Grandfather Clocks.

There is quite a charm in the "tick" of a Grandfather Clock. The slow and uniform motion of the pendulum speaks multitudes in regard to its time-keeping qualities. These clocks are excellent time-keepers when in good repair. Perhaps your "Grandfather" is not in good repair. Bring it to me; I'll put it in order, and you will find that the money spent for repairing it was well invested. In case you are not blessed with such an heirloom and would like to get a really first-class Grandfather Clock, leave me your order, and I will construct one for you any pattern you like.

Call and see the fine Chime Clock I have just completed.
