The mistake was made in the printing office, and those who have carried Mr. Smith's watches say that they travel just in accordance with arithmetical calculations given in THE LIBERAL last week.

### BE ON TIME.

All intending to take the trip to St. Catharines on Thursday should secure their tickets Wednesday evening to avoid confusion. Remember, the cars will be at Egin Mills at 6 o'clock, and at Richmond Hill at 6.15. Don't be late, as the cars cannot be delayed.

### GIVE US A CHANCE.

Some men who do not always conduct themselves in accordance with strict rules of propriety, occasionally complain when they think that newspapers hint at their unbecoming deportment, even if true. If these people but knew it, they could honestly come to the conclusion that newspaper men would much rather say something complimentary about them than the opposite. Only give us a chance.

### IMPERIALISM.

One of the chiefest topics of discussion among thinking citizens is the rapid development of Imperialism, both in the British Colonies and in the United States. "The Future of Imperialism" is the title of a valuable and well-reasoned article in the July Canadian Magazine by John Lewis who is among the cleverest of Canadian journalists. An illustrated article on the Hull-Ottawa Fire and a Canadian story by W. A. Fraser are two other features of what is an excellent issue of our national publication.

### TO MUNRO PARK.

The Methodist Sabbath school scholars, teachers, officers and friends to number of about 125 held their annual excursion and picnic to Munro Park last Friday. Two cars left here shortly after 8 o'clock, and connecting with the city cars, arrived at the grounds about 10.30. The tables were spread at the proper time and everybody enjoyed the edibles provided. The usual attractions such as merry-go-rounds, Ferris Wheel, Donkeys, &c., were well patronized, and an open air entertainment was given in the afternoon by the entertainment company. The excursionists left the grounds about 7 p. m. and arrived home at about 9 without a mishap of any kind after a most enjoyable day. By utilizing a \$10 balance left over from last year the committee has still a balance on hand after paying all expenses.

### THE IMPERIAL IDEA.

"The Imperial Idea" is the title of a most interesting booklet just published by Colin McArthur & Co., the wall-paper manufacturers of Montreal, for presentation to their customers as a tribute to the spirit of the most unique event in the history of nations, viz., the remarkable response of the colonies to the Mother country when the cable simply whispered that the "whelps of the lion" might gather around if they liked to, and show the world that "Britons the universe over are patriots still." This book bears the evidence of much careful thought and the finished product does credit not only to the brilliant conception of the author, who, we understand, not only planned the pictures but also composed the strong and forceful language of the few brief chapters that place the interesting facts before us in most attractive form; but also to the enterprize of the firm, who at no small expense have produced such a fine art souvenir for distribution to the wall-paper trade.
