BANK BARN RAISED.

The framework of a fine bank barn was raised on the farm of P. Patterson, Esq., on Wednesday of last week. As the timbers were raised by means of pulleys the usual number of men was not required. The barn, which stands a few yards to the north-west of where the firm's former offices were situated, is 88x45 feet, with stone walls under the whole building. The walls are high and the stabling and root-cellar will be large and roomy. The stone-work was done by Mr. H. Fitzland of King, and Mr. J. Riddell of Concord has the contract for the framework.

A Present for the Old Folks.

For the Stomach's Sake.

An eminent physician says, "human life should last five times the years it takes to mature"—thus if twenty-one is maturity we should live over a hundred years, but there are not many reach the century mark. A great deal more longevity would exist if the stomach did not get crippled and played out—That organ gets plenty of abuse, and is deserving of attention—It is the starting point of most ailments and it needs the first attention when symptoms of sickness appear. If an elderly stomach can be kept working right, you may be sure of a ripe and contented old age, comparatively free from physical burdens. The great new discovery, ANTI-PILL, the Great System Treatment, has a grand effect in helping old and deranged stomachs. Any aged person who will address a postal to Wilson-Fyle Co., Niagara Falls, Ont., will get a free trial bottle by return mail.

Forepaugh's Circus.

Unusual opportunity for our Citizens to see Forepaugh and Sells' Great Show.

From the present indications this village and community will be well represented on Monday, July 4, the date when the great Adam Forepaugh and Sells Brothers' Enormous Shows united will exhibit at Toronto. Scores of local people have expressed their intention of grasping this unusual opportunity to see the greatest of all American Circuses, and they will see many acts never before presented. Just a partial list includes Porthos, who on his bicycle leaps a chasm 50 feet wide; Diavolo, who loops the loop on a bicycle; Cyclone, ascending perpendicularly the "Devil's Chimney"; the Lecussions, the famous French family of wonderful equestrians; the Hungarian Magyars in singular emotional dances and wildly strenuous acrobatic performances; the renowned Aurora Zouaves, most marvelous drilled soldiers in the world. Then there are over a half hundred celebrated clowns, three

great herds of trained elephants, the greatest number of polar bears ever seen in one collection, fourteen full-grown Arctic beauties. All lines of travel will offer specially low rates, and the day will prove the biggest holiday of the year. The agent of these lines of travel will furnish all necessary information as to time of trains and rates of fare. There is one thing certain, and that is that these excursion arrangements will enable people in the country to see identically the same show as seen by those who live in the metropolitan cities.
