Last Tuesday Wm. Washington swore out an information before J. C. McQuarrie, Esq., of Maple, against a man named Hastings in the employ of Joseph Atkinson, for having threatened to do Washington bodily harm and burn his buildings. Hastings, failing to give security for his future good behavior, was committed to gaol, and was brought out to this village and put in the lock-up, from which place he was taken to Toronto yesterday morning by County Constable Rumble.

The High and Public schools of the village opened on Monday for the fall session, and the attendance in every room was larger than it has been during opening week for many years past. In the High School about 60 registered and there are several pupils yet to come. The Public Schools opened with an attendance of about 160. There is a good feeling in every department, and all the teachers are encouraged to see such an interest taken at the opening of the fall term. The Committee of Management are to be congratulated in fitting up the school rooms for the reception of teachers and pupils.

Maple. Mr. Caldwell's tailoring establishment of this place was entered by burglars last Friday night, when six suits of clothes and also a quantity of cloth was taken, to the value of about \$200. Mr. Caldwell has the sympathy of his neighbors in his loss as he is a worthy citizen and a first-class mechanic. The residents, however, are glad to know that he has already purchased a new stock of goods, and intends carrying on a larger business than heretofore. All wish him success, and hope that he may never again be visited by those despicable midnight prowlers who go about in men's clothing.

Mr. F. J. Gallanough, V.S., visits Richmond Hill professionally Wednesday afternoon of each week. 9-3

Carrville. Most of the farmers around here are through harvest and are getting ready for seeding. Miss Ethel Appleton, daughter of Mr. Harvey Appleton, met with a sad accident. She ran a needle in her foot which could not be taken out, and consequently has a very bad foot. The boys are getting ready for the Exhibition as they expect to have a good time. Our annual harvest home is to be held on the 16th and 17th of September, on which a good time is expected. Mr. Hewison, of Richmond Hill, has got the job of renovating the church, and he is a man that will see that it is properly done. Some of the boys have got right in it this year at the Harvest Home. Our choir is practicing up ready for the 16th of September; some of the young ladies sing very sweetly. Mr. Aaron Prentice, of this village, had a great loss. He lost two of the best colts he had. They both died inside of ten days. One was examined and found that it had burst a blood vessel at its heart. Mrs. Dentman, with her son and daughter, of French River, were visiting her sister, Mrs. Jas. Coombs. Mr. Geo. Bone fell a few days ago and sprained his wrist, from which accident he could not work. —Gow.

Toronto Industrial Fair, 1894. The Toronto Industrial Exhibition, which commences on the 3rd day of September, a few days hence, continuing until the 15th of the month, will surpass in interest and attractiveness all its predecessors. The entries have been unusually numerous and choice, and every building will be crowded. The great improvements made last year in connection with the accommodation of live stock by the erection of new sheds and stables on the latest and most approved principles of construction have resulted in increased interest being taken in the Fair by farmers and stock-raisers, and in addition to entries by nearly all the old-time exhibitors there are large accessions to the number. The list of special attractions is brilliant and diversified, including trotting, running and hurdle races, dog trotting matches, bicycle contests, equestrian specialties, balloon ascensions with new and exciting drops, living pictures (being reproductions of the most celebrated works of art by graceful and handsome models), Japanese day fireworks—a novel Oriental device of much ingenuity and artistic merit, Edison's marvellous Kinetograph—the newest electric wonder, the California phantom carriage, music by the best bands in the Province, concerts by the Ladies' Vienna Court Orchestra, performances by the Slavery Days Troupe, organ recitals and every evening the wonderfully realistic, brilliant and vivid spectacular and pyrotechnic performance of the "Siege of Aigiers," with 417 performers, culminating in a burst of meteoric splendor which marks a new era in the pyrotechnic art. The attendance bids fair to be extraordinarily large, as, in addition to reduced rates on all railways and steamboats, a number of special excursions covering a wide area in Canada and the United States have been arranged for. No one should fail to visit the Industrial this year.
