

STARTLING STORY OF MRS. ADAMS

Stricken With Bright's Disease, all Hope of Life Was Abandoned.

Her Restoration to Health Causes a Sensation in the Medical World.

Doctors Gave Her Up, But Dodd's Kidney Pills Cured Her Completely.

Collingwood, Ont., Jan. 25.—(Special).—While Canada stands aghast at the terrible inroads Bright's Disease is making on the ranks of the brightest and best of her citizens; while the medical profession stand helpless before the dread destroyer of life, Collingwood has among her citizens one who knows all its terrors, who has been carried down by it till the portals of death were open to receive her, and who to-day is a strong, healthy woman—a woman who knows Bright's Disease in all its hideousness, but who fears it not, because she knows its cure.

Mrs. Thomas Adams is this lady's name, and she has now been a resident of Collingwood for a year and a half. Before that she lived in Burk's Falls, where she is widely known and highly respected. Mrs. Adams feels it her duty to spread the good news all over Canada, all over the world, that she has found a cure for Bright's Disease, and that that cure is Dodd's Kidney Pills.

MRS. ADAMS' STORY.
"Yes," she said, when interviewed regarding her case, "my friends can tell you how terribly ill I was. My doctor pronounced it Bright's Disease and Sciatica, but I got no relief from anything he gave me. It was Dodd's Kidney Pills that drove away the terrible disease, raised me from my bed of suffering, and made me a well and happy woman.

"I was for years troubled with a pain in my back, at times I would have to keep my bed. In March, 1900, I got so bad with pains in my back and hip that I was more helpless than an infant, and at times gave up all hope of getting well. I had no power of my back or limbs. "I was for eight months an invalid, and my sufferings during that time were something too terrible for words to describe. My doctor said I had Bright's Disease, but he could do nothing to give me relief.

HOW THE CURE CAME.
"It was then a friend of my husband induced me to try Dodd's Kidney Pills. I had no faith in them, for I never expected to get better. But I tried them, and I thank God that I did. They brought me relief almost from the first, and after taking three boxes I was able to do my own work and look after my children.

"It is three years since I started using Dodd's Kidney Pills, and I have not had a return of my trouble since. When I feel a little out of sorts I just get a box of Dodd's Kidney Pills, and they drive all the pains away."

It is needless to say Mrs. Adams' friends all use Dodd's Kidney Pills. They find that a remedy that cures Bright's Disease easily disposes of all the earlier stages of Kidney complaint.

RADIUM IN MEDICINE.

Wide Field in Which Its Marvellous Agency May be Used.

The marvellous properties of radium have made it a matter of wide interest to almost everyone, but to the medical man its possible value as a therapeutic agent renders it a subject of special importance. Already many investigators are turning their attention to the treatment of various forms of disease by means of radium, and many fields have been proposed as promising ones for investigation of its action.

For instance, among the various diseases in which it has been tried may be mentioned certain malignant growths, such as epithelioma and other superficial cancers, lupus, certain skin diseases, blindness from atrophy of the optic nerve, etc. Its effect upon micro-organisms and fermentation, as well as its likely action upon the tissues and fluids of the body, suggests that, if it could be harmlessly introduced into the system, a vast field of positive usefulness lies before it. To take its effect upon micro-organisms first. As we have stated, it is admitted to have a very considerable inhibitory effect upon the functional activity of various bacteria, moulds, etc., and it is at any rate possible that it may possess a like effect upon protozoa. This at once suggests a value for its systematic employment, should such be practicable.

Now, the property possessed by radium of imparting its activity to various fluids, e. g., normal saline solution, seems to offer reasonable ground for hope that, in this way, it may be therapeutically administered internally, and the fight against bacterial disease be waged directly in the tissues affected, through the agency of the blood and lymph circulations and the various internal secretions.

Another diseased condition in which the induced radioactive salt

solution is likely to prove of service is fermentative, gastro-intestinal indigestion, with its long train of symptoms due to auto-intoxication. It is also hoped that the "radium fluid" will have a favorable effect on malignant disease of the stomach and intestine.

As to local employment, that is already under investigation, for radium has met with more or less success in many superficial diseased conditions. Its local use, however, will be found far more convenient if we can get the desired results by the employment of the induced radioactive salt solution. By this method we can use it as a local gargle, inhalations, collyria, etc.

In its use in surgical dressings, compresses can be saturated with this solution and applied over large areas which could not be reached by the radium rays.

As a spray it will be found useful in catarrhal affections of nose, throat and lungs, by coating the membranes with a fine film of radioactive matter. This active matter is antiseptic and will remain in the tissues for several hours. The radioactivity of this active matter may be intensified by exposing the patient to the ultraviolet rays, and by the internal use of quinine.

While all these possibilities of the use of radium fluid may not be borne out by actual clinical experience, nevertheless, owing to the already known properties of radium and induced radioactive substances, it is certainly worth while to try them—especially in pathological conditions which are not amenable to other forms of treatment.

BOTH MADE A DISCOVERY.

Stopping at a certain hotel, a commercial traveller, having retired to rest, became unaccountably conscious that his bed-clothing was anything but properly aired. He jumped up in a rage, stuffed the offending sheets up the chimney, and rolled himself in the blankets.

Some twelve months afterwards his travels brought him to the same hotel. When shown up to his room the chambermaid scrutinized him rather closely, and then said:—

"Dear me, sir, you are the same gentleman! Do you know, a most curious thing happened when you were here last?"

"What was that?" he asked.

"Why," she said, "the sheets disappeared, and we could not think what became of them."

"Oh, indeed!" he replied. "Then get me my bill directly; you've not had a fire in this room since, or you would have found your sheets—where all damp linen ought to be up the chimney!"

MOVING A CHURCH.

A singular piece of work has lately been carried out in Russia. At the village of Kotchausk, near Novgorod, stood a full-sized church which was pronounced to be in an unsafe condition and was to be pulled down. But the building contained many souvenirs of the famous Marshal Souvorov, and his old regiment, which is stationed at St. Petersburg, decided to possess it. Money being no object the whole church was carefully taken down, each piece being numbered, and loaded into 330 wagons. It was then transported to the capital, and there has been relected with such care that it is as good as new and may last for centuries.

You cannot whitewash yourself by blackening others.

The best cure of a bad habit is the culture of a good one.

A MODEL RAILWAY.

What Our Travelling Representative Says of the G. T. R.

A recent trip to "The States" brought "Truth" in contact, among other things, with the Grand Trunk Railway, and its incomparable dining car service. A brighter, cleaner, more efficient plan of eating while journeying, does not exist on any railway anywhere, and "Truth" has travelled on most of the leading lines of the world, and is therefore in a position to know. The "Club" breakfasts are an excellent feature, which appeals to many travellers. The attendants are courteous and obliging, and don't appear to be always looking for a "tip."

The line, heavy double track of rails between Toronto and Suspension Bridge makes it possible to run that distance without delays of any kind, and you are landed at your destination right on time to the minute.

The great improvements on the main line east, between Toronto and Montreal, have been very costly, and have in some cases meant the almost entire reconstruction of the road. The line has been straightened, the grades lessened, and "Truth" is told that very shortly a train will be put on between Toronto and Montreal that will make the distance in very much less time than even The International Limited does now.

"Truth" seldom travels on railway

Shirt waists and dainty linen are made delightfully clean and fresh with Sunlight Soap.

passes; the above statements can therefore be considered perfectly unbiased, and are made purely because of the excellent facilities afforded the general travelling public, and because of the pride "Truth" feels in one of our great national highways.

The Grand Trunk Railway Company certainly made no mistake when they handed over the reins of control to Mr. Charles M. Hays, for a more capable, all-round railway man does not exist to-day.

The Passenger Department is most efficiently directed by G. T. Bell, W. E. Davis and H. G. Elliott in Montreal, Geo. W. Vaux in Chicago, and J. D. McDonald in Toronto.

We bespeak great things for the Grand Trunk Pacific Railway on its completion.—Toronto Truth.

Example is the best argument.

How's This!

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.

F. J. CHENEY & Co., Toledo, O. We, the undersigned, have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions and financially able to carry out any obligations made by their firm.

WEST & TRUAX, Wholesale Druggists, Toledo, O. WALKING, KINNAN & MARVIN, Wholesale Druggists, Toledo, O.

Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system.

Testimonials sent free. Price 75c. per bottle. Sold by all druggists.

Hall's Family Pills are the best.

A dinner recently given by a hostess whose hospitality is notoriously inadequate, was of the usual kind that her friends expected. It served merely as an appetizer to one hungry visitor, and when the coffee was served, indicating that the dinner was at an end, his dissatisfaction was amusing to the other guests. The hostess did not notice it, however, and said to him, amiably, "Now, do tell me when we may have the pleasure of your dining with us again." "Immediately, madam, immediately," was the unexpected reply.

The Governor's Wife a Prisoner.—Mrs. Z. A. Van Laven is the wife of the governor of the county jail, Napanee, Ont., and was a great sufferer from rheumatism. When the best doctors in the community and "specialists" failed to help her, she buried her scepticism of proprietary remedies and purchased South American Rheumatic Cure. 4 bottles cured her.—42

Do not let the stream of your life be a murmuring stream.

Wash greasy dishes, pots or pans with Lever's Dry Soap a powder. It will remove the grease with the greatest ease.

A leader is never afraid of being alone.

THE WABASH RAILROAD

Is the great winter tourist route to the south and west, including Texas, Old Mexico and California, the lands of sun-shine and flowers. Through standard and tourist sleeping cars are now run via this great southern route. The new and elegant trains on the Wabash, are hauled by the most powerful engines ever built. Every comfort is provided equal to the best hotels, or the most luxurious homes. Nothing is wanting to complete one's happiness. The days and nights pass only too quickly, while travelling on the great Wabash line. For information as to rates, routes, etc., address any ticket agent or J. A. Richardson, Dist. Pass. Agt., N. E. corner King and Yonge Sts., Toronto.

BIRDS' BIG APPETITES.

If a man could eat as much in proportion to his size as a sparrow is able to consume he would need a whole sheep for dinner, a couple of dozen fowls for breakfast, and six turkeys for his evening meal. A tree-sparrow has been known to eat 700 grass seeds in a day. Birds can and do work far harder than human beings. A pair of house-martins when nesting will feed their young on an average once in twenty seconds—that is, each bird, male and female, makes ninety journeys to and fro in an hour, or perhaps 1,000 a day. It must be remembered that

After a hard day's work, there's nothing so refreshing as a cup of good hot Blue Ribbon Ceylon Tea.

DEARTH OF TEACHERS.

A state of things probably without parallel in any European country is recorded for the year just opening in connection with primary education in Spain. It is that some 3,200 schools will have to remain closed for want of teachers. This is explained by the fact that the pay of the Spanish schoolmaster is, perhaps lower than anywhere else in the world, hundreds even of men teachers receiving only about 1½d. a day. Notwithstanding this miserable state of things, the schools budget is to be cut down by about £32,000.

For Over Sixty Years

Mrs. Winslow's Soothing Syrup has been used by millions of mothers for their children while teething. It soothes the child, softens the gums, relieves pain, cures wind colic, regulates the stomach and bowels, and is the best remedy for Diarrhoea. Twenty-five cents a bottle. Sold by druggists throughout the world. Be sure and ask for "Mrs. Winslow's Soothing Syrup."

Vexed Wife—"There is no calamity that can befall a woman that I have not suffered!" Amiable Husband—"Wrong, my dear; now, you have never been a widow." Vexed Wife—"I said calamity, sir!"

Minard's Liniment Cures Distemper.

"I have just been reading the account of a railway wreck in which every occupant of the smoking-carriage was more or less injured, while the rest of the passengers in the train escaped without harm," said old Hodge. "There, Ezra," exclaimed Mrs. Hodge, triumphantly, "there is another warning against the use of tobacco!"

ORGANIC HEART DISEASE

Nervousness and Indigestion Relieved in 30 Minutes.

The Rev. Father Lord, Sr., Montreal, Canada, says: "I have been a sufferer for 20 years from organic heart disease nervousness and dyspepsia and have doctored both in France and America, with but temporary relief. I tried Dr. Agnew's Heart Cure and was indeed surprised at the immediate relief I obtained. I am firmly convinced that it will cure any case of heart disease and will strengthen the nerves and stomach."

Dr. Agnew's Liver Pills are the best. Only 10c for 40 doses.
