# History of the Spanish War

By Dr. ALBERT SHAW,  
 Editor of the REVIEW OF REVIEWS,  
 AND A LONG LIST OF NOTABLE CONTRIBUTORS.  
 Over 1,200 Pages and 500 Valuable Illustrations.  
 Three Beautiful Volumes in Half Morocco.

## Our War in Two Hemispheres,

By ALBERT SHAW,  
 Editor of the "American Monthly Review of Reviews" and author of "Municipal Government in Great Britain," etc., and a number of prominent contributors.

EVERY American teacher possessing a library, and many that do not possess one, will be interested in the announcement of the history of the late war with Spain, now published by the REVIEW OF REVIEWS COMPANY. Much of the narrative was written by Dr. Albert Shaw during the actual fighting of the summer. This has been revised and amplified by him in the light of the official reports and documents, which have only become available after hostilities ceased. A free quotation from the critical Congressional debates and other public utterances at crucial periods adds to the work what it is, the standard reference history of this decisive and successful struggle. But it is much more than a history and a comprehensive narrative. It goes back to the years of struggle in Cuba which prepared the way for the war with the Philippines, Cuba, and Porto Rico; and as a whole it forms a broadly conceived picture of the year which has seen America brought face to face with new world duties.

The important special and technical matters of the war period, generally dismissed by the historians with only slight and often insufficient discussion, are fully and minutely dealt with in contributed chapters, written by men who had unusual opportunities for studying their subjects. Thus, the lessons which the war has for us as to the relative efficiency of rifles and machine guns are in a carefully written chapter by Lieut. John F. Parker, of the United States Army; the military movements of the Santiago and Porto Rican campaigns are related by Winston Churchill, who is a graduate of the United States Naval Academy; the actual operations of Cuba before the war and the facts which caused the war are described by eyewitnesses, Murat, Heister and Stephens.

The illustrations of the book is especially valuable in the hundreds of portraits, pictures of the navies, photographed scenes of the war, and the entertaining cartoons reproduced from the Spanish, French, German, and English papers, as well as from the American.

#### How to obtain the handsome edition by a payment of only ONE DOLLAR DOWN.

#### The Invention Of the Age

How to teach yourself to play  
**THE PIANO OR ORGAN**  
 The best method ever invented to teach you how to chord an instrument is without doubt the BRENTON METHOD. In fact it is so simple it teaches you at sight.  
 The wonderful result was obtained by the inventor after years of hard study. It is a very easy matter to-day with this method to play the accompaniments of the most difficult songs, also dance music, marches, etc.  
 The remark is often made by people saying "If I could only play the chords, I would be happy." In this new method you get it all in a nutshell. No knowledge of music is necessary at all to understand this guide.  
 It is also a time and money saver.  
 The Chord is a neat little device, consisting of 29 chords on 15 cards in different keys, put up magnificently with a number of ribbons, always keeping it in a neat and tidy manner. This mispenseable arrangement is called
