

HE WAS BASHFUL.

Policeman—"Look here, young man, what are you doing? You've been hanging round and looking at that shop for the last half hour, and it looks very suspicious."

Smart Young Man (who has with-in the last few days experienced the joys of fatherhood)—"That's easily explained. My wife asked me to go out and get a feeding-bottle, and I'm just waiting till there's no one in the shop before I go in to get the thing."

Truth does not depend on temperament.

AFTER TYPHOID.

MR. DIXON RECOVERS FROM FEVER BUT TO SUFFER RHEUMATISM.

A Remarkable Case Reported from Rainy River—How a Man Who Was Crippled With Pain Was Completely Restored to Health.

Barwick, Ont., Jan. 5.—(Special)—Mr. William John Dixon, of this place, has had a remarkable experience.

Last summer he was taken down with Typhoid Fever, and was very ill. After he got over it and started to work again Rheumatism set in.

Mr. Dixon thus describes it:—"I had pains in my back, and in my right hip, so bad that I had to use a stick to walk with, and had no comfort in sleeping.

"I could no more than dress and undress myself for nearly two months, and for three or four weeks I was so stiff and sore that I could not lace my right shoe, or put my right leg on my left knee.

"A brother of mine advised me to try Dodd's Kidney Pills, and after taking three boxes I began to walk around and do my work, and lace up my shoes.

"Now I am as well as ever, and have not a pain or ache left.

"I used in all six boxes of Dodd's Kidney Pills, and I can heartily recommend them as a cure for Rheumatism."

The above statement by Mr. Dixon can be vouched for by many of his friends and neighbors, who are all enthusiastic in their praise of Dodd's Kidney Pills for their wonderful cure of Mr. Dixon's case.

Dodd's Kidney Pills have an unbroken record of over a dozen years as a successful remedy for Rheumatism. They have been used in the most severe and long standing cases and failure has yet to be recorded.

In no matter what form this disease appears it is always a symptom of deranged kidneys. Dodd's Kidney Pills cure the kidneys. Well kidneys extract the Uric Acid from the blood. Without Uric Acid there can be no Rheumatism.

Mrs. Naggs (after visiting Mrs. Nexdore) — "Mr. Nexdore's salary is more than \$5,000 a year." Mr. Fagg—"Indeed!" "Yes, and I'd just like to know why I shouldn't be able to say the same of you." "Simply because you're more truthful than our neighbors, my dear."

There are plenty of people who have become depressed and discouraged because that dry, hacking cough hangs to them continually. They have taken much medicine, mostly of the advertised quack sort, nothing like Dr. August Koenig's Hamburg Breast Tea, the discovery of a then noted German physician 60 years ago. We do not say that this will cure a case where the lungs are badly diseased, for it will not, and up to this date, there is nothing that will cure under these conditions; but on the other hand, if the lungs are not hard hit, the patient should take Dr. August Koenig's Hamburg Breast Tea, a cup full every night on going to bed, have it hot, drink slowly, then every other night, rub the throat and top portion of the lungs with St. Jacobs Oil, cover with oil silk, let it remain an hour, then remove. Eat good, plain, nourishing food, live in the open air as much as possible. By all means sleep as near out of doors as possible, that is, windows wide open, except in the very severe weather. Take a cold sponge bath every morning; then immediately rub the body vigorously with a coarse towel. Take Dr. August Koenig's Hamburg Drops every other day according to directions. One can buy the three remedies for \$1.25 of any reliable druggist. Begin the treatment at once, and see how much better you will be almost within a week's time.

The fire policy on a lady's house—a big one—was brought to her by the agent. "There it is, madam," he said, "the premium is one hundred dollars." "Oh, how unfortunate!" cried the property owner. "My bank account is a little low. Tell the company to let it stand, and deduct it from what they owe me when the house is burnt down."

Every Woman Should Know.

That Prof. W. Hodgson Ellis, Official Analyst to the Dominion Government, has recently made a number of analyses of soaps, and reports that "Sunlight Soap contains that high percentage of oils or fats necessary to a good laundry soap."

What every woman does not know is that in common soaps she frequently pays for adulterations at the price of oils and fats. Try Sunlight Soap—Octagon Bar—next wash day, and you will see that Prof. Ellis is right. He should know. 206

WHAT A MAN DOES.

A man may be cool as an icicle under extraordinary circumstances of danger or excitement; he may preserve an even mind when a ghost comes into his room at midnight; he may assume command and act nobly and well when the ship is sinking; but let that man, let any man, upset his inkstand, and he springs to his feet, makes a desperate grasp for the inkstand, and knocks it halfway across the table, claws after papers, and swoops them through the sable puddle to save them, tears his white silk handkerchief from his pocket and mops up the ink with it, and after he has smeared the table, his hands, and his trousers with ink, as far as it could be made to go, discovers that early in the engagement he knocked the inkstand clear off the table, and it has been draining its life ink away all that time in the center of the only light figure in the pattern in the carpet. Then he wonders why a man always makes a fool of himself when he upsets a bottle of ink. He doesn't know why. Nobody knows why. But every time it is so. If you don't believe it, try it.

HER BLESSING.

There is always a possibility that the person whom we regard as a proper object for sympathy may look upon himself in another light. This interesting and instructive surprise often awaits the well-meaning bearer of condolence.

When Mrs. Hastings learned that her old friend, Mrs. Warren, had become "stun deaf," she went, with a long face, to see her.

"It must be an awful cross, Lavinia," she wrote, on the slate which Mrs. Warren presented to her as soon as she was seated.

"Tain't, either!" snapped the afflicted one, who, though deaf, was by no means dumb. "Folks that have got anything to say can write it on that slate. And Henry Warren, that's had to put a curb on his tongue for upwards of thirty years on account of the high temper he took from his mother's folks, is now able to say anything he likes and no feelings hurt. I count my deafness a real blessing. How's your rheumatism?"

"The French are awfully stupid." "Why, I always heard they were so clever." "Well, they aren't. I was the best French scholar in our class; and yet when I went to Paris they couldn't understand a word I said."

"I'm sorry," said the country shopkeeper, "those are two articles we don't keep; but the oysters, I think, you will find at the post-office, and the onions you can get across the way, at the barber's."

HIS OPPORTUNITY.

Mrs. Henpeck — "To-morrow will be the fifteenth anniversary of our marriage."

Henpeck — "You needn't taunt me with it."

Mistress (reprovingly) — "Bridget, breakfast is very late this morning. I noticed last night that you had company in the kitchen, and it was nearly twelve o'clock when you went to bed." Bridget — "It was, ma'am. I know you was awake, for I heard ye movin' about; an' I said to meself ye'd need sleep this mornin', an' I wouldn't disturb ye wid an early breakfast, ma'am."

A PROMINENT FARMER.

Many farmers, especially those who have attended the Agricultural Colleges, are familiar with the name, John Fixter.

Mr. Fixter is foreman of the Dominion Experimental Farm at Ottawa.

He has been enjoying a diversion from his regular duties of late, inspecting the 4,000 harrows made by Massey-Harris Co., Limited, for the British Government for use in South Africa.

Mr. Fixter says that he has personally marked each Harrow with the Government stamp.

The whole shipment of 4,000 was made within one month of the date the order was received, which reflects much credit on Massey-Harris Company and Canadians generally.

The Harrows were made in the Brantford Factory of Massey-Harris Company. Some idea of the capacity of this plant may be gathered when it is known that this big order was filled while the regular work of supplying implements of various kinds for the world's best farmers was still in progress.

Speaking of the world's best farmers, it is astonishing that this company should have gathered together such an enviable list of patrons in almost all quarters of the globe.

The fame of the Massey-Harris implements extends among the farming community of the entire world.

The only conclusion we can draw is that the business has been built up on honest methods—the company has given its patrons, the farmers, good value for their money, and dealt honestly and fairly with them at all times.

Love's labor for the lost is never lost.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease and therefore requires constitutional treatment. Dr. Sproule's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address, F. J.
