

The Cleveland's a love of a Wheel for a Lady.

The Special Ladies' Model is a light wheel—an easy running wheel—a well balanced wheel—a 22 pound wheel—a graceful wheel—see the skeleton gear case—option of a combined coaster and brake at a slight additional cost.

MASSEY-HARRIS LADIES' CHAINLESS

The models are constructed on the most advanced idea of the chainless principle—highest grade in materials and manufacture, and embrace all the improvements which have placed the Massey-Harris in the high favor it merits generally—the ladies' chainless are models of grace and design—they have the safety dress guard—improved handle bar and seat post adjustment—frame construction admits of greatest ease in mounting and dismounting—perfectly equipped. A special feature on chain wheels the combined coaster and brake.

The one piece Crank and Axle in the Welland Vale

Is an important feature and is acknowledged so by most riders. It does away with cotter pins, and overcomes all the difficulties heretofore experienced by loose cranks, prevents accidents and breakage. Study the feature in the popular Canadian mount for 1900.
