The Liberal.

RICHMOND HILL, July 28, 1898

The Mail and Empire sarcastically says: "It is on binder twine where Mr. Fielding shines. He slashed at the duty so as to give the farmer cheap twine, and the price is doubled." The Mail's insinuation is that the price of binder twine has been raised in consequence of the Dominion Government's action in taking off the duty. Nothing could be farther from the truth. The removal of the duty could not possibly raise the price. The rise in the price of twine is not confined to Canada. The United States has the same experience. The rise is in a great measure due to a scarcity of Manila owing to the hostilities in the Philippine Island. Besides this the speculators have been able to corner a large part of the raw material used in the manufacture of twine, but it is plainly to be seen that the cornering would have been easier in this country had the duty been left as heretofore. Farmers know well that the price of binder twine is high, but they are not foolish enough to believe that this has been brought about by the removal of the duty.

The Globe of yesterday contained an editorial which strongly favored the establishment of another sanitarium for consumptives, as proposed by the Canadian Practitioner and the Canadian Medical Review. The article proposes "an elevated site near one of the trolley lines which run out of the city." The promoters to secure "a small farm in some elevated sunny locality as free from fogs and dampness as possible," and to be "within easy access of Toronto. As Richmond Hill would just fill the bill, and is some six hundred feet above Lake Ontario we would not be surprised if the promoters looked up a site in the immediate vicinity. The Arnold farm part of which is inside the corporation would no doubt answer every requirement.

The appointment of the Earl of Minto as the successor of Lord Aberdeen as Governor General of Canada seems to give universal satisfaction. The new appointee is well and favorably known at Ottawa as he spent two or three years at Rideau Hall as Military Secretary to Lord Lansdowne. The Earl of Minto also served in the Riel rebellion in 1885, and took a prominent part in the organization of the Canadian voyageurs who assisted General Gordon in the difficult ascent of the river Nile.

It is to be hoped that the commissioners who are to meet in Quebec to readjust the relations between Great Britain and Canada and United States will be attended with success. The feeling between Canada and the United States is better than it has been for years, and the same may be said of the relations between the mother country and the republic to the south of us. Matters relating to transportation, the coasting laws, the deepening of canals, and perhaps reciprocity in tariffs will likely be taken up at the conference.

The French Ambassador, on behalf of the Government of Spain, and by direction of the Spanish Minister of Foreign Affairs, presented to President McKinley Tuesday afternoon at the White House, Washington, a message from the Spanish Government looking to the termination of the war and the settlement of terms of peace.

The firm of Peterson, Tait & Co. will have to forfeit their deposit of \$10,000 as they do not seem to be able to carry out their contract with the Dominion Government with reference to the fast Atlantic service.

A Little One-Sided.

To the Editor of THE LIBERAL

SIR,—Could you explain how it is that the citizens of Toronto get a bi-weekly excursion rate to Richmond Hill while the citizens of this village and vicinity get the cheap rate but once a week and then at an hour which is practically useless. Surely we are entitled to fully as many concessions as visitors from Toronto and I cannot but think were proper representations made to Mr. Moyes, the manager, he would see the justice of the claim, and grant us the same privileges as Toronto enjoys. They have several cars at different hours twice a week while we have but one at the late hour of 4 o'clock once a week. I said we have a car once a week at 4 p. m. but the travelling public are not sure of that. The excursions from Toronto are advertised regularly, but not a word can be seen in print about the car from this end of the line, and people from the north are continually making inquiries about the rates and hours of running. Why should a person starting from Toronto ride to the Hill and back for twenty-five cents while one starting from here and returning should pay 55 cents, or why should the Toronto traveller be able to ride to the city for twelve and a half cents while a single ticket to Toronto would cost a citizen here thirty-five cents. Have we a council in this village or is the village running itself?

CITIZEN.
[We have always found the Metropolitan management courteous and obliging, and believe that if our citizens have a grievance, Mr. Moyes will remove it if he is given to understand what we want.—ED.]

A Good Suggestion.

To the Editor of THE LIBERAL

SIR,—Some ten years ago there appeared in your paper a number of letters under the heading of Richmond Hill and vicinity, written by Mr. Wm. Harrison. I have often wondered why those letters were not published in book form. Interesting they certainly were, while the information which they contained was most valuable. It seems to me that a large number of the citizens of Richmond Hill ought to be interested in "The Haunted House," "The Mud Buildings," "Our Incorporation," "Our Schools," "The French Refugees," "Our First Newspaper," and about fifty other sketches of early history of the village and its pioneers. These letters contain information, if lost will never be recovered as nearly all the early settlers have passed away. To form an association which might publish sketches in book form would not be a very costly undertaking and you would thus preserve for your libraries and your children a local history which will never lose its interest.

Who will suggest a workable plan to get at this?

Yours etc.,
E. A. JAMES.

At a meeting of the York County Commissioners it was decided not to assist the Village of Markham in building the bridge that crosses the Rouge River southeast of the village. Several years ago the main road leading to Markham was abandoned below the bridge on account of bad natural conditions. The village then ran a new road to the west and established a bridge there. They now want a road to the east as well, but the Commissioners think they should be content with what they have got.
