### FROM AN EXCHANGE.

The minister of a country church was greatly annoyed on Sundays by the women turning around every time anyone came in, and so interrupting the sermon. At last he hit upon a plan for stopping it. The next time he preached he gave out the following notice:—"So that no one need turn around I will call out the name of the person or persons entering the church during my sermon." "Dearly beloved brethren—Farmer Jacobs and wife—the text for to-day will be—Miss Jones—seventh chapter, second verse of—Mrs. Brown and baby—St. John, where it says—Mr. and Mrs. Smith with a new bonnet on"—here he discovered his mistake and was going to correct himself, but it was too late; all the women in the church had turned around.

### Public Meeting.

A meeting in the interests of the Prohibition Plebiscite was held in the Masonic Hall on Monday evening of this week. The hall was comfortably filled, and those present seemed deeply interested with the speeches delivered. Mr. J. A. E. Switzer occupied the chair and made some good introductory remarks, after which he introduced to the audience Rev. W. Frizzell, Presbyterian Minister, Toronto.

Mr. Frizzell upon rising said he agreed with the chairman that every man who had a vote should use it on the 20th inst. If he thought that prohibition would be a good thing for Canada he should vote Yes, but if he thought otherwise he should vote No. The Government desired a fair expression of opinion, and they were entitled to it. This was the first chance ever given to a country as a whole to vote on Prohibition, and men should make good use of their opportunity. Probably it will be the only chance the present voters will ever get. Said the speaker, we do not want a snap vote, we do not want a prohibitory law if it is not well backed up by public opinion. He was not here to say hard things about men in the traffic, what he attacked was the traffic itself. Mr. Frizzell next took up Principal Grant's position on the question showing that the Dr. was not voicing the Presbyterian church which was standing shoulder to shoulder with the Methodist church. The General Assembly has passed a resolution in direct opposition to Dr. Grant's views. Prohibition in Maine was referred to. After a trial of 30 years the people were strongly in favor of the act, and although there were difficulties to contend with the law was on the whole a success. Prohibition in Canada could be more easily enforced than local option, although the U. S. boundary line will require to be closely guarded. The question of revenue he considered a small matter, as although some \$8,000,000 may be lost in one way, \$40,000,000, the annual cost for strong drink, will be saved. Farmers need not be afraid of the cider question, as if prohibition carries they can make and dispose of sweet cider as at present. Spirits will not be interfered with for mechanical, medicinal or sacramental purposes. In conclusion the speaker asked the voters present to consider well before giving encouragement to a traffic that is a fruitful source of misery and crime.

In moving and seconding a vote of thanks to the speaker, which was unanimously carried, Revs. Messrs. Large and McCulloch made short and effective speeches, urging upon all the necessity of doing their duty in the present crisis.

The meeting closed with the benediction.
