CATTLE MARKET.

Toronto, Sept. 15.—Business in cattle of all descriptions at the Western Market showed a decided improvement to-day, and prices were firm all through the list. The feature was the increased offerings of exporters', more being sold to-day than for some time past.

A continued shortness in the supply of good and choice butchers' cattle was reported, and the prices of these descriptions were strong, without a quotable advance. Medium grades were steady in tone, and met with some enquiry. The active demand for feeders and stockers previously reported continued, and quite a number of transactions were recorded in this class. The prices, however, were no higher than before. The better class of milch cows were wanted and sold quickly, but the cheaper kinds were quiet in tone, and did not bring as comparatively good prices as the others.

The arrivals of sheep and lambs were fairly large, and as the enquiry in these continued brisk, selling was carried on with satisfaction to both buyers and sellers. The prices of lambs kept firm.

The arrivals were 67 cars, containing 906 cattle, 1,687 sheep and lambs, 1,298 hogs, and 13 calves.

The demand for exporters was brisk, and the range of quotations was \$4.40 to \$4.75 per cwt.

The feeling in butchers' was strong. The quotations follow:—Picked lots, \$4.20 to \$4.40, with 5c and 10c extra paid in a few individual cases; loads of good, \$3.60 to \$4.15; common to fair, \$3.15 to \$3.50; rough, \$2.50 to \$3.10; canners, \$2 up.

Trade in feeders was good. We quote:—Feeders, 1,000 to 1,100 lbs., \$4 to \$4.25; those of 850 to 1,000 lbs., \$3.60 to \$3.85; stockers, 600 to 800 lbs., \$3 to \$3.35; stock calves, 400 to 600 lbs., \$2.50 to \$2.75 per cwt.

The values of sheep were steadily maintained and lambs continued strong in price, and although the run was large, business was over early in the day. We quote:—Export ewes, \$3.40 to \$3.50; export bucks, \$2.50 to \$2.75; lambs, 3½ to 4½c, and \$2.50 to \$3.75 each.

The market for calves was steady at 4½ to 5½c per lb.

Milch cows and springers sold all the way between \$30 to \$52 each.

Hogs were weak and unchanged at \$6.25 for selects, 160 to 200 lbs.; and \$6 for fats and lights.

GOOD SETTLERS.

West Being Peopled by Superior Farming Class.

A Winnipeg despatch says: The last homestead records for August are now at hand at the Winnipeg office, and their summaries contain valuable statistics in presenting lucid information on the settlement of the Canadian West. A particularly prominent fact is the movement of the Teutonic peoples, the very best of settlers, from the Western States. Not a few English and Canadians are returning to British domains from the American farming lands, where high values destroy so much profit in wheat raising. Another feature still more prominent last month than ordinary is the class of settlers locating in the West. Practically all are farmers.

CANADA'S WEALTH.

Sir Robert Giffen Estimates it at \$1,300,000,000.

A London despatch says: Sir Robert Giffen, reading a paper before the British Association on the wealth of the Empire, and how it should be used, gives Canada's aggregate income as £270,000,000. Australia's as £210,000,000, Canada's capital or wealth as £1,300,000,000, Australia's as £1,100,000,000.

GIFFEN TALKED FIGURES.

Placed Canada's Wealth at Over a Billion Pounds.

A London despatch says: Sir Robert Giffen, reading a paper before the British Association on the wealth of the Empire and how it should be used, gives Canada's aggregate income as £270,000,000. Australia's as £210,000,000, Canada's capital, or wealth, as £1,300,000,000, Australia's as £1,100,000,000.

LET US GIVE THANKS.

Thanksgiving Proclamation Issued at Ottawa.

An Ottawa despatch says: The Canada Gazette proclaims Thanksgiving Day in these terms:

"Edward the Seventh, by the grace of God, of the United Kingdom of Great Britain and Ireland and of the British dominions beyond the seas, King, defender of the faith, Emperor of India.

"To all whom these presents shall come or whom the same may in any wise concern, greeting;

"Whereas it has pleased Almighty God, in His great goodness, to vouchsafe this year unto our Dominion of Canada a bountiful harvest and other blessings.

"We, therefore, considering that these blessings enjoyed by our people throughout the said Dominion do call for a solemn and public acknowledgement, have thought fit by and with the advice of our Privy Council for Canada, to appoint, and we do appoint, Thursday, the 15th day of October next, as the day of general thanksgiving to Almighty God for the bountiful harvest and other blessings with which Canada has been favored this year, and we do invite all our loving subjects throughout Canada to observe the said day as a day of general thanksgiving."

WAR CLOUD LIFTS.

Japan Believes Russia Will Evacuate Manchuria.

A London despatch says: The Japanese Legation here sees in the Russian concessions regarding Manchuria the lifting of the war cloud in the Far East. No confirmation has been received of the London Times' Pekin despatch, saying that the Russian Minister there, in his note to the Chinese Foreign Office, engaging that New Chwang and Moukden shall be evacuated by the Russians on October 6, undertook that China shall be permitted to resume administrative rights in the three provinces of Manchuria, under certain conditions, but the report is regarded as well founded. The Japanese Legation says:—

"Three events, if the reports are correct, have occurred which are calculated to simplify the situation, namely:—The Russian terms, which M. Lessar has apparently presented, mark the abandonment of the proposals which the powers found objectionable; Russia has announced her withdrawal from Manchuria next month, and we believe she is sincere, and negotiations are progressing between Japan and Russia for a definition of their respective rights in Manchuria and Corea. These are secret, and it is impossible to fortell the outcome, but we are hopeful that the results will be satisfactory to both Governments."

ENORMOUS SOO TRAFFIC.

Greatest on Record During the Past Month.

According to the latest marine reports from the Soo the record of traffic during the past month was the greatest on record through the Canadian and American canals at that point. The freight tonnage to pass through for August was 5,403,808 net tons. Of this freight 4,241,683 tons were east-bound and 1,162,125 west-bound, the number of vessels passing through being 2,909. The principal items of commerce were grain 5,557,072 bushels; iron ore, 3,789,032 tons; flour, 647,880 barrels; coal, 1,053,038 tons. The same report says to date 22,628,170 tons of freight passed through the Soo canal, an increase of 628,170 tons over last year for the same time.

GRAIN RATES REDUCED.

One Cent a Bushel Cut by American Railways.

A New York despatch says: At a meeting of the traffic managers of the trunk lines on Wednesday a reduction of one cent a bushel on grain from Buffalo to New York was authorized, to take effect September 16th. This will bring the rate down to 4 cents for wheat, 3½c for corn, 3 cents for oats, and 3½c for barley. The reduction is the result of protests by New York grain merchants against high rates current to this port, which were, it was claimed, forcing the bulk of grain exports through Gulf ports and Canada. The reductions were largely in the nature of a compromise, and will expire October 15th. The new rates apply to Boston and Philadelphia as well as New York. Baltimore has differential of four mills.

KEEP FINNS FROM CANADA.

Denmark Will Try to Divert Their Emigration.

A London despatch says:—The Danish authorities propose to divert the stream of Finlander emigrants from Canada to Iceland, where they will keep their national peculiarities without being absorbed into the greater nation. Iceland offers favorable conditions for agriculture trade.

Premier Combes of France was received with a show of hostility while unveiling a monument on Saturday to Ernest Renau at the latter's birthplace.

CONFLICT INEVITABLE.

Bulgaria Has Decided to Mobilize Her Army.

A despatch from Sofia to the Secolo, in Milan, says that in view of the present trouble with Turkey, Bulgaria has decided to mobilize her entire army at once.

The official and press reports from the near East emphasize the seriousness of the situation there, and confirm the belief of the authorities here that owing to the general irritation throughout European and Asiatic Turkey toward the Christians, as a result of the Macedonian revolt, the Sultan may be swept by the uncontrollable sentiments of the Ottoman subjects into a war with Bulgaria.

In spite of the unwillingness of the Porte to precipitate such a conflict. The Turkish officials express gratification at the Russian-Austrian proposal for coercive diplomatic action on the part of the powers at Sofia. They are confident it will be acceded to by France; but whether it is adopted or not the Sultan's hand has already been greatly strengthened, as he is in a better position to act than hitherto.

AS A WHEAT CENTRE.

Winnipeg is Far Ahead of Duluth and Chicago.

A Winnipeg despatch says:—In an interview C. N. Bell, secretary of the Winnipeg Grain and Produce Exchange, pointed out the importance of this place as a wheat centre and compared its output with other places, taking the figures up to August 30, 1903. The following was the record which speaks for itself:

Bushels.
Winnipeg wheat 51,833,000
Duluth-Superior 42,406,928
Chicago-Superior 37,940,953

Mr. Bell also maintained that the acreage in the Northwest is becoming greater, and gave instances to prove his contention. He pointed to the Canadian Northern report which shows that many sections would yield twenty-five bushels to the acre while a message from the agent at Eli, in the Dauphin district claimed thirty-bushels per acre in that section.

GREAT STORM IN ENGLAND.

Wires Down and Press Despatches Delayed.

A London despatch says: A great storm has caused widespread devastation through England. The telegraph and telephone wires are down and communication with the rest of the world has been suspended.

TRANSPARENT MAN DEAD.

End of "Count" Orloff, a Noted European Freak.

A Vienna despatch says: "Count" Orloff, the well-known "transparent" man, who has been exhibited all over Europe as a freak, has just died at Toplitze, Bohemia. He consisted of practically nothing but skin and bones. The latter were of a peculiar substance, and so transparent that one could tell the time from a watch through his leg. An attempt was made by the University of Leipzig to secure the body for scientific purposes, but the late "Count's" manager asked an exorbitant sum, and negotiations fell through.

AN EIGHT-HOUR DAY.

Labor Bill Will Be Introduced in British Commons.

A Leicester, Eng., despatch says: The trades union congress, at its session here on Thursday, adopted by a large majority a resolution declaring for an eight-hour day in the United Kingdom, and urging the subject to be made a test question at the next Parliamentary London County Council and all municipal elections. The Parliamentary Committee is instructed to introduce a bill into the House of Commons making the eight-hour day a law of the country.

CANADA'S REVENUE.

Returns For July and August Show Two Million Increase.

An Ottawa despatch says: The financial statement which appeared in the Gazette on Saturday shows the revenue for the months of July and August to be \$11,520,992, as against \$9,758,947, or nearly two millions of an increase. The expenditure is placed at \$4,102,809, but there is about \$1,500,000 of accounts in the Auditor-General's hands which he refuses to pass owing to the difficulty between himself and the Treasury Board. The expenditure on capital account was \$8,979,910.

RUSSIAN HARVESTS FAIR.

Estimated at Five-Sixths of Last Year's Crops.

A St. Petersburg despatch says: The Finance Minister estimates the grain harvests in million poods (a pood is 40 pounds), as follows:—Winter wheat, 300; spring wheat, 480; winter rye, 1,250; oats, 650; barley, 375. The harvests exceed the poor averages of the years 1897 to 1901, being about five-sixths of last year's yield, which was an improvement over past years.
