

WHAT'S THE TIME?

Clocks and the Sun Do Not Always Agree in Marking the Hour.

There are few questions more frequently put than "What time is it?" "Can you tell me the true time?" A stickler for exactitude might reply: "What kind of time do you mean? Apparent time or mean time? Local time or standard time?" There are all these kinds of time, not to speak of others. It is only within the last two generations, within indeed, the reign of our sovereign, Queen Victoria, that the subject of the differences of most of these kinds of time has become of pressing importance to any but theorists. In one of the public gardens of Paris a little cannon is set up with a burning-glass attached to it in such a manner that the sun itself fires the cannon as it reaches the meridian. This of course, is the time of Paris noon—apparent noon; but it would be exceedingly imprudent of any traveler through Paris, who wished, say, to catch the 1 o'clock express, to set his watch by the gun. For if it happened to be in February he would find when he reached the railway station that the station clock was faster than the gun by nearly a full quarter of an hour, and that his train had gone; whilst towards the end of October or the beginning of November, he would find himself as much too soon. Until machines for accurately measuring time were invented, apparent time—time, that is to say, given by the sun itself, as by a sun dial—was the only time about which men knew or cared. But when reasonably good clocks and watches were made, it was very soon seen that at different times in the year there was a marked difference between the sun dial time and that shown by the clock—the reason being simply that the apparent rate of motion of the sun across the sky was not always quite the same, whilst the movement of the clock was, of course, as regular as it could be made.

BITING THE NAILS.

A simple and very effective way to cure children of the bad habit of biting their nails is to wet the fingers with quassia tea and allow them to dry. When tasted it will be a bitter reminder to cease the practice. If there are no sore places on the finger tips, a very little colocyth powder, which is intensely bitter, may be dusted over them. When however, dipping the finger ends in some bitter tincture fails as it sometimes will, each finger end ought to be incised in a stall until the propensity is eradicated.

THE PRUDENT COURSE.

Upsyde is an exceedingly quick-witted chap.
So?
Yes. For instance, last night, at Jammer's party, he unfortunately stepped on Miss Quickfire's dress and ripped in the neighborhood of three miles of ruffle off it.
I see. He immediately mollified her by some exceedingly witty apology.
Not much! He immediately disappeared.

THE POPE'S SEAL.

The seal worn by the Pope, and used by him on official documents to which his signature is attached, has on it the engraving of a fish, with the cipher of the wearer. Since the thirteenth century every Pope has worn a ring of this character, and it is shattered with a hammer when the wearer dies, to prevent its use on a forged document.

MRS. HUGHES' CASE.

The Lady Writes Another Letter to The Dodds Medicine Co.

Five Doctors and a Specialist Said She Had Rheumatism—They Could Not Help Her—Her Trouble Was Kidney Disease—Cured by Dodds' Kidney Pills.

Morley, Ont.,—Interest in the wonderful recovery of Mrs. T. Hughes is still unabated here, and the case is the principal topic of conversation. Mrs. Hughes has received a letter from The Dodds Medicine Co., Toronto, asking what name her doctors gave her disease. Replying, Mrs. Hughes writes thus:

"In reply to yours of the 7th inst., would say that the doctors said I had Rheumatism. They said that my age, 48 years went against my recovery, that I would be better when I got over the change of life, and that nothing but time would cure me.

"I believe I had kidney and bladder disease. I grew worse and worse daily; could eat nothing but cornstarch or soup, until I began to use Dodds' Kidney Pills. When I was ill I weighed 147 pounds; now I weigh 112 pounds—my normal weight. I beg to state again that Dodds' Kidney Pills saved my life. Anyone wishing further information may write to me, and I'll gladly give it. "Mrs. T. Hughes."

In the face of the emphatic evidence that is coming to light daily, no man can say that Dodds' Kidney Pills won't cure Bright's Disease, Diabetes, Rheumatism, Lumbago, Diseases of Women, and all other Kidney Diseases.

Dodds' Kidney Pills are sold by all druggists at fifty cents a box, six boxes \$2.50, or will be sent, on receipt of price, by The Dodds Medicine Co., Limited, Toronto, Ont.

ZOLA'S MOTTO.

Over Zola's study is the motto, "No day without something accomplished," which rule he has followed all his life. He does not believe in the work that is dashed off, but his method of composition is painstaking in the extreme. When he has to describe a place he always visits it first.

CARNATIONS.
The woman who loves flowers but whose income is such that she can not always gratify her taste will be glad to know that carnations are high in favor. They are the most satisfying flower in existence and are inexpensive enough to be bought frequently. The flaming red carnations are just the things to brighten a dull room. The pink are charming to wear with an evening gown. The shaded carnation is a delight to the eye, and the pure white are cool, restful and refreshing with their spicy odor. Is it any wonder the carnation is fashionable when one adds to its other charms its lasting quality?

A Conscientious Woman.—Norah had been told to say at the front door that her mistress was not at home when certain callers appeared upon the scene. It evidently went much against the grain for her to make herself responsible for even so small a white lie, but she promised to do so, and, with certain modifications, she kept her word. Is Mrs. Blank at home? queries the caller. For this was toime, Mrs. Smithers, she ain't! said the maid; but Hivin help her if yez ask me again! I'll not loit twice for annybody livin', upon me sowl!

Cure Yourself of Rheumatism.
The application of Nerviline—nerve-pain cure—which possesses such marvellous power over all nerve pain, has proved a remarkable success in rheumatism and neuralgia. Nerviline acts on the nerves, soothes them, drives pain out and so gives relief. Try it and be convinced.

AN UNGRATEFUL PATIENT.
The Medical Record tells of a man who was cured of blindness by a surgeon remarkable for his unprepossessing appearance. When vision was fully restored, the patient looked at his benefactor and said: "Lucky for you, young man, I did not see you before you operated, or I would never have given my consent."

Dr. Henry Levers, Quebec, writes:—"One of my children sprained her ankle; which became much swollen and discoloured. Some "Quickcure" was spread on linen, and applied; the pain ceased at once, the swelling was gone the next day, and on the fourth day she walked to school as usual."

IRISH SHIPBUILDERS.
Irish shipbuilders have been benefited by the English engineering strike, as, while the Clyde output showed a falling off last year of 80,000 tons, one Belfast firm turned out 84,000 tons or more than any other individual firm in the three kingdoms.

CHINESE LAUNDRYMEN.
It is said that a good Chinese laundryman can clear \$25 a week, although he pays from \$14 to \$25 a month rent, and sometimes as high as \$40, and hires two or three men at wages ranging from \$6 to \$10 a week. When their very economical habits of living are considered it is probable that they save a large share of their earnings.
