One of the most interesting horse races of the season took place at Woodbridge on the last day of the fair. Ed. Jackson's old favorite, Dick French, with Palmer's Kitty R. and Moore's Richard A. close to his heels, trotted a mile in 2.23. This is a emarvellous feat when it is considered that the track is only \frac{1}{3} of a mile.

The brethren of the A. O. F. spent a pleasant time in their room on Tuesday evening. After routine business had been transacted a candidate was initated into the mysteries of Ancient Forestry. Newton of Court Richmond, The brethren afterwards repaired to the dining room in the rear of the hall where an excellent spread was served. An interesting programme followed, Chief Ranger W. J. NORTH YORK TEACHERS.

The annual meeting of the North York Teachers' Association was held in Aurora on Friday and Saturday of last week. Owing to the unfavorable state of the weather the attendance was not so large as usual. The opening exercises on Friday morning were followed by an excellent paper on Composition by Mr. Thompson, principal of Aurora Public School. An able discussion on the subject was led by Mr. A. B. Davidson, in which Mr. Thompson's methods were thoroughly discussed. The afternoon session was opened by roll call, after which the convention had an exhibition of class teaching. The first was Grammar as taught in Aurora Public School by Miss Wilson. Next came Reading as taught in Aurora Public School by Miss Rogers. This was followed by an able dissertation on Kingsley's here. "Three Fishers," from the "artistic side," by Inspector Davidson. Mr. Davidson brought out many fine ideas | last week. in his treatment of this sad, though beautiful production. Kingsley, he said, was a Socialist, and this poem was written with a view to arousing classes. "For men must work and day. women must weep, For there's little to earn, and many to keep, While the harbor bar keeps moaning." An interesting discussion on this poem brought the afternoon session to a attended the funeral of her brother, close. In the evening a concert was Mr. J. Up to the present time we have done partly a credit business. Fortunately the credit part has got down to small dimensions, and now in justice to the cash principle we feel we must make a change. After full consideration we have decided that on and after November 1st next we will strictly enforce the Cash System in connection with our business.

It is needless to call attention to the losses incurred in running a credit business, such as interest, bad debts, &c., as the great majority of people are fully aware of its disadvantages, and recognize the "Cash System" as the correct business principle, beneficial alike to buyer and

Standing as we do directly between the world's producers of our different lines of goods, and the consumers of Richmond Hill and surrounding townships, we realize our position to be one of public service, and hesitate not to declare it to be our ambition to make this service the most efficient to be found in Canada.

This ideal position we feel can only be reached through the "Cash System," with the worry and leaks of the credit system cut off, and the energy heretofore expended in entering, rendering and collecting accounts turned into the channel of wide-awake business management, we believe we will occupy a vantage ground far in advance of our present position.

We have no intention by this action to reflect on any. In obedience to our convictions we adopt a rule of business which we are firmly convinced will be advantageous to our customers, as well as to ourselves, and ask for the hearty ce-operation of all in the mutual interest.
