**The Liberal.**

RICHMOND HILL, September 10, 1903

It would be well if people in general would profit by the example recently set them by the late Duke of Westminster and Lord Salisbury, a former Prime Minister of England. Each of those gentlemen gave instructions that his funeral expenses were to be kept low, and in each case his request was respected. Lord Salisbury stipulated that his burial expenses were not to exceed \$100, and as a matter of fact they were only \$70. The expenses in connection with the funeral of the Duke of Westminster were only \$35. It is a common occurrence for many people who cannot afford it to go into debt in the interment of relatives. The above gentlemen evidently saw the folly of extravagance at such a time, and no doubt took the stand they did hoping that others might benefit by their example.

Within the last few years the consumption of chickens has increased in Canada; the price realized for plump chickens has advanced. Both the increase in consumption and the advance in price are due to the business of crate fattening chickens. The chickens that realize the highest market price to-day are chickens that are fattened and prepared for market in accordance with the directions issued by the Dominion Department of Agriculture. Chickens from the Ontario and Quebec Illustration Stations were sold a few days ago to Mr. Henry Gatehouse for 12 cts. per pound live weight; and to the Canadian Produce Co., Toronto, Ont., for 11 cts. per pound, live weight. These are profitable prices that can be obtained by any farmer shipping the same quality of chickens to Montreal or Toronto.
