

MODERN ANTIQUITIES.

Thriving Factory of Egyptian Mummies in Paris.

The quest for things antique has led to systematic forgery and imitation on the part of dealers. Paris is the great centre of this deceitful industry. There has been discovered in the suburbs a thriving factory for the fabrication of Egyptian mummies, cases and all. These are shipped to Egypt, and in due time return as properly antiquated discoveries.

A funny story is now current about a collector of medieval things. A certain clever workman in stone made to the order of a dealer in medieval antiquities a Venetian chimney-piece of the fifteenth century, and received for his work some two or three thousand francs. The dealer shipped the chimney-piece to Italy, and had it set up in a palace near Venice, bringing back to Paris photographs of the palace and of the chimney-piece in situ. By means of these photographs he aroused the interest of a rich collector, who sent his secretary to Venice to make sure that the photographs did not lie, and on his favorable report, bought the thing for fifty thousand francs. On the arrival of the article at his house in Paris, he sent for some workmen to open the cases. One of them appeared to him to go about the work rather carelessly, and he remonstrated with the man, who answered, "Have no fear, sir. I know just how it needs to be opened, for I packed it when it left Paris."

GRANTON MAN SPEAKS OUT

TO LET THE PUBLIC KNOW DODD'S KIDNEY PILLS CURED HIM.

John Fletcher Had Lumbago and Kidney Disease and Could Get No Relief Till He Tried the Great Kidney Remedy.

Granton, Ont., Aug. 31 (Special).—I am glad to let the public know that Dodd's Kidney Pills cured me of Lumbago, and I am now perfectly sound.

These are the words of John Fletcher, a well-known resident of this village, and similar tributes to the great Canadian Kidney remedy can be heard on every side.

"I had been troubled for a year with Lumbago and Kidney troubles," Mr. Fletcher continued, when asked for particulars. "My urine was of a very bad color and I could get nothing to help me. I consulted the best doctors in Granton and St. Mary's, but got no relief. Finally I bought a box of Dodd's Kidney Pills and commenced taking them. They helped me almost from the first, and I was soon completely cured.

It is cures of this kind that have given Dodd's Kidney Pills their popularity. You can't find a neighborhood in Canada where Dodd's Kidney Pills are not known by their cures. If the disease is of the Kidneys or from the Kidneys, Dodd's Kidney Pills never fail to cure it.

Mrs. Hickes—"What a pretty blonde Miss King-Chester is! But she's an anomaly to me. I know the family well. All the Kings were brunettes, and the Chesters were all dark, too. Where can she get her light hair from?" Miss Wickes—"From Paris."

Mrs. Long (who recommended a servant)—"Yes, she was an excellent girl in every way, except she would imitate me in dress, and things like that."

Miss Short—"Ah, yes. I noticed she began doing it when she came to me; but she's given it up now."

Mrs. Long—"I'm glad to hear it. I expect she saw she was making herself ridiculous."

AN UNHAPPY WOMAN.

"Mary Queen of Scots was a most unhappy woman, wasn't she?" inquired a thin man of a friend in the train the other day.

"Indeed she was," replied the other earnestly.

"Queen Elizabeth was also far from happy, wasn't she?"

"Very much so, I should say, if history is to be believed."

"Then there was Catherine—"

"What on earth are you driving at, may I ask?" broke in the man who was being regaled with the names of the unhappy women of history.

"I was just about to remark," continued the thin man, "that the name of the unhappiest woman in the world does not appear in history. Now, I've got a sister-in-law named Martha Tabbs, and just at present she is the most wretched woman on the face of the earth."

"What's the matter with her—lost money?"

"No—"

"Ill, maybe?" broke in the other.

"No; but, you see, last week her husband bought her a two-guinea hat—"

"And I suppose the two-guinea hat made her more unhappy than Mary Queen of Scots was when she discovered that her neighbor had one costing five?"

"That was not it at all. She was as happy as a skylark in a June meadow until she tripped and fell going up some steps and sprained her ankle. She is now lying in bed, unable to wear the hat, and by the time she can wear it it will probably be out of fashion. I tell you it is sad to watch her looking tearfully at that hat, which hangs on a peg near her bed. Talk about the unhappy women of history! Why, she is more unhappy than any ten of them put together.

Maud—"How is Mr. Blushman getting along? Has he proposed yet?" Edith—"No, but he is improving. The first night he called he held the album in his hands all the evening; the second night he had my pug dog in his arms; and last night he held Willie on his lap for an hour. I have hopes."

Young Wife (dreamily)—"How lovely it would be if all things in this world would work in harmony." Husband (thoughtfully)—"Oh, yes! For instance, if the price of coal would only go up and down with the thermometer."

THE BANNER ROUTE.

There is nothing more assuring to the traveler than his knowledge of the fact that he is traveling on a firm roadbed, upon which is laid the heaviest of steel rails, made true in all their curves, and that the train which carries him is of the highest standard of excellence known to railroads and is being guided to its destination by experienced minds. These are the conditions which become apparent to the frequent traveler on The Wabash Line, and which have made that line justly famous. The Wabash has its own rails direct to the World's Fair Grounds in Saint Louis. All Wabash through trains stop at World's Fair Station (Forsyth) in order to give passengers an opportunity to view from the trains the World's Fair Buildings. J. Richardson, Dist. Pass. Hon the day I took the mutton hoff the 'ook they 'ad nothing to heat. They was starvin'."

CURE FOR RHEUMATISM.

Dr. Perc, of Marburg, Germany, is a great believer in the healing properties of bee stings in cases of rheumatism of the joints and muscles. Dr. Perc allows his patients to be stung at first by a few bees, and then gradually increases the number. The stings are inserted near the joint of the muscles affected. In one sitting he allows seventy bees to sting the patient. He described the case of a woman who suffered excruciating tortures from rheumatism. In the course of her cure she was stung 6,952 times, and this resulted in a complete cure. Dr. Perc claims that every organism is made immune from bee poison and also immune from rheumatism.
