The Hospital for Sick Children, Toronto.

A Charitable Institution Caring for Sick and Crippled Children from All Parts of the Province of Ontario.

Group of Six Patients now in the Hospital.—(From a photograph.)

With another year's work added to the twenty-two years of its existence, the Hospital for Sick Children, Toronto, has sent out its report of the good that it has done. In 23 years the Hospital has nursed and treated 3,000 pain-stricken children, which is truly a great record. Last year over 5,000 children were treated in the indoor and outdoor departments. The fame of the Hospital has travelled far indeed, for the little patients are brought to its doors from all parts of the province. Some marvellous cures have been effected by its skillful physicians, while many a little crippled child has recovered the use of deformed limbs under the care of its surgeons. No expense is spared in any single case when there is the least hope of such expenditure proving beneficial.

The better to procure the appliances needed in curing the deformities of many little patients, the Hospital Trustees have this year added a very important department to the Hospital. A building adjoining the large Hospital on College street was purchased, and in it were placed the machinery and material needed for the making of all kinds of appliances needed in different cases of surgery. An expert workman has been secured from New York to superintend the making of these appliances to the exact measurements and designs submitted by the surgeons attending each case.

The results have been eminently satisfactory. Not only is it possible to get these appliances quickly and correctly made for each patient, but the expense has been greatly reduced, and endless savings will be effected. Many of the little patients come from homes where every dollar is needed for every day needs, and where the parents could not possibly afford to supply the braces, supports and orthopedic apparatus, let alone secure the attendance of the eminent surgeons who dedicate their services to the Hospital.

Picture the improvement that must follow to a crippled child piteously suffering from some sad spinal disease, lying perhaps in a dark corner on a hard bed, and attended lovingly but intermittently by a hard-working mother. Picture the improvement in that child's prospects of recovery when taken into the bright atmosphere of a hospital ward, where it will be carefully and tenderly nursed and where every care of modern surgical and medical science will be given it.

It would make one's heart ache to see the surroundings of discomfort where some of these little lives have been slowly ebbing away until word of the Hospital's mercies has brought a promise of health to the child and the pleasures of hope to the parents.

We take pleasure in telling our readers of this noble institution, for who knows but some of the little ones within this district may even now have need of its services! The trustees desire us to announce that the doors of the Hospital are thrown wide open to receive any sick or ailing child under 14 years of age who could be benefited by its

skill. And its services are free to little children whose parents cannot afford the small fee charged. None are refused admission. For this Hospital was founded in 1875 by great-hearted men and women, who saw the need of the special care necessary for sick, destitute and friendless children, little ones who, through misfortune, disease and poverty could not help themselves; though to-day its fame has spread, and many of the Hospital patients come from stately homes as well as humble dwellings. What charity has so great a claim on the sympathies of men, women and children?

The Hospital is one of the largest institutions of its kind in the world. In it there is accommodation for 200 children. To-day there are more than 100 patients in the cot—babies, boys and girls.

In close affiliation with the Hospital is The Lakeside Home for Little Children, the convalescent branch, where all the patients who can be moved are taken to spend the warm summer months. The Lakeside Home was a gift of a Toronto gentleman to the Hospital. It is located on the south-west corner of Toronto Island, and the situation is a breezy and health-giving one.

This great charity is supported by the voluntary contributions of the people of Ontario. The ordinary expenditure last year was over \$35,000. Yet, thanks to the generosity of the public, this expense was met, and \$25,000 was paid off the mortgage, which had been retarding and harassing the work for years.

There is still left a mortgage of \$25,000 and a bank overdraft of \$5,000, or a total debt of \$30,000. If the friends of the Hospital are just a little more liberal this year, that huge indebtedness will be lifted, and the Hospital for Sick Children will swing into the twentieth century free from debt.

The Trustees are making a special Christmas appeal for money to discharge this debt. They know they have the kindly sympathy of every one for a mother charity, which stands erect, with arms outstretched, ready to gather into its embrace the sick and ailing little creatures who are entitled to health the first great need to a fair start on life's journey.

They will be pleased to send a report or any required particulars to any reader of this paper.

All they ask is a dollar from each kind heart—or more if you feel you can spare it.

A donation of \$100 will support a cot in the Hospital for one year.

A donation of \$2,000 will endow a cot for all time.

And \$1 is an appreciable gift. For many dollars will follow yours. "He who gives quickly gives twice."

Through the columns of the Toronto Evening Telegram each donation will be acknowledged, as well as in the Annual Report. J. Ross Robertson, Chairman of the Hospital Trust, Toronto, to whom donations may be sent, will also send written acknowledgment of any donations as soon as received.
