Besides a husband, deceased leaves a family of three daughters and one son. Heart trouble is supposed to have been the cause of death.

No Man's Book

The Bible is a mine, the wealth of which is inexhaustible. The greatest divines tell us that they always find something new every time they read it and that, unlike other books, it can never be mastered. There is always something more to be learned from its sacred pages no matter how often we have studied it. This fact affords invincible evidence of its truth. As H. L. Hastings of Boston, well says in "The Inspiration of the Bible": "This is no man's book. When Columbus saw the river Orinoco, someone said he had discovered an island. He replied: 'No such river as that must drain the waters of a continent.' So this book comes, not from the empty hearts of impostors, liars and deceivers; it springs from the eternal depths of divine wisdom, love and grace. It is the transcript of the divine mind, the unfolding of the divine purpose, the revelation of the divine will."
