RICHMOND HILL, February 18, 1904

THE WINTER FAIR.

The Eastern Ontario Live Stock and Poultry show to be held at Ottawa, March 8th to 11th next, is the second of its kind to be held in Eastern Ontario, although similar shows have been held in the west for many years. The show is held under the joint direction of the Dominion Live Stock Associations and the Poultry Association of Eastern Ontario, and is intended in the future to be an annual affair.

The people of Ottawa have undertaken to erect and equip a splendid building in which the show will be held each year. Owing to a mishap the building cannot be made ready for this year but commodious quarters have been prepared where the show can be carried on in a manner satisfactory to both visitors and exhibitors. The arrangements are made so as to bring up to the best advantage the educational features of the show.

To be a successful producer of live stock or live stock products in these days a farmer must be thoroughly versed in his work. Questions such as, the principles of breeding, most economical methods of feeding and rearing, the proper time to market and the best markets are of paramount interest. These questions will be carefully and concisely dealt with in a practical manner by expert lecturers during the different sessions of the show. The exhibits furnish object lessons that will most firmly impress upon the visitors' minds the value of the many points brought out by the lecturers.

Among the exhibits will be found cattle, sheep, swine and poultry, both alive and dressed ready for market. There will also be the exhibit of dairy cattle and the stallion show. This latter is a new feature which is being introduced in connection with the Winter Fair and will no doubt make the show more instructive and of more general interest.

REARING CHICKENS.

There is every indication that there will be a great consumption of poultry in Canada this year. The demand for every class shows a striking increase during the last few years. Mr. F. C. Hare, Chief of the Dominion Poultry Division, does not believe it possible for the farmers to rear, for at least five years to come, more utility-type chickens than can be sold with profit on the Canadian markets alone. Moreover, commission merchants in Great Britain can handle profitably at least \$1,000,000 worth of our poultry yearly. Last year the export of chickens to Great Britain was materially reduced on account of the great demand in Canada. The poultry exports from Canada to Great Britain were only \$160,518, a small proportion of the \$5,154,095 imported by the Mother Country. The greatest value of poultry was exported from Russia, Belgium, France and the United States. Each of these countries shipped over \$1,000,000 worth. It is a short sighted policy on the part of our farmers to neglect this industry, when there is an unsatisfied demand for poultry.

Eight bye-elections were held Tuesday for the House of Commons. Of these 5 were carried by the Liberals, and 3 by the Conservatives. The seats won by the Liberals are St. James' division of Montreal, St. Hyacinth, Hochelaga, Montmagny

and Queen's West, P. E. I. The Conservatives carried East Lambton, East Bruce and St. John City, the latter being a gain.

Dairytown Notes.

The Headford school has been small owing to the cold weather. Our popular milk man has had several mishaps during the last week or two. In crossing the Metropolitan tracks at Gray's corner, one cold morning, his milk wagon upset owing to the high banks of snow, and he lost 10 or 12 gallons of milk. He also got his thumb knocked out of joint, but Josh takes no notice of trifles. Mr. Ed. Lynett thinks of going extensively into the horse business, and will supply the British market if required. He made considerably over the 100 per cent. in his last deal.
