TIT-BITS.

Ho—I always used to over-estimate my abilities. She—Well, never mind, your friends never did.

Rain falls most frequently all over the world between 3 and 8 o'clock in the morning.

12 per cent. of the British army are 5 ft. 10 in. or over in height. The Italian has only 4 per cent.

The French army has 29,000 officers, the Italian 14,000, and the Spanish 23,000.

Charing Cross bridge is the longest of London bridges, being 1,365 ft. Southwark bridge is only 800 ft. long, and Hammersmith 480 ft.

Of Great Britain's total trade 91 per cent. is English, nearly 8 per cent. Scotch, and a very little over 1 per cent. Irish.

British house property grows in value at the rate of 60 millions a year. The average rent of a British house is £21.

In 1812 only 400 English people were assessed at £5,000 a year and upwards. This number has now grown to 4,000.

The Banks of England, Ireland, and Scotland have Royal charters; but only the first two lend money to the Government.

The largest cemetery in the world is at Rockwood, in Australia. It covers 2,000 acres, of which only 200 have been used so far.

23 per cent. of England's population are men capable of bearing arms, 22 per cent. of Ireland's, 24 of Germany's, and 27 of France's.

This is an imposition! Your sign says, Boots repaired while you wait, and here I've been over two hours! Well, Isn't that waiting?

The paper money of the first French Republic became more depreciated than that of any other country ever did. A pair of boots cost \$1,500 in paper, and a pound of butter \$150.

The largest nest in the world is built by the mould bird, a sort of Australian fowl. It makes mounds sometimes 150 ft. in circumference, in which it buries its eggs 5 ft. deep.

In Russia there are only 740 newspapers, one to every 170,000 people. Of these 589 are in Russian, 69 Polish, 41 German, 9 French, 5 Armenian, 2 Hebrew.

Miss Fuzzle—I wish to break my engagement with Mr. Sapple, but I don't know how to do it without driving the poor fellow to suicide. Little Brother—Why don't you let him see you in curl papers, just once.

The quarrel between the newly-wed couple was working up into a regular row, when he said: When you begin to talk nonsense I hold my tongue! But it was too bad for her to say: If I were guided by the same rule—with regard to you—I should never speak at all! Then the battle began again.

CHESLEY CASE COMES UP AGAIN.

JOHN FLETCHER, A FARMER,
CURED OF LUMBAGO BY
DODD'S KIDNEY PILLS.

One of the Thousand Similar Cases in Ontario—A Common Trouble Among Farmers—Dodd's Kidney Pills Invariably Cure It

Chesley, Ont., Aug. 5.—Harvesting is in full swing and the farmers of the section are hard at it early and late. For two steady months they will be working harder than any other class of men in the country.

Probably no period of the year is so trying on the farmer as the harvest season. The management of a farm, never a light task, becomes trebly heavy. Worries increase. The actual manual labor from dawn to dark and sometimes after, is as hard as a man can stand.

It is not surprising that farmers often break down after the threshing is over. "Plum tuckered out," the system is apt to be in a low, weakened condition which is easily thrown out of order. The kidneys will show the sign of it first. Backache will probably be the first sign of the kidney trouble, accompanied by a brick dust sediment in the urine. From this stage it is but a short step to Lumbago, which is chronic Backache.

In this connection the letter of John Fletcher, a farmer near Chesley, will be found useful, showing as it does, that Dodd's Kidney Pills may be relied upon for cases of this kind.

"I have been troubled all harvest," he writes, "with Lumbago and Kidney trouble. My urine was of a very red color. I consulted the best medical doctors in the country but they could not help me. Finally I got some Dodd's Kidney Pills in Granton and they proved all that I could wish. In a very short time my back was as well as ever and the Kidney disorder had completely gone."

NAMES FOR CHILDREN.

In the "Parish Magazine" for Witton Church, Northwich, England, the list of baptisms strikingly demonstrates the rage for giving patriotic names to children. Major-General Baden-Powell seems to be the most popular, one girl being christened Elizabeth Powell Mafeking whilst four boys have received as part of their patronymic Baden. In one instance General Buller has been remembered, Redvers having been added to a Christian name Bertram, Sir Evelyn Wood, General Macdonald, Ian Hamilton, and the late General Gordon are also represented.

The average amount of time which a man loses yearly by illness is ten days.

FROM THE TRAINS.

Passengers Get Glimpses of the Pan-American Exposition.

People travelling from the east and west will come within the zone of the direct influence and spirit of the Pan-American Exposition miles away from the great and glorious spectacle itself. Surrounding the setting of the exposition there are numerous features that will rival the attractions of the great show for public attention, and especially is this true of Niagara Falls. There is no greater or more wonderful eye-feast in the world than the Falls of Niagara, the beautiful gorge, and the dashing tumultuous waters of the Whirlpool Rapids. If they are alert, long before their train stops at Niagara Falls, passengers over the Grand Trunk Railway will come in sight of the mighty observation tower from which searchlight signals will be flashed to the Electric Tower of the Exposition. In fancy one can picture the beam of the powerful projector extending way off toward Hamilton, Ont., to give glad welcome and greeting to the incoming trains laden with humanity anxious to see the falls and the exposition.

Speeding across the wonderful gorge the train will carry its passengers in full view of the Falls of Niagara and the Whirlpool Rapids, while the remarkable gorge will stretch out on either side of the greatest railway steel arch bridge in the world. This bridge of the Grand Trunk Railway at Niagara Falls is one of the wonders of the locality, and resting, as it does, one end in the domain of King Edward, the other in the United States, it forms a portion of the industrial bond in the Anglo-Saxon union that forces a realization that no matter on which side of the Niagara we reside, we are all Americans—Pan-Americans.

SUNSHINE AND SLEEP.

No syrup of poppies, no tincture of opium, no powders of morphine, says one of the medical journals, can compare in sleep-producing power with sunshine. The worst soporific is laudanum and the best is sunshine. Therefore, it is easily understood that poor sleepers should pass as many hours in the sunshine as possible. Many women are martyrs, and do not know it. They shut the sunshine out of their houses, they wear veils, they carry sunshades, they do all that is possible to keep off the subtlest and yet most potent influence which is intended to give them strength and beauty and cheerfulness.

THE TRUANT JUROR'S VERDICT

A judge had been facing a jury for two hours or so, and was just congratulating himself that the case was about over, when he suddenly discovered that but eleven jurors were present.

How is this? he said in surprise. Where is the twelfth man?
Please, sir, replied the foreman, he had to go away on business, but he left his verdict with me.

One can imagine the feelings of the judge, who was obliged to give orders for a re-trial of the case. The evidence had to be gone over again when the truant juror was put back in his place.

THEN THE COURT LAUGHED.

Counsel—I insist on an answer to my question. You have not told me all the conversation. I want to know everything that passed between you and Mr. Jones on the occasion to which you refer.

Reluctant Witness—I've told you everything of any consequence.

You have told me that you said to him: Jones, this case will get into court some day. Now I want to know what he said in reply.

Well, he said, Brown there isn't anything in this business that I'm ashamed of, and if any snoopin', little, yee-havin', four-by-six, gimlet-eyed lawyer, with half a pound of brains and sixteen pounds of jaw, ever wants to know what I've been talking to you about, you can tell him the whole story.

THE SUMMER NOVEL.

Let able-bodied readers choose Historic fiction to peruse—But, these warm days, I've only brain To read of silly Cupid's reign.

The "North Coast Limited"

Train of the Northern Pacific which created such a furor during its first season, in 1900, is again shooting back and forth across the continent in all the glory of its former days.

This Crack Train of the Northwest, almost entirely new for 1901, is the epitome of modern passenger train construction. The Dining Car with its a la carte breakfast and lunch, and table d'hote dinner for \$1.00; the unequaled Tourist Sleeping car of 16 sections, roomy lavatories and electric lights; the first-class Drawing Room Pullman with two electric lights in each section and the palatial Observation car with two smoking rooms, buffet, barber shop, bath, library of 140 volumes, current magazines, ladies' parlor and observation platform, all together form a train of unusual comfort, excellence, and even luxuriousness even in this day of luxuries.

Of course, broad vestibules, steam heat and steel platforms are there, and there are nearly 300 electric lights on the train, the baggage car and day coaches being thus lighted also.

The train runs from St. Paul to Portland, Oregon, passing through Minneapolis, Fargo, Bozeman, Butte, Missoula, Spokane, Seattle and Tacoma.

Connections from Duluth and Superior and for Helena are made en route.

Send to Chas. S. Fee, General Passenger Agent, St. Paul, six cents for Wonderland 1901, a royal book having a chapter on this royal train.

The guinea-pig holds the record for quick growth among animals. It is full grown at 6 weeks.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer one Hundred Dollars for any case that it fails to cure. Send for list of testimonials.
