THE DEACONESS HOME.

A careful perusal of the Annual Report of the Toronto Deaconess Home and Training school, which has just been published, will convince the reader that a good work is being done in and through that branch of the Methodist church. The Home is situated at 257 Jarvis street, and is controlled by a Board of Management, the superintendent of the institution being Miss Scott who appears to be particularly well adapted for the christian work in which she is engaged. The following items from the Annual Report will show the nature and extent of the work which was prosecuted during the past year: Over 10,000 calls were made and received; 2,697 half-worn and 594 new garments were distributed; 580 families were supplied with food; employment was found for 375 persons; 4,168 hours were spent in nursing the sick; over 400 meetings were addressed; and \$319.58 emergency money was spent. During the past year the home received considerable assistance from kind and thoughtful friends whose generosity will no doubt be an incentive to others who wish to encourage work of a benevolent nature. As much is required for an institution of this kind it might not be out of place to explain that a box of produce sent in from the country would be just as acceptable as its equivalent in money.

If the parties now under arrest at Montreal, charged with plundering from passengers who were on the ill-fated steamer Scotsman, are proven to be guilty they will no doubt receive the penalty they richly deserve. While women and children were drowning in the ocean and crying for help dozens of inhuman sailors and stokers were breaking open trunks, pillaging in all directions and drinking the liquor which was found on board. Valuable articles such as diamond rings, gold watches, all kinds of jewelry, and fine clothing, have been found on the parties arrested at Montreal to the amount of probably \$4,000.

Dairy Town.

Mr. Eli Brillinger, youngest son of Jonathan Brillinger, left for North Bay on Thursday last. He has engaged with Mr. Henry Marsh to work in the lumber woods for the winter. A carpet rag sewing bee was held by Miss Rachel Brillinger last Thursday. Twenty-nine ladies gave a helping hand and by five o'clock the material was all neatly finished up, when all sat down to an excellent tea. It is needless to add that after their arduous labors they did ample justice to the same.
 Mr. Walter Eyer is giving up farming. The place is rented to Mr. J. Brillinger, jr.

The passengers on the Dominion Line S. S. Scotsman which was injured by striking on the strait of Belle Isle, had a sad experience. The first life boat that was lowered sank and ten ladies and one child were drowned. It is said the stokers on the ship acted in a villainous manner.

LADIES' HOME JOURNAL

Three notable series of articles are begun in the October Ladies' Home Journal: "Her Boston Experiences," analyzing Boston society; "The Theatre and its People," covering the whole theme from both sides of the footlights; and the Autobiography of a Girl, her life from sixteen to twenty-six. Through Rudyard Kipling's glasses, "The American Girl" is a charming creature; not perfect, of course, but his analysis is interesting. Two pages are worthily filled with pictures and anecdotes of Admiral Dewey, which give a close view of the personal side of the naval hero of the nineteenth century. The incidents of "The Last Years of Washington's Life" are recorded by William Perrine covering a most interesting period of the great statesman's career. Edward Bok writes of "The Fee of the Doctor," and points out "The South's Literary Chance," and Baron Cheyne details the method of procedure to secure "Positions under Uncle Sam." In "The Candy-Pull System in the Church" Jan Maclaren protests against turning the church into a place of second-class entertainment.

A MILLION FOR A PATENT.

There are many people were so skeptical as to the value of patents that they are ready to condemn any one who applies for a patent as guilty of an act of folly. The following offer made by one of the most prominent and responsible business men in the U. S., should tend to cause the skeptics to seriously consider the subject of the value of patents. President Charles J. Glidden, of the Erie System of Telephone Companies, has offered to pay \$1,000,000 for a telephone repeater which would be as efficient in telephoning as a telegraph repeater is in telegraphing. A telephone repeater is a machine for repeating sound. From the earliest days of the telephone, inventors have sought to make such repeaters, but up to the present time this invention has not been made. As an additional incentive to inventors proposing to compete for this prize, Marion & Marion of Montreal, offer to refund all moneys paid them by any inventor applying through them and winning this prize, and to patent the invention in all desired foreign countries free of charge.

Few Men Original.

Did you ever notice how few people are original in things they say and do? For instance, one man makes a fortune out of a simple thing; immediately hundreds of others try it. This is human nature. While it is gratifying to be the "first man" to bring out an idea, the great mass must be content to follow their leaders. There is one line that is always original, however, and that is the business of Bradley-Garretson Co., Limited, of Brantford, Ont., because they continually bring out publications to suit the times and seasons, thus their agents are kept steadily at it and make big money. In fact, no other occupation is more honorable, healthful, lucrative, or offers half as many opportunities for promotion. It is a life school. Many men and women in Canada to-day testify to the truthfulness of this claim, in fact, it is conceded on all hands, that one year's experience with this firm is worth more to any young man or woman than two or three years at college, from an educational point of view, and financially it is all that can be desired.

AGENTS:—Did you ever think of handling our latest work "The Light of Life"? If not, now is a good time to start. \$3.00 a day sure; some make twice that. Experience or capital unnecessary.
