

NEW DISCOVERY IN AFRICA.

Interesting Facts That Mr. Cavendish Brings from the Lake Rudolf Region.

It was reported about three weeks ago that a young man named H. S. H. Cavendish, who has titled relations, a fortune, and proclivities as a sportsman, had been murdered in Somaliland. The story of the tragedy was spoiled the other day, when Mr. Cavendish turned up in London with an account of his extensive travels in East Africa and the interesting discoveries he had made.

He says he found coal both east and west of Lake Rudolf that burned well, and there was a good deal of it. If his report is accurate, this news is interesting for coal has not been found hitherto in any part of tropical Africa, except for some distance along the Zambesi River.

Most of the region around the two lakes, Stefanie and Rudolf, is pitted with ancient craters and Cavendish found the most remarkable crater that has yet been discovered in the district. The natives call it Sodigo Vo, and it is about a mile and a half wide and 1,300 feet deep.

His predecessors in this lake region were Teleki, Donaldson, Smith and Bottego none of whom have given the world any idea of the country to the west of Lake Rudolf. It may be, however, that the records of the Bottego expedition a part of which were recovered after the massacre of his party will contain information about the west side of the lake, for it is said that Bottego visited that district. Cavendish supplies the first information of that region. He ascended a mountain

5,000 FEET HIGH.

at the north end of Lake Rudolf, from which he had an extensive view of the country to the west. He says it is a mass of mountains, entirely uninhabited, and exceedingly difficult to traverse. He journeyed west of the lake and traced the whole of the west shore, hitherto unexplored on our maps. For a width of about fifty miles it is quite flat, when the land rises suddenly into the mountains. It is subject to very great variations, often flooding the country all around.

Count Teleki found at the south end of Lake Rudolf, the only active volcano then known in Africa. Two years ago, Dr. Donaldson Smith found this volcano still in a state of eruption but Cavendish now reports that it has been shattered by a great convulsion and where it stood there is now a plain of lava. He discovered another lake south of Rudolf in which was a volcano that had also been shattered, killing the fish in the lake, whose bodies covered the shores.

Round the shores of Lake Stefanie the explorer had some excellent sport, and it was here that he was caught by a wounded elephant. "My escape," said Mr. Cavendish, "was nothing less than miraculous. The great beast, mad with rage, was charging me, when, at the critical moment, my gun failed, and I had to run. But the elephant soon caught me, and going on his knees tried to pin me to the ground with his tusks. Failing in this, he caught me with his trunk and flung me round under his body with the idea of crushing me to death. How I escaped I do not know, as I was in this situation for half an hour. At the end of that time the great brute got up, and kicking a piece of wood, which he doubtless took to be my dead body made off to his retreat. Curiously enough, I had no bones broken, but I was covered with blood."

Mr. Cavendish is only 21 years old. He has certainly had some remarkable experiences and has brought home information of value.

A STUDY LAMP.

Guest—What sort of a lamp is that? Host—A study lamp. Guest—Ah! Called that because it is for the study, I presume. Host—No, called that because it takes a great deal of study to run it.

EXTREME NERVOUSNESS

The Case of a Young Lady in Smith's Falls Who Suffered Severely—Given Up By Two Doctors—Dr. Williams' Pink Pills Have Restored Her Health.

From the Smith's Falls News.

Many cases have been reported of how invalids who have suffered for years and whose case had been given up by the attending physician, have been restored to health and vigor through that now world-famed medicine, Dr. Williams' Pink Pills, but we doubt if there is one more startling or more convincing than that of Miss Elizabeth Minshull, who resides with her brother, Mr. Thos. Minshull, of this town, an employee in Frost & Wood's Agricultural Works. The News here of this remarkable case, and meeting Mr. Minshull asked him if the story was correct. He replied: "All I know is that my sister had been given up as incurable by two physicians. She is now well enough to do any kind of housework and can go and come as she pleases, and this change has, it is my honest conviction, been brought about by the use of Dr. Williams' Pink Pills. Mr. Minshull then related the following story to the News:—"My sister is twenty years of age. She came to Canada from England about ten years ago, and resided with a Baptist minister, Rev. Mr. Cody, at Sorel, Que. In April, of 1896, she took ill and gradually grew worse. She was under a local physician's care for over five months. The doctor said that she was suffering from a complication of nervous diseases, and that he could do little for her. The minister with whom she lived then wrote me of my sister's state of health, and I had her come to Smith's Falls, in the hope that a change and rest would do her good. When she arrived here she was in a very weak state and a local physician was called in to see her. He attended her for some time, but with poor results, and finally acknowledged that the case was one which he could do very little for. My sister had by this time become a pitiable object; the slightest noise would disturb her and the slightest exertion almost make her insane. It required someone to be with her at all times, and often after a fit of extreme nervousness she would become unconscious and remain in that state for hours. When I went home I had to take my boots off at the door-step so as not to disturb her. When the doctor told me he could do nothing for her, I consulted with my wife, who had great faith in Dr. Williams' Pink Pills, as she knew of several cases where they had worked wonderful cures, and I concluded it would do no harm to try them anyway, and mentioned the fact to the doctor. The doctor did not oppose their use, but said he thought they might do her good, as they were certainly a good medicine. In September of last year she began to use the Pills, and before two boxes had been used, she began to show signs of improvement. She has continued their use since, and is today a living testimony of the curative power of Dr. Williams' Pink Pills." Mr. Minshull has no hesitation in sounding the praises of a remedy that has worked such a change in the health of his sister and cheerfully gave the "News" the above particulars, and when asked to do so most willingly signed the following declaration:—

Smith's Falls, Sept. 11th, 1897. I hereby make declaration that the statements in above as to the condition of my sister, and the benefit she received from the use of Dr. Williams' Pink Pills are absolutely correct. Thos. Minshull.

A NOVEL IDEA.

Five Hundred Dollars Offered for Testimonials by the Proprietor of Schiller's Sarsaparilla Pills.

To introduce into this country this old and well-tried German Pill, and to obtain Canadian and American testimonials which will greatly aid them in selling this admirable tonic and blood remedy here, K. H. Schiller & Company have determined to give five hundred dollars in cash, divided among the senders of the ten best testimonials received from those who use their Pills. They reserve the right either to give the five hundred dollars to one or two persons, or to divide it amongst the senders of the ten best testimonials.

K. H. Schiller & Company are to be the sole judges of which are the best testimonials, and will award the cash accordingly.

This offer will remain open until the 1st March next. You will not find these Pills in drug stores at present, nor until a demand is created for them; at all events, Schiller does not in the meantime wish to risk the druggist offering you "something just as good" on which he would make four or five times the profit.

Be prompt in sending in, for the testimonials will be considered as they come to hand, but the award will not be made until the 1st March next. The price of the Pills is fifty cents per box, but Schiller & Company requires each person to send for two boxes so that the pills can be given a fair trial.

Get the Pills and try them, and, if you find them good, write Schiller your opinion in as few words as possible, and, if your testimonial is the best of all sent in, you will get the five hundred dollars; if ten others are as good, fifty dollars will be given to each of the ten. Testimonials must not be longer than fifty words and the shorter the better.

Schiller & Company say they have thousands of foreign testimonials, but they want Canadian and American ones, and take this plan of getting them at once, and, of course, they want testimonials only from those who have given the Pills a fair trial.

The Pills are a sovereign remedy for all blood impurities and one box is equal to any dollar bottle of Sarsaparilla. Remit direct to K. H. Schiller & Company, Toronto, Ontario.

AFTER INFORMATION.

JOB COOK MANUFACTURING CO.

GENTLEMEN,—I have personally examined the heads of ten responsible citizens of London, Ont., who have given sworn testimony to the effect that by the use of "Amberine Hair Producer" they have succeeded in growing new hair where they were formerly bald, and I found their statements to be correct. They also speak of it in the highest terms as a cure for dandruff, itching of the scalp and falling out of the hair. Had it not been for my personal investigation, I could not believe such results were possible.

I remain, yours truly, REV. MARTIN LOWRY.
