XXX

It is extremely expensating to experiment with expensive articles and not experience exact satisfaction. Take clothes for example. You can't tell exactly even by examination with X rays whether they are extraordinary or not.

To be exact you must wear them. That extra qualities exist in our clothing we know from our customers who exhilaratingly tell them to an extreme extent.

No further explanation need be exacted.

STANDARD PLANT FOOD

To produce a healthy, luxuriant growth, earlier and more abundant blossoms, of a richer coloring, it is necessary to feed your plants. The STANDARD FOOD FOR PLANTS is made expressly for plants grown in the house and cannot be recommended too highly for this purpose. It is free from odor, clean to handle and in addition to promoting a strong, healthy growth and a profusion of bloom, it materially aids in keeping your plants free from vermin. The Plant Food will keep any length of time, is immediately soluble in water and ready for the plant to take it up, thus producing a quicker and healthier growth than can be obtained from any other fertilizer yet introduced. Directions for use on each package. Price per package 10 cents; large package 25 cents.

GRANULATED POULTRY BONE

Is about the size of wheat and can be fed like any other food in grain, about one handful for every five fowls daily or every other day. In either manner it furnishes valuable food for poultry at all seasons of the year. Price \$1.00 for 25 cents; 100 lbs. for \$2.

CRUSHED OYSTER SHELLS.

This is the most important article for the poultry yard through the winter and should be liberally supplied to the fowls. In summer, when left to run at large, they can find their own shell making material; but when everything is frozen over or covered with snow they must be helped out if eggs are wanted. Price, 12 lbs. for 25c; 100 lbs. \$1.

MANN'S STANDARD BONE CUTTER

No. 2 weight 142 lbs. Capacity 1 lb. to 1 lb. per minute. We recommend this size and style for all who have a limited number of fowls believing it to be the most economical machine that can be made for cutting green bones with the meat and gristle attached into poultry food. The machine weighs 142 lbs. The knives are made of the finest tool steel and can be easily removed and sharpened when necessary. Price each \$21. No. 1, weight 55 lbs. Its working parts are similar to No. 2 but of smaller size and capacity. Can be readily attached to a table, bench or stand and will be found profitable and convenient for cutting bones for poultry where 60 hens or less are kept. Price \$8.50.

RUST'S EGG PRODUCER

Makes hens lay when eggs are high priced. Trade (The Hen Persuader) Mark. (Circulars on application). A scientific combination of substances which when assimilated by fowls produce eggs, increase growth and development, exactly as certain foods produce milk in cows or fertilizers increase crops. It contains in addition valuable tonics and remedial agents which assure perfect assimilation and robust health, with out which the best results cannot be attained. It makes hens lay in summer and winter. Lb. pkts. 25 cents; 24 lb. box, 50 cents; 6 lb. box, \$1; 10 lb. box, \$1.50.

THE REVIEW OF REVIEWS

Monthly Illustrated

Edited by ALBERT SHAW

"If only one magazine can be taken, we would suggest the REVIEW OF REVIEWS, as covering more ground than any other magazine."—Board of Library Commissioners of New Hampshire, 1896.

THIS magazine is, in its contributed and departmental features, what its readers, who include the most noted names of the English-speaking world, are pleased to call "absolutely up to date," "thoroughly abreast of the times," "invaluable," and "indispensable." It is profusely illustrated with timely portraits, views, and cartoons. Its original articles are of immediate interest, by the best authorities on their respective subjects. The Editor's "Progress of the World" gives a clear, rightly proportioned view of the history of the human race during the current month. The "Leading Articles of the Month" present the important parts of the best magazine articles that have been written in every part of the world. The newest and most important books are carefully reviewed. Indexes, chronological records, and other departments complete the certainty that the reader of the Review of Reviews will miss nothing of great significance that is said or written or done throughout the world.
