THE GENERAL ELECTIONS.

The Toronto World of Monday has a non-committal article on the probability of an early general election for the Dominion. The World says that the revision of the voters' lists will be completed by April next, but that Sir John Thompson might easily find good reasons for going to the country at once. It is not likely that the elections will be held before next June, nevertheless, if the Premier could see that any advantage could be taken by a sudden spring, he would not wait for the completion of the new lists. The old lists are about three years old, but so were those used at the general elections in 1891. It is evident that a list so old would disfranchise young men under 23 years of age, and would allow many men to come back and cast their votes who have long since removed from this country, and who would be ineligible under a new list. Should the elections be held on the old voters' lists it would be an outrage, and the wonder is that the electors of this country will be satisfied with such an infamous law which ties the hands of so many who are entitled to the franchise.

People were inclined to think that President Cleveland would weaken on his free trade principles, after the overwhelming defeat of the Democrats a few days ago. Such is not the case, however. In his annual message to Congress on Tuesday he strongly advises the necessity of placing coal and iron on the free list. He also expressed the opinion that the whole differential duty on sugar should be taken off. Of course this latter move would be fiercely opposed by the sugar refiners, who claim that very little money is made under the present tariff. This can scarcely be believed as expert testimony has shown that in 1892 the sugar trust made 150 per cent. on its actual investment of \$10,000,000, and in 1893 165 per cent.; and to-day the New York Journal of Commerce estimates the profit of the trust at 220 per cent., or \$22,000,000. Another journal estimates that the differential duties add \$5,000,000 a year to the cost of sugar. Besides their dividends, the two Havemeyers receive salaries of \$75,000 a year each, and there are several other salaries of \$25,000 each.

The Orange Sentinel regrets the recent defeat in London of Mr. Essery, the P. P. A. candidate, in the following words:—"In face of the manly stand which Mr. Marter, the new leader of the Opposition, took on the separate school question in the address he delivered during the contest, and the well-known and frequently expressed views of Mayor Essery, the defeated candidate, on the same issue, we cannot but deeply regret the result of the contest."

The third page of the Toronto Daily Mail is noted for "Want" advertisement. If you want a situation, a mechanic, a business, machinery, lodging, if you have lost or found anything, or if you want to find out where anyone is, advertise in the Toronto Daily Mail, and read the advertisements on the third page of that paper. The charge is two cents a word each insertion, or ten cents a word for six insertions. Address The Mail, Toronto, Canada.

Toston

Wednesday evening of last week a happy party was held at Mr. Pierce's where a number of young people gathered from the neighboring district and spent a very pleasant evening.

Mr. T. Piercey, Sr., of Meadowville, is a guest of Mr. Piercey, Jr., of this village.

Mr. E. Marwood, of this village, spent last week with friends in Nobleton.

Mr. A. Taggart has arrived home from lake Nipissing lumber camps to spend the Christmas holidays.

Mr. T. Piercey, while oiling his new cart last Friday evening, neglected putting one of the nuts on the axle, and went for a drive in the above mentioned manner. When he had gone about three miles he was precipitated to the ground but without any further accident.

There have been reports in reference to Mr. Piercey and Mr. Cousins infringing on Mr. Cameron's attachment which he has on his cart. Both parties claim that his attachment is altogether different. The Methodist choir regret the absence of Mr. and Mrs. Wilson last Sunday evening at church service, as their presence was much required.

Last Friday there was a large number of teams hauling stone from Mr. Oster's farm for the purpose of erecting a new English church in Maple. Any person wishing to assist in same by hauling stone, sand or brick, their services will be kindly received.

Live Stock and Farm Journal.

To those who are interested in good farming and stock-raising the Canadian Live Stock and Farm Journal is becoming quite a boon. The cutting down of prices and bad times generally make it necessary for our agriculturists to exercise the greatest care in order to secure the proper returns for their labor, and the Canadian Live Stock and Farm Journal contains just the kind of information necessary to assist them in the work. The subscription price is one dollar a year, and an investment of this kind is one that should prove profitable. The Journal's address is 20 Bay Street, Toronto.

The Montreal Witness.

One of the sights of Montreal is a visit to the Witness office, which, for internal elegance, convenience and completeness of equipment has few rivals anywhere. One's attention is arrested on the sidewalk by seeing through a window a Chinaman patiently turning a crank with the air of one who has a contract for a century of faithful labor, and means to fulfil it. The Chinaman is made of wood and for steady, patient, endless toil commend us to a wooden Chinaman. Making bold to go in we find ourselves in an enviable public office with tiled floor, hot-house flowers and what not. Then we were piloted up a spiral stair, through the great editorial room, to the battery of linotypes which are the marvel of the nineteenth century as Guttenberg's movable types were of the awakening life of the fifteenth. The great Hoe press of the Witness, which prints almost any number of pages, from two to thirty two, is the very most complete machine anywhere. Close beside it you are shown on enquiry a patch on the floor which marks the spot where exploded the famous bomb some months ago, which the Witness doubtless owed to its active and effective war against gamblers and bunco steers, a class which by exposure and clever caricature it has managed to drive from the city, or at least to deprive of the open tolerance and public freedom which they before enjoyed at the hands of sympathetic officials. The stand for law and order taken by the Witness lately resulted in an investigation by the police and detective system of Montreal, which has revealed the need of some revolutionary change. The paper is devoted to temperance and all good things. It claims to be independent in politics and has certainly opposed with equal vigor the Conservative government at Ottawa and the Liberal Mercier government at Quebec. It is at all events a clean family paper, very carefully edited and one of the prettiest in get up and typography that comes to our office.
