A party of 18 couples came up by a special electric car from Toronto on Tuesday evening and spent a pleasant time at the home of Mr. and Mrs. P. G. Savage. The young people from the south were chaperoned by Mr. and Mrs. C. Savage.

The Aurora Banner last week referred to an egg of "extraordinary size" which a Sharon farmer picked up in his henery. It measured 8 inches around the ends and 6 inches around the centre. A very sad accident occurred at the home of Mr. Joseph Blanchard early on Tuesday morning. When the father and mother awoke between 5 and 6 o'clock they were shocked to find that their baby, about six months old, was dead. The mother had fed the child about two hours before, and it is thought the infant smothered in the bed-clothes. A doctor was sent for as soon as the discovery was made, but it was of no avail as it was evident that life had been extinct for some time.

A Notable Event.

The Famine Fund sent to the Montreal Star has turned fifty thousand dollars, representing subscriptions from upwards of two hundred thousand persons, one hundred thousand school children and nearly one hundred thousand church members of all faiths. Besides a great many small subscriptions from thousands of private citizens. We do not remember ever to have seen so extraordinary a subscription anywhere. For many years to come the remarkable spontaneity with which this subscription was supported, its almost universal character and the right good will with which the subscriptions were bestowed for the cause, will be looked back to by all Canadians with genuine pride. Besides the relief that this fund provides for India, it provides a substantial evidence that Canadians have a real interest in the whole Empire and it thus serves the double purpose of philanthropy and patriotism. We do not believe that any person ever imagined that it was possible for any one agency to raise so large a sum and to enlist the sympathies of such an enormous number of people as has been done by the Star.

April Delineator.

This number contains a splendid assortment of Styles and Fabrics that will be fashionable during the season. In the Literary Department a theme of particular interest to most women is instructively treated in Margaret Nourse's article on The Art of Preserving Youth. The second paper by Mary Cadwalader Jones maintains the interest created by her March contribution on the Evolution of Dress. Mrs. Theodore Sutro discusses Law as a profession for her sex; J. Bell Landfear describes a pretty "Rainbow" drill for children, and the general interest in Bicycling is shown in an account of the latest attire therefor. There is a delightful sketch of Easter in a Southern Town, and timely directions for the making of Easter Egg Novelties, as well as for the Delft Embroidery now so popular. There is also another of Mrs. Haywood's papers on Ecclesiastical Embroidery. H. C. Wood tells about an original Leap Year Party. In addition to the regular article on Seasonable Cookery, there is a practical paper on the Chemistry of Foods, by A. B. Longstreet. Household Sanitation from a popular standpoint, Witherspoon's Tea-Table Chat, a Review of new Books, and novel contributions in Fancy Work, Knitting, Crocheting, Lace-making etc. are among other features.

DEATHS.

LELLOTT—On Sunday, March 28th, Samuel Lellett (Lellett), son of the late William Lellett, Thornhill, aged 55 years.

Elgin Mills.

Mr. James Newton was in Montreal last week when the shock from earthquake was experienced. He says that the dishes and glassware rattled in the Balmoral Hotel where he was staying, and that there was general excitement in that quarter for some time. The first impression was that an explosion had taken place in the city.

The people in this place are anxious to know when we are to have our post office.

But the chief discussion this week is about the Canadagraph entertainment to be given in Richmond Hill on Friday night. The question in dispute is whether the canadagraph or the pictures are alive. Some say one and some say the other. The debaters are to decide the bet by going down and see for themselves.
