THE AMERICANS FEAR A CLASH WITH AGUINALDO.

Has Proclaimed a Dictatorship and Martial Law Over All the Philippines-His Actions Are Resented by the United

States and Trouble May Result. A despatch from Washington says:-Reassured of the friendly attitude of the Berlin Government by the call upon the President to-day of the German Ambassador to the United States, the Administration's only apprehension of complications in the Philippines arises from the inexplicable conduct of Aguinaldo, the insurgent leader. Although complying with the wishes of Rear-Admiral Dewey in not making an attack upon the city of Manila until the arrival of a large number of American troops, the insurgent leader is apparently making desperate efforts to create conditions in the islands which will necessitate the declaration of their independence by this Government, and, following its example by, the remainder of the nations of the world.

This despatch made public by Secretary Alger on Friday, gives an idea of The Baptist Young People's Union, the situation as wired by Brigadier-General Anderson, the senior officer at Cavite before the arrival of the second expedition :-

GEN. MILES STARTS AGAIN.

THE PORTO RICO EXPEDITION AFLOAT AT LAST.

Preparations For Sending Watson's

Squadron to Spain Proceeding - Blanco's Cable Held by the Enemy.

A despatch from Washington says:-Gen. Miles, leading the military expedition against Porto Rico, started at 3 o'clock on Thursday afternoon from Siboney, Cuba, for the point on the Island of Porto Rico where it is the intention that the troops shall land. It is expected that Gen. Miles will wait at some appointed spot on the route for the expeditions from Tampa, Newport News and New York to fall into his column. These expeditions are all under way, some of them with two or three days' start of Gen. Miles, so that the delay should not be very great. The convoying vessels are the battleship, Massachusetts, protected cruiser Cincinnati, gunboat Annapolis and for vessels of the auxiliary navy, the Gloucester, the Wasp, the Dixie and the Leyden. Secretary Alger believes that Gen. Miles, on the Yale, will arrive at his destination on Sunday morning with 3,000 men under his immediate command. A day later will come 4,000 men on the transports, and the day following 3,500 more. Whether the landing will be deferred until the arrival of this entire force, or whether Gen. Miles will take the initiative and

HOIST THE FLAG.

himself on Porto Rican soil is left to the discretion of that officer. It is the department's determination that he shall not lack for troops or equipment, and this first expedition may be followed by several others, as fast as the troops can be gotten ready, until word comes from the General that he needs splendid body of trained soldiers, sailed from Tampa on Thursday to join Gen. Miles, and if the Porto Rico expedition is not an immediate success it requisite.

Secretary Long said that the preparations for the despatch of the Watson squadron to European waters were going on uninterruptedly, but that its departure necessarily would await the movement of the warships Straw-Very slow. Car lots are at Porto Rico, the Massachusetts and other ships being required for convoying the troops to Porto Rico. This disposed of a report that the expedition the report was the more mischievous at this time, as it indicated a purpose to yield to the implied threats from European sources that a European coalition would result if the American warships attacked the coast of Spain. Neither the State nor Navy Departments look for any embarrassment from Eu-Canton, N.Y., July 26.—To-day 500 ropean quarters, outside of Spain, as the result of the naval movement against the Peninsula.
