Clange - World's Dispussing Maries

RICHMOND HILLs December 3, 1903

GREAT DEMAND FOR POULTRY.

The Dominion Department of Agri ulture has received communications from British dealers who desire to a modern newspap t press which purchase Canadian poultry. One of outline of book binding which tells the dealers, Mr. James Blackburn how books are sewed, case made, and of Manchester, Eng., is at present in Canada negotiating for the shipment of poultry. He states that he would be glad if he received the names of Canadian poultry shippers so that the chickens could be shipped early in December.

Agriculture has exported the chickens fatted at the illustration stations dining-room where Mrs. Duncan, asto Mr. Blackburn. The dealings have been perfectly satisfactory and the prices obtained for the chickens have been profitable. Mr. Blackburn said that he would like to handle 3,000 cases of chickens per week.

The Department has also received a letter from Mr. Wm. Rothwell, Manchester, Eng. Mr. Rothwell says :-"There seems to be a very good prospect for all kinds of poultry this Christmas. If you can give or have any consignments sent me, you can rest assured of the utmost value being obtained. Cash and sales sent immediately goods are disposed of.

I trust that I may have consignments from Canada."

referred to the fact that Rev. J. A. Rankin, president of Toronto Conterence, in a recent sermon, made a strong plea for consistency in the matter of patronizing newspapers that advertised liquor concerns. Mr. Rankin suggested that Christian subscribers might bring about a reformation by "stopping their paper," if publishers accepted liquor advertisements. Does Rev. Mr. Rankin mean that those who profess to be Christians should have no business transactions with those connected in any way with the liquor trade? When the law of our land allows the manufacture of liquor, it does not seem to us a crime to allow the dealers to advertise where it may be precured. We have heard of hotel-keepers boycotting their local storekeepers because the latter voted for a temperance measure, and we have thought it narrow. Such a boycott as the president of the Conference suggests would not be likely to have good results.

It is to be hoped there will be a large attendance at the mass meeting of Centre York Libera's to be held In the Masonic Hall this (Thursday) afternoon at two o'clock. As this is the first time that the townships of Markham, Vaughan, Etobicoke, and Scarboro, with the villages of Richmond Hill, Markham, Weston and Woodbridge, have been called together to mature plans for voting in an altered riding, it is very desirable that all formality be suspended, and that the representatives from the various parts of the constituency become well acquainted with one another. We are sure that all will be welcomed by our citizens, irrespective of party, and trust that the Liberals of this village and viwinity will be out in goodly numbers.

The election in North Renfrew to fill the seat made vacant by the death of Mr. J. W. Munroe will be held on Saturday, December 26, with nominations one week earlier. The Liberal candidate will be Mr. L. Hale, who was chosen by a representative and enthusiastic convention. The Conservative candidate will be Mr. Dunlep.

MODERN AIDS TO PRINTING.

In a special issue devoted to "Modern Aids to Printing." the Scientific American presents to its readers a fund of information about an industry which plays an important part in the life of the people, but of which little is popularly known. The number describes in an entertaining way the advances that have been made in the printing art within recent years and strikingly shows the economic significence of the press. Of the more important articles in this issue may be mentioned an instructive interview with Theodore L. DeVinne, the master printer of America; an account of the influence of mechanical typesetting as a labor saver; a description of prints 150,000 copies per hour; an embossed. The number is dressed in an admirable color cover.

FAREWELL.

Last Saturday evening Mr. Garnet Duncan extended an inv tation to a number of his bachelor friends to meet at his home to unite with him in wishing prosperity to Mr. Jocelin McCallum, who will depart shortly for Chicago to engage in other pur-For four years the Department of suits. After a pleasant hour spent in amusements of various kinds the party were invited to proceed to the sisted by her daughter Laura, and Miss Annie Boyle, had prepared a repast which could not fail to tickle the palate of the greatest epicure. After all had enjoyed to the full the good things provided, Mr. H. A. Nicholls took the chair and made a very happy and acceptable toast-master. The toasts were so arranged that each member of the party had some share in the programme and so thereby testify to the high esteem in which the guest of the evening was held. The first toast "The King" was heartily received by singing "God Save the King." "Our Guest" was responded to in a happy manner by Mr. McCallum. "Monetary Institutions" received faithful supporters at the hands of Messrs Osborne and A. Savage. Mr. Henry Marsh upheld the honor of the "Brothhood of Locomotive Firemen" of which he is an esteemed member. "Educational Interests" were ably looked after by Mr. Shaw, whilst "Manufacturing and Mercantile Pursuits" received hearty support from Messrs. Will Duncan and Albert Glass. "Agricultural Interests" were considered by Messrs. M. and A. Loyle The Christian Guardian last week to be paramount in the make-up of this busy world. "The Ladies" had brave champions in the persons of M. ssrs. H. Sanderson and H. Vanderburg. "Our Host" was ably responded to by Mr. Garnet Duncan, who inadvertantly let slip that he was that day one year older. After singing "Auld Lang Syne" a very pleasant evening, which will be long remembered by those present, was brought to a close.
