Canadian authorities. It could not be denied that the interests of the farmers had been sacrificed to those of the railway companies. It is all very well to say that the Opposition should not bring our country into ill-repute by showing the neglect of those in power, but if they did not do so, they would be negligent in their duty.

The Patrons of Industry have plenty of work before them. Let them see that the members of Parliament accept no free railway passes, and then our representatives may be in a position to take an independent stand when the interests of farmers and the railway companies are at variance.

The strike in Chicago and various parts of the United States has reached serious dimensions, and it is difficult to say what the end will be. The trouble arose when the Pullman Car Company reduced the wages of their workmen. The former claim they were forced to curtail their expenses, as they were losing thousands of dollars every day. In Chicago, over a million dollars of property has been burned and otherwise destroyed by the rioters. The strike got so general that U. S. troops had to be called out resulting in the loss of several lives. President Debs, who instigated the uprising, has been indicted, and will likely be imprisoned. The weak point on the side of the employers is that the Pullmans have refused to submit the difficulty to arbitration.

The Empire and several of the lesser Conservative lights are agitating for a special meeting of the Ontario Parliament in order, as they say, to find out whether Sir Oliver Mowat has a majority over Conservatives, Patrons and P.P.A's. A recommendation for an extra session in the year sounds funny from a party who, previous to the General Elections, was in favor of biennial sessions.

On Sunday last a number of horse cars were run in Toronto contrary to regulations. We are not surprised to see The World newspaper lending encouragement to the lawbreakers, as usual.

Lawn Social.

To the Editor of THE LIBERAL:

Also to the Band who contributed so much to enliven the occasion, and to the ladies, not in connection with the school, who supplied the ice cream, etc., so highly enjoyed by all.
