The Liberal.

RICHMOND HILL, March 2, 1899

When the Ontario Government in 1892 introduced a bill having for its object the taxing of large estates they met with much opposition from their opponents in the house. This opposition continued year after year, the charge being that it was unfair and unjust to take money in this way from men who had been successful in business. A few days ago Hon. Mr. Harcourt in delivering his budget speech gave such a clear explanation and satisfactory account of these Succession Duties it is doubtful if strong opposition will ever again be offered. The Provincial Treasurer was able to show that last year over $200,000 was received by taxing to a small extent the estates of a few men who had died wealthy. Since the Act was passed seven years ago more than $1,000,000 has been collected, every dollar of which has been applied, as the statute directs, to purposes of public charity. This large sum has been received from 435 estates. In this way a large sum is added to the revenue, and the beauty is that only those pay who are well able to pay.

Mr. Andrew Pattullo, M. P. P., for Oxford, has introduced a bill in the Ontario Legislature having for its object the doing away with the ballot in Municipal Councils. The principal clause of the bill reads as follows:—

Whenever a division is taken in a municipal council either upon the appointment of an officer of the corporation, the election of a warden or other presiding officer of the council or upon a by-law, resolution or for any other purpose, each member of the council present voting shall announce his vote upon the question openly and individually in the council, and the clerk shall record the same; and no vote shall be taken by ballot or by any other method of secret voting in any municipal council, and every vote so taken shall be void and of no effect.

TESTIMONIALS

RICHMOND HILL, Jan'y 16th, 1899.

This is to certify that we are using Imperial Oxford Ranges, made by the Gurney Foundry Co., Toronto, and bought from C. Mason, and we believe them to be one of the best ranges made. Burns coal or wood equally well; easy on fuel. For heating, cooking and baking it cannot be beat. It is the best cooking stove we have ever used.
