That the clerk write Chas. McArthur re removing of fence to the proper line.

That M. McCallum, assessor, be paid the sum of \$50 on account.

That the clerk reports to David Lloyd, clerk of Newmarket, that this council declines to pass a by-law regarding a deed or lease of water power on the Severn River, to raise the water of Lake Simcoe, as this council claims it would damage some of the lands of this township.

That the salary of the clerk be increased from \$300 to \$350 per annum, advance in salary to commence July 1st, 1903.

That the time of Zenas Black, assessor, be extended for making his return ten days.

That the resolution paying the sum of \$1 to any person destroying any sheep worrying dog, be and is hereby rescinded.

That this council cannot entertain the proposition of the G. T. R. in establishing alarm bells at King City crossing on the terms proposed.

The Reeve, the Treasurer and Councillor Phillips were appointed a committee to invest school funds in first-class debentures.

The clerk was instructed to endorse the resolution of the council of St. Mary's by inserting 3 inch instead of 5 inch as sufficient for the aforesaid purposes.

On motion of R. W. Phillips council adjourned to meet at the Temperance Hall, Kettleby, on the 20th day of May, as a Court of Revision of the Assessment Roll of the township for the year 1903.

The Gamey Inquiry

The interest in the bribery investigation increased this week when the accused Minister, Hon. J. R. Stratton, stepped into the witness box. Mr. Stratton gave an absolute and emphatic denial to Mr. Gamey's story.

He swore positively that he never gave Sullivan, or Gamey, or any person for Gamey, \$3,000, or any sum whatever. He did not authorize Frank Sullivan, or any one else, to treat with Gamey. He saw the member from Manitoulin only once in September, and never had confidence in him. No appointments were made on Mr. Gamey's investigation.

Mr. John F. Gagin, a Mennonite minister of Long Bay, was the first witness on Monday. He affirmed that he had talked to Mr. Gamey about politics, and the latter said about the time that he gave The Globe an interview that he was still a Conservative, but would support any measure of the Ross Government that would benefit Manitoulin.

Mr. Johnston put in a letter, dated Feb'y 10, written by Mr. Gamey to The Manitoulin Expositor, in which he says he has not gone over to the other party fully by any means, but was working for his country rather than for his party.

Hon. Mr. Stratton said he had nothing to do with the Manitoulin protest.

In June he left the matter of protests in the hands of Mr. Grant. He never employed Jones or Sullivan, or any one else to approach Gamey. He did not know how Gamey came to see him.

Before Gamey came to see him on the 9th of September he heard by rumor that Gamey was going to support the Government. He met Capt. Sullivan, on one occasion, casually, at the "Soo," and had not met him since.

He met Frank Sullivan in the same way. The first he heard of Gamey was when Frank Sullivan introduced him on the 9th of September. They spoke a few minutes about the crops, etc., and Gamey said the policy of the Government was approved by the people of Manitoulin. Gamey intimated that he purposed supporting the Government, and suggested on this account that the protest against him should be dropped. Mr. Stratton referred him to Mr. Aylesworth and Mr. Grant.

Mr. Gamey asked about patronage, and he was told that if he supported the Government he would get the same consideration as any other Government supporter. Mr. Aylesworth suggested that Gamey should write a letter declaring his intention to support the Government. On Sept.

10 Gamey or Sullivan was not in his (Stratton's) office or room. Neither were either of them in his office on the 11th of September.

The commissioners announced Tuesday morning that they had decided for the present to refuse the request of Mr. Blake for the prosecution to inquire into a general campaign fund;

that all other evidence should first be taken; that then if it might appear pertinent the commissioners might inquire during the period reasonably relevant to the inquiry, namely, between August, 1902, and March, 1903; that they would in such case conduct the inquiry in secret. Mr. Stratton was in the witness-box for over 7 hours.

The evidence was practically finished yesterday, and the commission adjourned till next Tuesday, when, after a few matters are disposed of, Mr. Blake will begin the argument for the prosecution. The commissioners may again call Mr. Gamey. Mr. Conner, M. P. P. was the principal witness yesterday.

who it is?"
The mother knows the touch of the soft hands too well to need to guess, and for the moment she enters into the playful spirit of the child and forgets her toil and weariness. Then a sudden movement sends a thrill of pain through her and she realizes that though love may lighten labor it cannot pain.

Thousands of women who have suffered from backache, headache, and other consequences of womanly disease, have been made well women by the use of Dr. Pierce's Favorite Prescription. It establishes regularity, dries unhealthy drains, heals inflammation and ulceration and cures female weakness.

"I cannot say enough in praise of Dr. Pierce's Favorite Prescription as it has done me so much good," writes Mrs. Henry Harrell, of Tarboro, N.C., Box 109. "I was swollen so I could hardly walk when I began taking the 'Favorite Prescription.' I also had uterine trouble and could neither eat nor sleep on account of the machine. Tried four different doctors and they all failed to do me any good, so one of my friends recommended your 'Favorite Prescription' to me and I took only three bottles and am now well and hearty. Can do almost any kind of work."

A Practical

Kniede

Of Watch-making enables us to choose the best design and well-constructed movements, which will keep first-class time and wear a life time. Unless we understand the underlying principles in the science of horology, it is impossible to know a good time-piece from a useless one.

Ever since I commenced buying watches I have made it a point to guard against buying watches which were not constructed true to mechanical principles. The result is I have been undersold almost everywhere. It takes a man with considerable "backbone" to say no and lose money by it when offered a low grade of watches at a snap. It is quality I'm after, not snaps. The watches I sell are made by the best makers in America.

It will be to your benefit to look over my stock when in need of one.
