

JAWSON WAS WRONG.

Jawson, who is an inveterate yarn spinner and a bore of the first magnitude, had been retelling to his friend some harrowing story of a woman whose hair had turned grey in a single night.

"Fact, I assure you; I knew the party."

"If you say you knew the lady in question, I can quite believe your story to be true," commented the friend, in a tone which made the story-teller feel rather uncomfortable.

"Of course I knew her," was the jolly answer; "and it's not such an uncommon occurrence as you seem to imagine. I knew a man also—"

"And his hair turned grey, too?" interrupted the victim. "Well, I don't wonder at it."

This made Jawson a little sulky, but he speedily became interested when his friend remarked:

"Your stories remind me of a lady I used to know, but she became grey in a single hour—in less than an hour, in fact."

"Some terrible shock, I suppose," remarked Jawson.

"I dare say it would be," continued the friend; "at any rate, it happened while she was getting married."

"Oh, I understand," said Jawson, sagely; "the man would have another wife alive; it would all be discovered at the eleventh hour; a terrible scene would ensue, and all that sort of thing."

"You're not within a mile of it, Jawson," was the unfeeling answer. "This lady I refer to married a fellow named Gray, and she, of course, became gray as soon as the knot was tied."

A RAILWAY MAN.

EXTRAORDINARY UNPLEASANT SYMPTOMS OF KIDNEY TROUBLE IN THIS CASE.

Tortured by All Kinds of Pains And Aches He Tries Everything but Fails to Find Relief Till a Friend Advises Him to Use Dodd's Kidney Pills—They Have Made a Well Man of Him and He is Grateful.

Ottawa, Ont., Mar. 31. (Special.—Frank Chartrand, a railway man, whose home is at 130 Little Chaudiere Street, has acknowledged that Dodd's Kidney Pills have done more for him than anything else in the world has ever done. He says:—"I suffered with backache and was always drowsy and had a very heavy feeling in my limbs."

"I had frequent severe headaches, and more times very sharp pains in the top of my head, which gave me much annoyance in my work."

"My fingers would cramp and I would have an uneasiness in my legs and occasional pains in the loins."

"I was dizzy in spells and short of breath. If I ate a hearty meal I would have a pain in my left side. My appetite would sometimes be very good and sometimes I couldn't eat anything."

"I had a constant soreness and tenderness over the spine and tired feeling in the region of my kidneys."

"I suffered quite a little with a dragging heavy feeling across the loins."

"Dodd's Kidney Pills were recommended to me by a friend of mine who had been cured, and I began to use them."

"Almost from the start I began to feel the wonderful improvement, which continued as the treatment proceeded, till the unpleasant symptoms had one by one entirely disappeared."

"Dodd's Kidney Pills have worked a wonderful cure in my case and I cannot speak too highly of this great and good remedy."

"What Dodd's Kidney Pills have done for thousands of others, and they'll do the same for you if you give them a chance."

"There are many railway men in Canada to-day who find Dodd's Kidney Pills indispensable. They are the railway man's surest and best friend."

"The constant vibration on trains and engines is very hard on the kidneys and Dodd's Kidney Pills make these organs well and able to resist disease."

A VERY SMART DOG.

"Speakin' of smart dogs," said Mr. Stretchit, "reminds me of a dog I owned t'other year. That ere dog knowed when it was Sunday, an' went to church reg'lar, an' wouldn't chase a rabbit to save yer life on that day if one went slippin' by right under his nose."

"He was the best rabbit dog in the country, too, an' loved the sport amazingly. He knowed 'God Save the King' from 'Rule Britannia,' an' would keep time with his tail on the floor when I was playin' of 'em on my fiddle."

"That pup would just do anything you told him. I never seed his equal. I was in hopes of teaching him to talk when he met his death."

He had already learned to howl two or three times, an' knowed his alphabet.

"But one mornin' the poor pup was practising a new trick he intended to astonish us with, an' comes to his death very unexpected."

"He was behind the door when it happened. I seed him with my eyes curlin' his tail over his back, an' jumpin' through the curl. In one of his leaps he broke his back an' died."

MORE VALUABLE THINGS LOST.

When the judge makes a joke every one must laugh. This is a matter of course. Sometimes, however, the joke is really funny, as in the following instance:

"During the hearing of a case a man was moving about in the rear of the court, moving chairs and disturbing things generally."

"Young man," the judge said at length, looking at him sternly, "you are making a great deal of noise."

"My lord," was the reply. "The fact is that I have lost my overcoat, and I am endeavoring to find it."

"Well," was the ready comment, "people often lose whole suits in here without making half so much disturbance."

TIME IS NOT MONEY.

A fire insurance agent was endeavoring to persuade a Jew to insure his shop. After a deal of argument on both sides, the canny old Jew said:

"Vell, supposing I insure my shop and it got on fire three years afterwards, how much should I get?"

"The full amount of the policy," responded the agent.

"And thuppothe it got on fire one month after, how much then?"

"Well," replied the agent after a pause, "probably seven years."

YOUTHFUL CURIOSITY.

"Well, if you will excuse me," said the guest, "I think I'll retire," and rising he walked towards the door and awaited the escort of his host.

"Please, may I go with you?" pleadingly exclaimed the boy of the household.

"And why should you want to go with me?" smilingly replied the guest; "aren't you satisfied with your own comfortable bed?"

"Yes," replied the boy, "but I want to go with you 'cause I heard pa say this morning that you expected to retire on \$200,000."

Messrs. C. C. Richards & Co. Gentlemen,—After suffering for seven years with inflammatory rheumatism, so bad that I was eleven months confined to my room, and for two years could not dress myself without help. Your agent gave me a bottle of MINARD'S LINIMENT in May, '97, and asked me to try it, which I did, and was so well pleased with the results I procured more. Five bottles completely cured me and I have had no return of the pain for eighteen months.

The above facts are well-known to everybody in this village and neighborhood.

Yours gratefully, A. DAIRT. St. Timothee, Que., May 16th, 1899.

SHE GOT EVEN.

"What are these things?" asked the customer.

"Pencil erasers," said the shop-girl.

"I don't want anything that will erase a pencil. I want a pencil-mark eraser."

"That's what I meant. These are pencil-mark erasers. Anything else?"

"Yes; I want some lead pencils."

"We haven't any lead pencils. We have some wooden cylinders with graphite inside them. Will they do as well?"

PULP AND PAPER

Canada is Pre-eminently the Greatest Pulp Wood Producing Country in the World.

The prospectus of the Atlantic Pulp and Paper Company, Limited, just issued by the brokers, Messrs. Sutherland & Cameron, Ottawa, contains some interesting reading matter. The mills of the Company will be situated on the Little Cascapedia River, at New Richmond, on the Baie des Chaleurs, where it is proposed to erect a paper mill with a daily capacity of 54 tons, a ground wood pulp mill with a daily capacity of 50 tons and a sulphite pulp mill with a daily capacity of 40 tons. The wood used will be principally spruce, and it is believed that pulp and paper can be more economically manufactured there than at any other place in America. The properties and limits acquired by the company contain about 302 square miles. The company has reports on the property, made by five different rangers, whose reports show that there is sufficient timber to afford a perpetual supply of timber. One of the rangers who has traveled and examined limits in the State of Maine, New Brunswick and Quebec and worked in Wisconsin and Minnesota, says it is the best pulp limit he has ever traveled over.

The water which will be used in the manufacture of paper is pure and clean, the Little Cascapedia River being fed by springs and is suitable for making the finest grades of paper without the expense of filtering.

Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surface.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that can not be cured by Hall's Catarrh Cure. Send for circulars free.
