Change—H. C. Bailey.

The Liberal.

RICHMOND HILL, December 14, 1899

THE WORLD IS TROUBLED.

Mr. W. F. Maclean, member for East York, from time to time addresses the electors of his riding through the columns of his morning newspaper, "The World." He has for some weeks been expressing himself in an unfair way against THE LIBERAL in view of the opinions we hold in regard to the dispute between the City of Toronto and the Metropolitan Railway Company. THE LIBERAL has on several occasions referred editorially to the desirability of having connection between the Metropolitan and the C. P. R., believing that the junction would greatly benefit the County of York as a whole, and for this we are accused of writing for the interests of the Metropolitan Railway. On the 4th inst. The World went so far as to insinuate that the articles in THE LIBERAL bearing on the question had been written by Mr. Moyes, and on Tuesday of this week that paper again sneeringly referred to "The Metropolitan Railway speaking through THE LIBERAL." We would prefer not calling attention to the clumsily-worded editorials in this paper, but in justice to the Metropolitan Railway we feel it our duty to say that the insinuations made were altogether without foundation, as neither Mr. Moyes nor any other person in connection with the company had ever written a line nor even suggested a line for the columns of THE LIBERAL. We are not proud of our composition, but must confess that no paragraph bearing on railway matters had ever been written or dictated by any other person than the editor whose name appears in every paper issued. This being the case it scarcely looks like good manners on the part of the editor of The World to make the insinuation, harmless as it is.

The World is apparently of opinion that the representatives of the company and the outer municipalities along Yonge Street are engaged in a conspiracy to turn Yonge Street into a roadbed for a railway. Some people have been led to believe that the County Council gave the company permission to run steam locomotives on Yonge Street. The least enquiry into the matter would convince them that they are utterly wrong, as no such power has ever been granted.

The World is pleased to attack the Railway Committee of the Privy Council upon the ground that they have joined in a conspiracy to steal Yonge Street from the County and hand it over to the Railway Company. Such a charge as this is not creditable to the party making it when the circumstances of the case are known. The matter of connection with the C. P. R., however, is in the courts, and, speaking from a County standpoint, we hope the request of the County Councillors will be granted.

Reference to the statutes of this Province will show any one that the Metropolitan Co. in using its railway along Yonge Street is absolutely under the control of the County Council in carrying on freight business. The last agreement made with the company so provides, and not only so, but it goes further, and provides that freight rates are to be fixed by the Provincial Government. Had there been no opposition to the proposed connection there is no reason why coal could not now be laid down at every house along Yonge Street at a price very little above the price at which it is delivered on any street in Toronto.

The World publishes an article from last week's Newmarket Era,

bearing on railway matters, and is anxious to know what THE LIBERAL thinks about the Era's views. We agree with the Era that the Metropolitan fares are too high, and have often said so, but we do not agree with The World when that paper says the Government should compel the company to carry passengers at a cent a mile.

It is well known that Mr. Hill, M. P. P. for West York, is in favor of lower rates on trolley lines, as when he was a member of the County Council he expressed himself plainly and vigorously on the subject. There is no reason for thinking that either Hon. E. J. Davis or Mr. John Richardson is in league with the Metropolitan Company, therefore, when legislation governing all electric railways comes before the Legislature, the members for the three Yorks may be trusted to guard the rights of the people. At the same time they will do justice to the railroad men, who have sunk probably more than half a million dollars in the trolley venture.

Few Men Original.

Did you ever notice how few people are original in things they say and do? For instance, one man makes a fortune out of a simple thing; immediately hundreds of others try it. This is human nature. While it is gratifying to be the "first man" to bring out an idea, the great mass must be content to follow their leaders. There is one line that is always original, however, and that is the business of Bradley-Garretson Co., Limited, of Brantford, Ont., because they continually bring out publications to suit the times and seasons, thus their agents are kept steadily at it and make big money. In fact, no other occupation is more honorable, healthful, lucrative, or offers half as many opportunities for promotion. It is a life school. Many men and women in Canada to-day testify to the truthfulness of this claim, in fact, it is conceded on all hands, that one year's experience with this firm is worth more to any young man or woman than two or three years at college, from an educational point of view, and financially it is all that can be desired.

AGENTS:—Did you ever think of handling our latest work "The Light of Life"? If not, now is a good time to start. \$3.00 a day sure; some make twice that. Experience or capital unnecessary.
