ANYTHING TO DEFEAT ROSS.

Mr. E. King Dodds, for many years a very prominent Conservative worker in Toronto, and who has always taken the platform in opposition to the Scott Act, the Duncan Act or any other temperance measure, now writes to the papers denouncing Hon. G. W. Ross on the question of prohibition, saying that the premier "played the coward's part in shirking his promises when in a position to make good and prove his sincerity."

Such an expression from a man who has always, and is now denouncing prohibition as a farce, is on a par with satan denouncing sin, and quoting scripture to help his case. Mr. E. King Dodds is built after the model of Mr. W. F. Maclean, M. P. Both these gentlemen are now asking for a change of Government in Ontario, although they are both sour on their own party and their leaders.

The columns of the World prove Mr. Maclean's opinion of Mr. Whitney as a leader, everybody knows how he denounced the Conservative leaders after the general election, and for the benefit of those who would like to know Mr. E. King Dodds's opinion of the same gentlemen we shall quote from his paper, the Canadian Sportsman. On November 16, 1900, directly after the last General election the editor of The Sportsman in most scathing language denounced Hon. Geo. E. Foster, Hon. John Haggart, Sir Hibbert Tupper and other Conservative party leaders, though he did his best to have them elected in that year, 1900, and in 1896, in preference to Sir Wilfred Laurier and the Liberal party. The following is the first paragraph of the two column article referred to:—

"The crushing defeat meted out to the Conservative party through a solid Quebec and almost solid Nova Scotia, supplies a lesson that it would be well for some of its prominent members to take to heart. It is a notorious fact that ever since the conspiracy at Ottawa entered into by seven of the members of the Conservative Government there has been a lack both of unity and enthusiasm in the party ranks. That memorable "bolt," the most disgraceful in political history of this or the mother country, created a feeling of hostility in the minds of the conservatives all over the Dominion against the conspirators, and in my advocacy of Conservative principles prior to the general elections of 1896 I found in every section I visited that Conservative electors resented the treachery to Sir Mackenzie Powell and felt stronger on that question than on the Remedial bill itself."

Mr. E. King Dodds would keep in power men whom he condemned after their "crushing" defeat, and he now calls for a change of Government in this province, because the Premier would not stake his political life on a measure of prohibition which he (Dodds) denounces as a fraud.

PORK PACKING HOUSE.

Everyone is familiar with the history of the wonderful development of the export bacon trade in Canada during the past ten or twelve years. In 1890 our export of bacon, lard, hams, pork, &c., amounted to less than 8,000,000 lbs.; in 1900 it had risen to about 136,000,000 lbs. The Province of Ontario has been the chief exporter, but the time has come when we may expect to see a change in this respect. Much

of Quebec, New Brunswick, Nova Scotia, and Prince Edward Island is admirably adapted to dairying, a branch of farming which is rapidly extending from Montreal, as in Ontario. The dairy districts produce the class of hog, from which the finest Wiltshire bacon is made, and in these districts hogs are put on the market at as low a cost per pound as in any section of Canada. General dairying and hog growing should go together, as neither will reach its highest paying condition without the other. The Eastern and Northern sections of Ontario produce a better class of hog than the corn belt of Western Ontario, or in other words, the section of Ontario which more nearly resembles Quebec and the Maritime Provinces in climate and grain products, produces the best class of bacon. In some respects these provinces are better suited than Ontario for the development of this industry. Land is generally cheaper, pasturage surer, and roots and other crops more easily raised. Two conditions are necessary in order to develop this industry in Quebec and the Eastern Provinces, especially the latter,—an abundance of coarse grains, which by the attention to agriculture can be profitably produced, and the establishment of packing Companies which will fully meet the requirements of the best markets, both at home and abroad.

The World of Friday refers at length to the "crimes" committed by the Ross Government, and calls loudly for a change. The World reasons that no matter how bad the Tories may be the Grits should now be put out of office. These are the words used:—

"If the Conservatives were the biggest rascals unhung; if the Conservatives were the allies of the liquor trade and the allies of evil doers, it would still be incumbent on the honest voter to punish the Ross Government for crimes committed in this province for years past, crimes committed to allow certain politicians to continue in office against the will of the people."

The World's reasoning is that the Ross Government and the Liberal party should be punished no matter what the consequences may be. This would be one way to build up Ontario.
