WATCH THE TENS.

It is important that people pay attention to all the \$10 coming into their hands. A circular has just been issued by the Dominion Bank which states that the unsigned \$10 taken from the Napanee Bank, are now being circulated. The bank cautions people in regard to the same, and requests people to try and trace them to the original holders. The stolen series are Nos. 46,001 to 47,000, dated Jan. 2nd, 1898. Look out for these bills. Carry the numbers in your pocket diary.

A SMALL BLAZE.

The village was all astir yesterday morning between 7 and 8 o'clock when the fire alarm sounded. A fire had broken out in the back kitchen of Mr. W. H. Pugsley's double house, occupied by Mr. I. Hoover. The fire seemingly worked through the chimney, and when discovered the shingled roof was all ablaze. The neighbors, both men and women, worked diligently and judiciously, and when the fire engine arrived it was pretty well under control. The loss, which was covered by insurance, will probably be \$50. It was most fortunate that the discovery was made before the fire had made more headway.

READING CIRCLE

Next Monday evening at the Epworth League Reading Circle Mr. Wm. Harrison will talk on "Thomas Cranmer, Latimer and Ridley." That portion of the chapter on John Knox which was unfinished two weeks ago will be discussed the first half-hour. Members will try and remember that the circle meets at 8.35 sharp. A very able address was given last Monday evening by Mr. Ed. Sisley on, "The Citizen and His Politics." An interesting discussion followed making the evening one of the most profitable. A cordial invitation is extended to all to attend the circle next Monday evening in the vestry.

SAFETY IN BUYING SEEDS.

There is no other way to measure the value of seeds than by the value of the crop. A good crop simply cannot come from poor seeds. Second-rate seeds will waste good land, good fertilizer, and good labor, and the crop won't pay expenses. Now, as the practical farmer cannot afford to waste time testing seeds to find out whether they are true to name, sound and clean, it stands to reason that the only safe way to buy seeds is to seek the protection of a name that has stood for reliability in the past. The great seed house of D. M. Ferry & Co., of Windsor, Ont., has sold seeds all over the United States and Canada for the last forty-two years, and the steady growth of the business is a sure indication that Ferry's seeds have given satisfaction. Ferry's Seed Annual for 1900, a standard guide for farmers and gardeners, containing much valuable information, is sent free to persons writing for it.
