The Liberal.

RICHMOND HILL, January 3, 1901

At a recent meeting at the Industrial School at Mimico the superintendent of that institution referred to the alarming increase in the number of cigarette smokers. He stated that notwithstanding the stringest measures passed by the Ontario Legislature it was found that fully 75 per cent. of the boys admitted to the Industrial School were addicted to the injurious practice. The physical development of many boys is stunted by the use of tobacco in this way. Those who sell tobacco and cigarettes should constantly be on their guard so as not to violate the law and render themselves liable to a fine by selling to minors.
