AURORA Roller Flouring Mills

OUR Aurora Belle Flour

Is made from the 1896 crop of wheat by an improved process of milling, whereby we save for the bread-eater all the natural and original qualities of the wheat. It will produce a lighter, brighter and richer flavored bread, which will keep moist longer than any other flour on the market. By improvements in milling methods, which we have recently adopted, we have lessened the cost of manufacture, hence we are enabled to offer a high-class flour at a price you pay for much inferior stuff.
