THE CROPS.

Two weeks ago the reports, relative to the crops, that had come to hand indicated that this province never before had better prospects at the same time of year for a bountiful harvest. Later reports issued since the heavy rains will, however, make considerable change in the calculations. Still, the situation might have been much worse had the rain continued a day or two longer. The last four or five days have been perfect harvest days, and the country has much to be thankful for.

The hay crop has been heavy, but a good deal of it has been badly injured by the rain. The wet prevented fall wheat hardening, and considerable of it sprouted, thereby causing much loss.

Corn is a good crop, and roots generally will yield heavy. The oat crop promises well, but barley was badly knocked down by the rain and wind. Much of this grain will be unsalable except for feeding purposes.

Cheese producers are sure of an extra good season. The pasture has been exceedingly good ever since quite early in May, and prospects were never brighter in many counties for a great production of cheese in the autumn season.

With favorable weather for the remainder of the harvest, farmers' prospects will be brighter than they have been for years, notwithstanding the injury from recent rain storms.

A VICTORY FOR SIR WILFRID.

In a recent interview with a reporter in England Sir Chas. Tupper said:—

"I regard Sir Wilfrid Laurier's preferential tariff as an absurd scheme, altogether misunderstood by the English press and people."

Evidently the English Government think they understand Sir Wilfrid Laurier, or they would not be moving so quickly in the matter. Sir Charles Tupper has contended all along that the proposal to give Britain a preferential tariff was inoperative on the ground that she was already bound in commercial treaties with Germany and Belgium. Word now comes to hand that these treaties have been denounced, and that they will cease to be operative a year hence. As these treaties have been in force for over thirty years it is certainly a great compliment to the Canadian Premier to have them denounced so soon after his proposition has been explained. As it is known that Britain's trade with Germany and Belgium is greater than it can possibly be with Canada for some years to come, some surprise was manifested that the treaties should be so soon denounced, but judging by the press the preferential idea is receiving universal approval in England.

STOUFFVILLE WINS FROM MARKHAM.

Quite a number of our townspeople drove over to Stouffville on Saturday to witness the lacrosse match between the Stouffville and Markham teams. A drive of 15 miles seems a long way to go to see a lacrosse match, but lovers of the national game were well paid for their trip on Saturday. As Markham had defeated Stouffville by 8 to 1 about two weeks before, some people expected rather one-sided play, but such was not the case. From the time the ball was faced until the whistle blew at the finish, the play was fast and furious, thus giving the large crowd of spectators an interesting and exciting time. Time and again was the rubber passed from player to player on the same side, from one end of the field to the other, and seldom would it touch the ground until a shot was made on goal. President J. J. Craig refereed the match, and although his position was a trying one he showed himself to be a man of backbone, and kept the play tolerably free from roughness. During the last game he sent two of Stouffville's men to the fence, notwithstanding protests and cat-calls from enthusiastic supporters of the home team. At the close of the match the score was 4 to 2, the Stouffville men winning on their merits. Mr. J. Vance, Secretary of the C. L. A., and Mr. Baker of Toronto, acted as umpires, and gave no cause for complaint. Markham and Stouffville now stand a tie in the York District. The deciding match will probably be played at Rosedale in the near future.
